APPENDIX A – GENERAL APPROPRIATIONS BILL COMPARISONS	61

INTRODUCTION

This summary of the General Appropriations Bill provides an overview of the appropriations included in the General Appropriations Bill, otherwise known as the state budget. The version of the General Appropriations Bill that becomes law, after being passed by the Legislature and signed by the Governor, is referred to as the General Appropriations Act. This enacted legislation is the state's budget for a two-year period (biennium). The Legislative Budget Board (LBB) staff provides a Summary of the General Appropriations Bill for each version of the bill as the budget deliberations occur during the legislative session. The summary is not a reconciliation of each change in the General Appropriations Bill, but rather a high-level overview of major changes between the biennia and between iterations of the bill. It is a reference for legislators and other stakeholders as they work through budget deliberations.

The General Appropriations Bill is categorized into articles that cover certain areas of state government. For example, Article I contains agencies of General Government, Article II contains Health and Human Services, and Article III contains Public and Higher Education. Six additional articles cover the other areas of government.

The Legislature uses four methods of finance to appropriate funds to state agencies and public institutions of higher education: General Revenue Funds, General Revenue–Dedicated Funds, Federal Funds, and Other Funds. **All Funds** is the summation of the methods of finance.

- **General Revenue Funds** include the nondedicated portion of the General Revenue Fund, which is the state's primary operating fund. General Revenue Funds also include the Available School Fund, the State Instructional Materials Fund, and the Foundation School Fund.
- **General Revenue–Dedicated Funds** include approximately 200 accounts within the General Revenue Fund that are dedicated for specific purposes by statute or the funds-consolidation process. For example, Account No. 151, Clean Air, is funded primarily through a portion of motor vehicle inspection fees and a portion of air pollution control fees. These revenues are statutorily dedicated to the Texas Commission on Environmental Quality to provide funding for various air quality, monitoring, and permitting programs.
- **Federal Funds** include grants, allocations, payments, or reimbursements received from the federal government by state agencies and institutions. The largest portion of federal funding appropriations is for the Medicaid program in Article II. Other examples of Federal Funds appropriations include the U.S. Social Security Act, the U.S. Every Student Succeeds Act (Title I), Grants to Local Educational Agencies, National School Lunch Program, Transportation Grants and National Highway System Funding, Special Education Basic State Grants, and the Children's Health Insurance Program.
- **Other Funds** consist of any funds that are not included in the General Revenue Fund, whether they are dedicated or not, or Federal Funds. Examples of Other Funds appropriations include those from the State Highway Fund, the Texas Mobility Fund, the Property Tax Relief Fund, the Economic Stabilization Fund, trust funds, bond proceeds, and Interagency Contracts.

The Introduction chapter of the summary provides a high-level overview of the General Appropriations Bill. **Figures 1 to 14** show total recommended appropriations for the 2026–27 biennium by each method of finance for each article in the bill compared to the 2024–25 biennium expended/budgeted level of funding. This chapter includes highlights of major funding items, significant policy, or fiscal issues across the state.

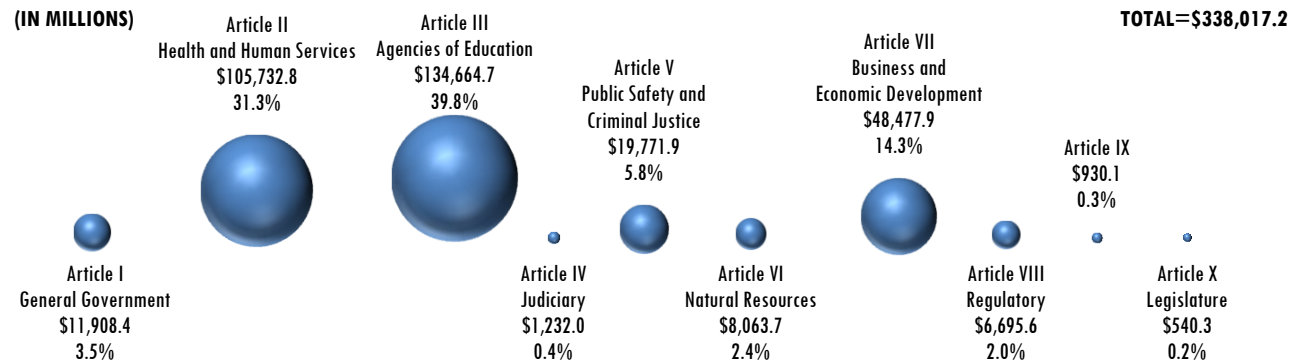

The Introduction chapter also provides additional context for understanding the General Appropriations Bill, including an explanation of constitutional and statutory spending limits.

Following the Introduction chapter are article-specific chapters. Each chapter provides an overview of the total article appropriations by agency or institution, including estimated and budgeted expenditures for the 2024–25 biennium, recommended appropriation levels in the 2026–27 General Appropriations Bill, full-time-equivalent positions for the article, and other significant fiscal issues.

Finally, **Appendix A** provides a comparison point between versions of the General Appropriations Bill as the Legislature progresses through the budget deliberations. This comparison enables readers to identify differences between chamber bills, or a specific chamber's changes.

HIGHLIGHTS OF CONFERENCE COMMITTEE REPORT FOR SENATE BILL 1

For the 2026–27 biennium, funding includes the following key budget items:

FOUNDATION SCHOOL PROGRAM

- Funding of \$75.1 billion in All Funds is included for state aid to school districts and charter schools through the Foundation School Program (FSP), which would be an increase of \$13.6 billion from the 2024–25 biennium. Appropriations from General Revenue Funds for the FSP total \$39.8 billion, an increase of \$8.5 billion from the 2024–25 biennium.
- Appropriations in Senate Bill 1, Eighty-ninth Legislature, 2025, Article IX, include \$8.5 billion in General Revenue Funds for increased public education funding, contingent upon enactment of House Bill 2, relating to public education and public school finance, and Senate Bill 569, relating to the provision of virtual education in public schools. Of this amount, an estimated \$8.4 billion is appropriated to the Texas Education Agency to implement the provisions of the legislation.
- Funding for the FSP would fund requirements in current law fully. This funding includes an estimated \$3.1 billion in All Funds to represent changes in student population projections; a savings of \$4.7 billion in All Funds due to district property value growth; and an estimated \$1.0 billion in All Funds related to an increase in the golden penny yield.
- Funding for tax relief includes an estimated total of \$51.0 billion for the 2026–27 biennium, which would maintain property tax relief provided since the enactment of House Bill 3, Eighty-sixth Legislature, 2019; provide new property tax relief pursuant to House Bill 3; and provide new tax relief contingent upon enactment of legislation by the Eighty-ninth Legislature, 2025.
- Increased funding for property tax relief from the 2024–25 biennium includes \$10.0 billion from the General Revenue Fund and the Property Tax Relief Fund and a decrease of an estimated \$2.0 billion in recapture payments. Estimated costs of district property tax compression required by current law during the 2026–27 biennium totals \$2.6 billion in General Revenue Funds. Of this amount, \$1.8 billion in General Revenue Funds is due to property tax compression pursuant to the Texas Education Code, Sections 48.2551 and 48.2552(a) and (b), and \$0.8 billion is required to reduce the state compression percentage pursuant to the Texas Education Code, Section 48.2552(c). Included in the \$10.0 billion is \$3.5 billion to maintain property tax relief provided by the Eighty-eighth Legislature, 2023, and \$3.9 billion for additional property tax relief through an increase to the state-mandated homestead exemption; an increase in the homestead exemption for individuals age 65 or older or disabled; and through an increase to the exemption for tangible personal property; contingent upon the enactment of Senate Bill 4 and Senate Joint Resolution 2; Senate Bill 23 and Senate Joint Resolution 85; House Bill 9 and House Joint Resolution 1; or similar legislation relating to providing property tax relief through the public school finance system by the Eighty-ninth Legislature, and subsequent voter approval of the associated constitutional amendments.
- Funding from Other Funds for the FSP includes an estimated increase of \$5.1 billion, which is attributable primarily to increasing from \$12.3 billion to \$18.8 billion the transfer from the General Revenue Fund to the Property Tax Relief Fund to support new property tax relief for the 2026–27 biennium. Funding also includes a projected decrease of \$2.8 million in recapture payments and a projected increase of \$1.3 billion from the Tax Reduction and Excellence in Education Fund.

MEDICAID

- Funding for the Texas Medicaid program would provide \$82.6 billion in All Funds, including \$32.0 billion in General Revenue Funds and \$0.1 billion in General Revenue–Dedicated Funds. This amount would be an increase from 2024–25 biennial levels of \$6.2 billion in All Funds and \$2.7 billion in General Revenue Funds. These amounts do not include \$750.0 million appropriated in House Bill 500 for the Medicaid program.
- Included in these amounts is \$75.9 billion in All Funds for Medicaid client services, \$2.4 billion in All Funds for programs supported by Medicaid funding, and \$4.3 billion in All Funds for administration of the Medicaid program

and other programs supported by Medicaid funding. The net increase in Medicaid funding is due to a \$5.9 billion increase in All Funds for Medicaid client services, a \$0.3 billion increase in All Funds for other programs supported by Medicaid funding, and it is partially offset by a decrease of less than \$0.1 billion in All Funds for administrative funding.

- Projected stabilization of caseload growth and a lower proportion of the program being funded with Federal Funds due to less favorable federal medical assistance percentages result in increased demand on General Revenue Funds. Full funding for anticipated increases in cost due to medical inflation, higher utilization, or increased acuity is not included.

TRANSPORTATION

- Funding would provide \$39.9 billion in All Funds for all functions at the Texas Department of Transportation (TxDOT). Estimated funding for the 2026–27 biennium includes \$26.7 billion in Other Funds from all State Highway Fund (SHF) revenue sources, which includes the following amounts: \$8.0 billion from oil and natural gas tax-related transfers to the SHF (Proposition 1, 2014); \$7.4 billion from state sales tax and motor vehicle sales and rental tax deposits to the SHF (Proposition 7, 2015); and \$11.3 billion from all other SHF tax and fee revenue sources.
- Funding would provide \$35.8 billion in All Funds for highway planning and design, right-of-way acquisition, construction, and maintenance and preservation. This amount includes \$11.5 billion in Federal Funds, \$24.1 billion in Other Funds from all SHF revenue sources, and \$0.1 billion in Other Funds from the Texas Mobility Fund.
- Funding would provide \$2.1 billion in All Funds for debt service payments and other financing costs associated with TxDOT borrowing programs, including \$1.3 billion in Other Funds from SHF revenue sources, \$0.7 billion in Other Funds from the Texas Mobility Fund, and \$110.1 million in Federal Funds from Build America Bonds interest payment subsidies.

BEHAVIORAL HEALTH

- Funding for non-Medicaid/Children's Health Insurance Program (CHIP) behavioral health services would provide \$6.5 billion in All Funds, including \$5.5 billion from General Revenue Funds and General Revenue–Dedicated Funds. Funding supports programs at 30 agencies across seven articles and includes the following areas: funding for inpatient client services at state hospitals and community hospitals; outpatient services provided through local mental health authorities and local behavioral health authorities; substance abuse prevention, intervention, and treatment services for adults and children; mental healthcare and substance abuse treatment for incarcerated offenders; mental healthcare services for veterans; and other services.
- Medicaid expenditures for behavioral health services are estimated to total \$3.9 billion in All Funds for the 2026–27 biennium. CHIP expenditures are estimated to total \$59.6 million in All Funds. These amounts include projected cost growth that is not included in the funding provisions. Total behavioral health-related funding, including estimated Medicaid and CHIP expenditures, is estimated at \$10.4 billion from All Funds for the biennium.
- Funding for non-Medicaid and CHIP behavioral health services decreased by \$2.5 billion in All Funds from 2024–25 biennial spending levels, including \$1.6 billion in General Revenue Funds and General Revenue–Dedicated Funds. The decrease is due primarily to decreases at the Health and Human Services Commission (HHSC) for onetime construction projects and certain capital repair and renovation projects at state-funded inpatient mental health facilities (\$2.0 billion in General Revenue Funds; \$14.7 million in Federal Funds; \$150.7 million in Other Funds). These decreases are offset partially by an increase of \$165.9 million from General Revenue Funds; 630.6 full-time-equivalent (FTE) positions in fiscal year 2026 and 1,964.8 FTE positions in fiscal year 2027 for operation of expanded capacity at certain state-owned hospitals; \$92.6 million from General Revenue Funds for rate increases and operation of expanded capacity for community mental health hospitals; and an increase of \$40.0 million from General Revenue Funds at HHSC for youth mobile crisis outreach teams.

CHILD PROTECTIVE SERVICES

- Funding of \$4.2 billion in All Funds, including \$2.8 billion in General Revenue Funds, would be provided for all Child Protective Services (CPS) functions at the Texas Department of Family and Protective Services. This

amount is an increase of \$195.5 million in All Funds, including \$252.0 million in General Revenue Funds, from the 2024–25 biennium.

- CPS funding includes \$1.8 billion in All Funds, including \$960.3 million in General Revenue Funds, for client services programs including foster care, adoption subsidies, permanency care assistance payments, relative caregiver payments, and day care.
- Funding includes \$2.0 billion in All Funds, including \$1.6 billion in General Revenue Funds, for CPS direct delivery staff, including services provided through Community-based Care (CBC). This amount includes increased funding to biennialize CBC expansion that occurred during fiscal year 2024 for Stage II in Regions 8B, 4, and 5 and Stage I in Regions 8A, 6A, and 6B. This amount provides funding to expand CBC into Stage II in Regions 6A, 6B, 7A, and 8A and Stage I in Regions 7A, 7B, 11A, and 11B. This amount also provides funding to increase the network support payment to \$2,500 per child full-time-equivalent, as well as provide resource transfer payments for readiness prior to the implementation of each stage.

HIGHER EDUCATION FORMULA FUNDING

- Higher education formulas are supported by \$10.8 billion in General Revenue Funds and \$1.6 billion in statutory tuition in General Revenue–Dedicated Funds. Included in these amounts are increases of \$687.6 million in General Revenue Funds and \$5.6 million in General Revenue–Dedicated Funds.
- The general academic institutions (GAI) Instruction and Operations (I&O) formula rate would be increased from \$59.08 to \$60.67 per weighted semester credit hour, and the GAI Infrastructure formula rate would be increased from \$5.75 to \$5.94 per predicted square foot. Formula rates for the health-related institutions (HRI) I&O, Infrastructure Support, Graduate Medical Education, and HRI Research Enhancement formulas are comparable to 2024–25 biennial rates.

TEACHER RETIREMENT AND HEALTH BENEFITS

- Funding of \$6.4 billion in All Funds would provide the state contribution to retirement benefits of the Teacher Retirement System of Texas (TRS), including \$6.3 billion in General Revenue Funds and \$82.4 million in General Revenue–Dedicated Funds. Funding amounts represent a state contribution rate of 8.25 percent of employee payroll for fiscal years 2026 and 2027. Retiree health insurance funding totals \$1.2 billion in General Revenue Funds to provide a statutorily required state contribution to TRS-Care of 1.25 percent of public education payroll. Funding levels are anticipated to be sufficient to reduce current TRS-Care premiums and maintain benefits for the 2026–27 biennium.
- Funding for TRS assumes 5.0 percent annual payroll growth for public education retirement, 7.9 percent annual payroll growth for higher education retirement, and 5.0 percent annual payroll growth for TRS-Care.
- In addition to active employee health benefits funded by the Foundation School Program, pursuant to the Texas Insurance Code, Section 1579.251, active employee health insurance funding of \$369.2 million in General Revenue Funds is provided in the supplemental appropriations bill, House Bill 500, Eighty-ninth Legislature, 2025.

ADULT CORRECTIONS AND JUVENILE JUSTICE

- Funding for the Texas Department of Criminal Justice (TDCJ) for the 2026–27 biennium totals \$9,752.6 million in All Funds, which would be an increase of \$1,056.1 million, or 12.1 percent from the 2024–25 biennial expenditure levels. The increase is attributable primarily to funding for salary increases for correctional and parole officers (\$362.6 million); the resumption of services at previously idled units and to fund per diem rate increases at contracted facilities (\$313.0 million); additional funding to address increasing correctional managed healthcare costs (\$259.0 million); additional

funding to address increasing operational costs (\$150.0 million); increased funding for local community supervision and corrections departments to address increasing costs and provide salary increases (\$46.4 million); the operation of the Dalby Correctional Facility in Post (\$41.2 million); targeted salary increases for TDCJ staff (\$20.0 million); increased infirmary capacity (\$19.3 million); training and retention initiatives (\$15.6 million); increased operating expenses and expanded capacity at the Texas Correctional Office on Offenders with Medical or Mental Impairment (\$9.0 million); and information technology staffing enhancements (\$7.0 million). In addition, House Bill 500, Eighty-ninth Legislature, 2025, the supplemental appropriations bill, includes funding for the construction of expansion dormitories (\$301.0 million); major repair and restoration projects (\$226.3 million); and the purchase of the Dalby Correctional Facility (\$110.0 million).

- These increases are offset by a \$328.1 million decrease in General Revenue Funds and an \$85.4 million decrease in General Revenue–Dedicated Funds to remove onetime funding for major repair and construction projects, vehicles, body scanners, and capital equipment; a decrease of \$27.3 million in Federal Funds to account for an anticipated reduction in grant awards; a decrease of \$30.7 million in Other Funds to remove onetime funding and adjust anticipated Interagency Contracts according to agency projections; and an \$11.6 million decrease in General Revenue Funds to transfer funding for education to Windham School District.
- In addition to these amounts, funding includes \$4,605.5 million in General Revenue Funds to offset a corresponding \$4,605.5 million decrease in Federal Funds related to COVID-19 pandemic relief.
- Funding for the Texas Juvenile Justice Department (TJJD) for the 2026–27 biennium totals \$953.1 million in All Funds, which would be a decrease of \$78.7 million, or 7.6 percent, in All Funds. The decrease is attributable primarily to the removal of onetime funding for the construction of new facilities (\$200.0 million). This decrease would be offset by funding for salary increases for direct-care staff at state secure facilities and local juvenile probation department staff (\$46.1 million); the biennialization of the statewide salary adjustments (\$24.0 million); the impact of the Legislative Budget Board’s January 2025 population projections (\$22.5 million); funding for the Office of the Inspector General (\$13.3 million); and funding for pre-adjudication and post-adjudication and regionalization placements (\$6.4 million). In addition, House Bill 500 includes supplemental funding to complete the construction of two new facilities (\$104.0 million); reimbursement to counties for holding youth that are pending admission to TJJD (\$13.3 million); and life safety and preventive maintenance projects (\$5.0 million).

BORDER SECURITY

- Funding includes \$3,351.7 million in All Funds, which would support border security efforts at 13 state agencies across several articles of government. Most of the funding included for border security would be appropriated to three agencies: \$1,765.5 million to the Texas Military Department (TMD); \$1,194.6 million to the Texas Department of Public Safety (DPS); and \$228.5 million to the Office of the Governor (OOG).
- Funding for the 2026–27 biennium includes \$1,765.5 million in General Revenue Funds for border security at TMD. The State Guard and National Guard support OLS by maintaining security points, conducting mobile land and river patrols, and constructing temporary fencing and barriers along the Texas–Mexico border.
- At DPS, funding for border security would maintain support for staffing at full deployment levels. Funding includes \$1,194.6 million in General Revenue Funds for OLS and other agency border security efforts. This base funding would provide for salary and wages for troopers deployed in the border region, a 50.0-hour work week, human-trafficking prevention, anti-gang activities, cameras, and equipment.
- Funding for the OOG’s border security activities totals \$228.5 million in General Revenue Funds for Border Security for the 2026–27 biennium. This amount includes funding for border prosecution grants, anti-gang programs, and border processing centers.

- Funding for other agencies to receive significant appropriations for border security for the 2026–27 biennium includes \$33.6 million to the Texas Parks and Wildlife Department, \$44.8 million to the Office of Court Administration, \$25.9 million to the Texas Department of Criminal Justice, \$25.1 million to the Texas Department of Motor Vehicles, and \$16.4 million to the Department of State Health Services.
- Senate Bill 1, Eighty-ninth Legislature, 2025, Article IX, Section 7.10, Border Security, specifies the border security agencies, appropriation amounts, and reporting requirements.

STATE EMPLOYEE RETIREMENT, HEALTH BENEFITS, SOCIAL SECURITY, AND FULL-TIME-EQUIVALENT POSITIONS

- Funding of \$1.9 billion in All Funds, including \$1.4 billion in General Revenue Funds and General Revenue–Dedicated Funds, would provide for the state contribution to the Employees Retirement System of Texas (ERS) retirement program. This amount is an increase of \$250.0 million in All Funds, and an increase of \$406.4 million in General Revenue Funds and General Revenue–Dedicated Funds, for state employees’ retirement benefits, due to assuming 0.93 percent annual payroll growth for fiscal years 2026 and 2027. Funding would provide for a 9.5 percent state contribution rate for each fiscal year of the 2026–27 biennium. Funding also would continue the additional retirement contribution from all general state agencies of 0.5 percent of the total base wages and salaries for each eligible employee, for a total combined state contribution rate of 10.0 percent, the maximum pursuant to the Texas Constitution, Article XVI, Section 67(b)(3).
- Funding of \$4.7 billion in All Funds, including \$3.3 billion in General Revenue Funds and General Revenue–Dedicated Funds, would provide for the state contribution for group insurance benefits (GBP) for general state employees, retirees, and their dependents. The funding is an increase of \$862.9 million in All Funds, including \$1,039.6 million in General Revenue Funds and General Revenue–Dedicated Funds, prompted by assumed active and retired member growth and an 8.0 percent increase in GBP premiums in each year of the biennium.
- Funding of \$150.0 million in General Revenue Funds would provide for health insurance contributions for local community supervision and corrections department employees, retirees, and dependents who also participate in the GBP. The funding provides an increase of \$13.6 million in General Revenue Funds, which includes an 8.0 percent increase in premiums in each year of the biennium.
- Funding of \$2.8 billion in All Funds, including \$2.3 billion in General Revenue Funds and General Revenue–Dedicated Funds, would provide for the state contribution for Social Security payroll taxes for employees of state agencies and institutions of higher education, which is an increase of \$466.9 million in All Funds, including \$646.4 million in General Revenue Funds and General Revenue–Dedicated Funds. The funding is sufficient to provide the 6.2 percent Social Security employer contribution and the 1.45 percent Medicare employer contribution. Funding assumes 0.93 percent annual payroll growth for state agency employees in fiscal years 2026 and 2027, and 5.5 percent and 5.6 percent annual payroll growth, respectively, for higher education employees in fiscal years 2026 and 2027.
- Funding would provide for 239,382.0 full-time-equivalent (FTE) positions for fiscal year 2026, and 240,861.3 FTE positions for fiscal year 2027. The number of FTE positions for fiscal year 2027 is an increase of 16,291.3 positions from fiscal year 2025 budgeted levels.

DEBT SERVICE

- Funding for the 2026–27 biennium totals \$4.7 billion in All Funds and would fund debt service fully. This amount is a decrease of \$86.2 million from the 2024–25 biennium. Funding would provide for debt service for General Obligation and revenue debt issued, or expected to be issued, by the Texas Public Finance Authority, the Texas Facilities Commission, the Texas Water Development Board, the Texas Department of Transportation, and the Office of the Governor. Funding also would provide for reimbursement of debt service payments for Capital Construction Assistance Projects issued by various institutions.

SUPPLEMENTAL APPROPRIATIONS, 2024–25 BIENNIUM

In addition to appropriations made in the General Appropriations Bill for the 2026–27 biennium, House Bill 500 provides supplemental appropriations for fiscal year 2025 totaling \$12,532.0 million in All Funds and \$13,049.2 million in General Revenue Funds. Funding includes the following key budget items:

- Texas Water Development Board: \$2.6 billion in All Funds, including \$2.5 billion for water infrastructure and grants and \$131.3 million to match Federal Funds for the Clean Water and Drinking Water State Revolving Funds;
- Comptroller of Public Accounts (CPA): \$1.6 billion in General Revenue Funds for deposits including \$1.3 billion to the Texas University Fund, \$300.0 million to the Space Exploration and Aeronautics Research Fund, and \$40.5 million to the General Revenue–Dedicated Account No. 469, Victims of Crime;
- Texas Education Agency: \$1.4 billion in General Revenue Funds, including \$1.1 billion for the Foundation School Program resulting from updated projections, contingent funding of \$243.0 million for instructional materials, and a \$2.5 billion decrease in Other Funds primarily due to decreases from budgeted recapture amounts following the enactment of Senate Bill 2, Eighty-eighth Legislature, Second Called Session, 2023;
- Texas Department of Criminal Justice: \$1.3 billion in General Revenue Funds for operations (\$566.4 million), dormitory construction (\$301.0 million), repairs (\$226.3 million), Dalby Correctional Facility purchase (\$110.0 million), and other major projects (\$60.0 million);
- Trusteed Programs within the Office of the Governor: \$1.4 billion in All Funds for programs including contingent funding of \$350.0 million (nuclear development), contingent funding of \$250.0 million (semiconductors), contingent funding of \$250.0 million (Texas Moving Image Industry Incentive Program), \$177.2 million (federal victims of crime funding shortfall), and additional grants;
- Employees Retirement System of Texas: \$1.0 billion in All Funds, including \$916.0 million in General Revenue Funds, for a biennial legacy payment toward unfunded actuarial liabilities;
- Health and Human Services Commission: \$982.7 million in General Revenue Funds, including \$750.0 million for Medicaid, \$100.0 million for Dallas State Hospital, \$98.0 million for deferred maintenance, and additional amounts for other health services;
- Information Technology Projects: \$723.9 million in All Funds across agencies, including \$624.6 million in General Revenue Funds and smaller amounts from dedicated and federal sources;
- Texas A&M Forest Service: \$618.0 million in All Funds, including \$257.0 million for aircraft, \$192.3 million to address the backlog for Volunteer Fire Department Assistance, and \$124.8 million for aircraft use, and a \$44.0 million transfer to the Volunteer Fire Department Assistance program;
- Facilities and Related Projects: \$561.4 million in General Revenue Funds, including: \$287.4 million to the Texas Facilities Commission for construction of the State Insurance Building, two sensitive compartmentalized information facilities, the Rudder Building, and a flex space; \$142.4 million to the State Preservation Board for major repairs to state facilities; \$100.0 million for the Courthouse Grant Program; and \$32.6 million for office relocations;
- Texas Higher Education Coordinating Board: \$490.4 million in General Revenue Funds, including contingent funding of \$400.9 million to address the backlog in eligible unmatched donations and \$89.5 million for community college growth;
- Texas Department of Transportation: \$465.8 million in General Revenue Funds for railroad grade separation projects (\$250.0 million), aviation services (\$106.8 million), aircraft purchases (\$52.0 million), runway expansion (\$22.0 million), State Highway 99 improvements (\$20.0 million), and hangar construction (\$15.0 million);
- other higher education institutions: \$405.7 million in General Revenue Funds, including funding for emergency response, clean rooms, cancer centers, and law enforcement training, and other projects;

- Teacher Retirement System of Texas: \$369.2 million in General Revenue Funds for TRS-ActiveCare;
- vehicle replacement: \$280.1 million in All Funds for agency vehicle replacement, including \$237.0 million in General Revenue Funds;
- Department of State Health Services: \$205.0 million in Federal Funds to expand lab capacity;
- General Land Office: \$150.0 million in General Revenue Funds for Alamo improvements;
- Texas Juvenile Justice Department: \$123.0 million in General Revenue Funds for new facilities (\$104.0 million), county reimbursements, and other projects;
- Railroad Commission of Texas: \$100.0 million in General Revenue Funds for the well plugging program;
- Texas Workforce Commission: \$98.8 million in General Revenue Funds, including \$68.0 million for the Unemployment Compensation account and \$30.8 million for vocational rehabilitation;
- Department of Family and Protective Services: \$96.6 million in All Funds, including \$82.6 million in General Revenue Funds, for child placement, staffing, and day-care services;
- Texas Parks and Wildlife Department: \$87.0 million in All Funds, including \$60.0 million for local park grants, \$21.4 million for headquarters repairs, and \$5.6 million for construction;
- Texas Military Department: \$84.6 million in General Revenue Funds, including \$75.0 million for the State of Texas Armory Revitalization (STAR) program and \$9.6 million for roof replacements;
- Texas School for the Deaf: \$35.3 million in General Revenue Funds for campus construction (Phase 3B);
- Texas Department of Public Safety: \$24.0 million in General Revenue Funds including \$20.0 million for deferred maintenance; \$2.5 million for generator expansion at the Austin crime lab; \$1.2 million for lock replacement; and \$0.3 million for Capitol Complex security; and
- other items include General Revenue Funds appropriations for the following areas: Department of Information Resources, \$10.0 million for regional security operations center operations; CPA, \$7.5 million for the operations and administration of education savings accounts; Civil Commitment Office, \$7.4 million for healthcare costs; CPA, \$5.9 million for Jobs, Energy, Technology and Innovation Act administration; Office of Court Administration, \$5.1 million for indigent defense; Judicial Conduct Commission, \$2.5 million for office costs; Texas Department of Licensing and Regulation, \$2.5 million for operations; Texas School for the Blind and Visually Impaired, \$1.4 million for administration; and the following decreases: \$159.0 million for Texas Military Department lapses, \$55.0 million for Texas Facilities Commission lease savings, \$10.0 million for Texas Public Finance Authority debt service.

LIMITS ON APPROPRIATIONS

Texas has four constitutional limits on spending: the balanced budget limit, which is commonly referred to as the pay-as-you-go limit; the limit on the rate of growth of appropriations from certain state taxes, commonly referred to as the tax spending limit; the limit on welfare spending; and the limit on tax-supported debt. In addition, Texas has a statutory limit on the growth of consolidated General Revenue (CGR) appropriations, commonly referred to as the CGR limit.

The pay-as-you-go, tax spending, and CGR limits all restrict appropriations, but in different ways. The pay-as-you-go limit prohibits the General Revenue Fund budget from exceeding available revenue. The tax spending limit prohibits appropriations funded with tax revenues that are not dedicated by the Texas Constitution from growing faster than the state's economy. The tax spending limit does not apply to appropriations funded with nontax revenues or appropriations funded with tax revenues if the constitution requires the tax revenue to be spent for a specific purpose. The CGR limit prohibits General Revenue Funds and General Revenue–Dedicated Funds appropriations from growing faster than the compounded growth of Texas population and monetary inflation. Appropriations to pay for tax relief or costs associated with recovery from a disaster declared by the Governor are excluded from the CGR limit.

The 2026–27 biennial General Revenue Funds appropriations total \$149.2 billion. This amount is \$3.9 billion less than the pay-as-you-go limit, based on the 2025 Biennial Revenue Estimate (BRE) from the Comptroller of Public Accounts (CPA), as shown in **Figure 15**. General Revenue Funds are \$10.3 billion less than the General Revenue Funds capacity in accordance with the tax spending limit. The 2026–27 biennial Consolidated General Revenue Funds amounts total \$157.3 billion. This amount is \$15.3 billion less than the CGR limit. This analysis includes anticipated supplemental appropriations in fiscal year 2025 made in the second Committee Substitute for House Bill 500, Eighty-ninth Legislature, 2025 and the second Committee Substitute for House Bill 4486, Eighty-ninth Legislature, 2025. Any change to the fiscal year 2025 appropriations beyond what is assumed in this analysis will change the 2026–27 limits and spending authority subject to the limits. The pay-as-you-go limit is the controlling limit because General Revenue Funds spending authority is lower than for the other two limits.

FIGURE 15
REMAINING GENERAL REVENUE FUNDS SPENDING AUTHORITY, 2026–27 BIENNIUM

(IN BILLIONS)	AMOUNT
Pay-as-you-go Limit	\$3.9
Tax Spending Limit	\$10.3
Consolidated General Revenue Limit	\$15.3

ARTICLE III, SECTION 49a, PAY-AS-YOU-GO LIMIT

The Texas Constitution, Article III, Section 49a, sets the so-called pay-as-you-go limit. The constitution requires that bills making appropriations are sent to the CPA for certification that the appropriations are within estimates of available revenue.

CPA identifies the pay-as-you-go limit for General Revenue Funds appropriations as \$194.6 billion in the BRE. This total includes estimated 2026–27 biennial General Revenue Funds revenue collections of \$176.4 billion, less the amount of \$5.6 billion in General Revenue Funds deposits reserved for transfer to the State Highway Fund. This total also includes the beginning 2026–27 General Revenue Fund balance and General Revenue–Dedicated Funds account balances available for certification, which totals \$23.8 billion as shown in **Figure 16**. Legislative actions increasing or decreasing revenue collections could change the total amount of revenue available.

By contrast, the amount of revenue available for the Eighty-eighth Legislature, Regular Session, 2023, in accordance with the pay-as-you-go limit identified in the 2023 BRE was \$188.2 billion.

FIGURE 16
COMPONENTS OF THE PAY-AS-YOU-GO LIMIT, 2026–27 BIENNIUM

NOTE: Figure shows General Revenue Funds portion.
SOURCE: Legislative Budget Board.

The \$194.6 billion in available revenue applies to 2026–27 biennial General Revenue Funds appropriations and to fiscal year 2025 supplemental General Revenue Funds appropriations. Consequently, any increase in supplemental General Revenue Funds appropriations for fiscal year 2025 will decrease General Revenue Funds spending capacity proportionately for the 2026–27 biennium; conversely a decrease in 2025 appropriations will increase 2026–27 General Revenue Funds spending capacity.

ARTICLE VIII, SECTION 22, LIMITATION ON THE GROWTH OF CERTAIN APPROPRIATIONS

The Texas Constitution, Article VIII, Section 22, prohibits appropriations funded with state tax revenues not dedicated by the constitution from growing faster than the estimated rate of growth of the state’s economy. Consequently, the revenue source funding appropriations determines whether the appropriations are subject to the spending limit. Appropriations funded with tax revenues are subject to the spending limit unless the constitution dedicates the tax revenue for a specific purpose. The spending limit does not apply to appropriations funded with nontax revenues or appropriations funded with tax revenues if the constitution requires the tax revenue to be spent for a specific purpose.

The 2026–27 biennial spending limit equals total 2024–25 biennial appropriations funded with tax revenues not dedicated by the constitution of \$115.7 billion, grown by the adopted growth rate of 8.93 percent. The 2026–27 biennial spending limit is estimated to be \$126.0 billion after adjusting for revenue estimates in the CPA’s 2025 Biennial Revenue Estimate and updating the 2024–25 biennial base to include estimated supplemental appropriations. The 2026–27 biennial appropriations subject to the spending limit total \$116.5 billion, \$9.5 billion less than the spending limit, as shown in **Figure 17**. The 2024–25 biennial appropriations subject to the spending limit, including supplemental appropriations assumed for this analysis, total \$115.7 billion, \$4.9 billion below the spending limit for that biennium, which would yield maximum additional 2024–25 General Revenue Funds appropriations of \$5.5 billion. Any changes to supplemental appropriations or other legislation affecting revenue beyond the assumptions in this analysis will change the estimate of the 2026–27 biennial spending limit and available spending capacity.

FIGURE 17
SPENDING LIMIT COMPARED TO THE COMMITTEE SUBSTITUTE FOR SENATE BILL 1
2026–27 BIENNIUM

(IN BILLIONS)	AMOUNT
Spending Limit	\$126.0
Appropriations Subject to the Spending Limit	(\$116.5)
Total Less Than the Spending Limit	\$9.5

FIGURE 18
GENERAL REVENUE FUNDS PURSUANT TO THE SPENDING LIMIT COMPARED TO THE COMMITTEE SUBSTITUTE FOR SENATE BILL 1, 2026–27 BIENNIUM

(IN BILLIONS)	AMOUNT
Maximum General Revenue Funds Appropriations Pursuant to the Spending Limit	\$159.5
Committee Substitute for Senate Bill 1 General Revenue Funds Appropriations	(\$149.2)
Total Less Than the Maximum General Revenue Fund Appropriations	\$10.3

SOURCE: Legislative Budget Board.

Because revenue deposits to the General Revenue Fund also include revenue not subject to the spending limit, the maximum 2026–27 biennial General Revenue Funds appropriations associated with the \$126.0 billion limit is \$157.5 billion, leaving \$10.3 billion in remaining General Revenue Funds spending capacity less than the spending limit, as shown in **Figure 18**.

THE TEXAS GOVERNMENT CODE, SECTION 316.001, CONSOLIDATED GENERAL REVENUE LIMIT

The Texas Government Code, Chapter 316, Subchapter A, restricts the rate of growth of consolidated General Revenue appropriations (CGR) and is referred to as the CGR limit. CGR appropriations are defined as the sum of General Revenue Funds and General Revenue–Dedicated Funds appropriations. In each biennium, the growth of CGR appropriations is limited to no more than the compounded rate of Texas population growth and monetary inflation growth, averaged over the current and upcoming biennium. However, the statute excludes from the computation of this limitation appropriations for a purpose that provides tax relief or appropriations to pay costs associated with recovery from a disaster declared by the Governor.

The 2026–27 biennial CGR limit is estimated to total \$155.2 billion. Consolidated General Revenue Funds amounts total \$157.3 billion, of which \$17.5 billion are excluded from the limitation. After combining these amounts, \$15.3 billion of CGR spending capacity remains under the 2026–27 CGR limit.

ARTICLE III, SECTION 49-j, DEBT LIMIT

The Texas Constitution, Article III, Section 49-j, provides that the Legislature may not authorize additional state debt if in any fiscal year the resulting maximum annual debt service payable from the General Revenue Fund, excluding revenues constitutionally dedicated for purposes other than payment of state debt, exceeds 5.0 percent of the average annual unrestricted General Revenue for the previous three years. To monitor where the state stands in relation to the constitutional debt limit (CDL), the Bond Review Board (BRB) calculates two debt ratios. The first ratio is the debt service on outstanding or issued debt as a percentage of unrestricted General Revenue Funds. At the end of fiscal year 2024, the BRB reported that the issued debt ratio is 0.92 percent. The second debt ratio is the debt service on outstanding debt plus estimated debt service for authorized but unissued bonds. For this ratio, the BRB has reported that the state is at 1.70 percent of unrestricted General Revenue Funds at the end of fiscal year 2024. The latter calculation represents a 0.25 percentage-point decrease from the 1.95 percent calculated for outstanding and authorized but unissued debt for fiscal year 2023. The BRB expects the CDL ratio to continue to decrease with the issuance of authorized debt. However, the CDL ratio could be affected by changes to any of the following factors: the three-year average of unrestricted General Revenue Funds, the amount of debt outstanding and unissued debt authorizations, and actual and assumed interest rates.

ARTICLE III, SECTION 51-a, WELFARE SPENDING LIMIT

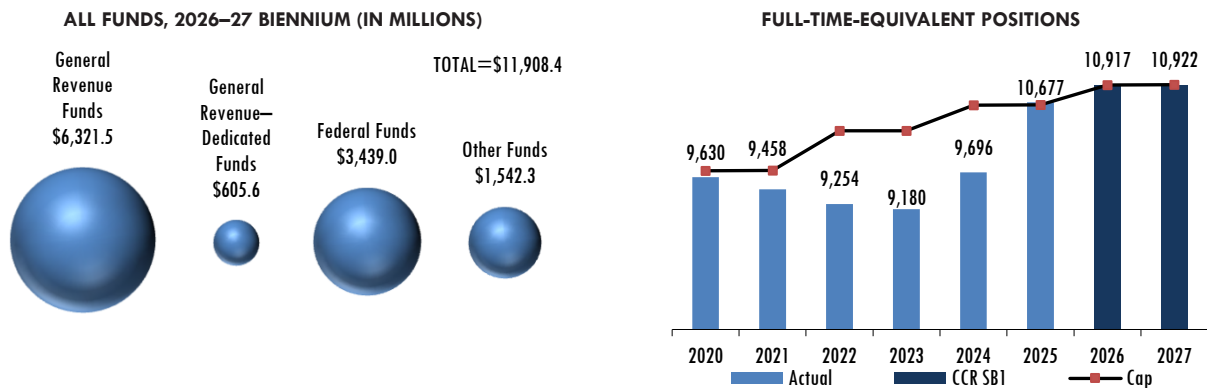

The Texas Constitution, Article III, Section 51-a, requires that the amount paid out of state funds for assistance grants to or on behalf of needy dependent children and their caretakers not exceed 1.0 percent of the state budget in any biennium.

The 2026–27 biennial budget defined in the Texas Human Resources Code, Section 31.053, is \$338.0 billion. Therefore, the welfare spending limit is \$3.4 billion. The biennial amount included in the Conference Committee Report for Senate Bill 1 for the 2026–27 biennium that is subject to the limit on state dollars paid out in Temporary Assistance for Needy Families (cash assistance) grants is \$45.9 million, which is \$3.3 billion less than the 1.0 percent limit.

ARTICLE I – GENERAL GOVERNMENT

FIGURE 19
ARTICLE I – GENERAL GOVERNMENT, BY METHOD OF FINANCE

(IN MILLIONS)	ESTIMATED/BUDGETED 2024–25	CCR SB1 2026–27	BIENNIAL CHANGE	PERCENTAGE CHANGE
METHOD OF FINANCE				
General Revenue Funds	\$11,040.2	\$6,321.5	(\$4,718.7)	(42.7%)
General Revenue–Dedicated Funds	\$2,530.5	\$605.6	(\$1,924.9)	(76.1%)
Federal Funds	\$5,583.6	\$3,439.0	(\$2,144.6)	(38.4%)
Other Funds	\$2,484.8	\$1,542.3	(\$942.5)	(37.9%)
Total, All Methods of Finance	\$21,639.1	\$11,908.4	(\$9,730.7)	(45.0%)

NOTES:

- (1) Substantive items funded in the Conference Committee Report for Senate Bill 1, Article IX, for the 2026–27 biennium are allocated to the prospective articles and agencies.
- (2) Excludes Interagency Contracts.
- (3) Biennial change and percentage change are calculated on actual amounts before rounding. Therefore, totals may not sum due to rounding.

SOURCES: Legislative Budget Board; State Auditor's Office.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE I

All Funds for the General Government agencies total \$11.9 billion for the 2026–27 biennium, which would be a decrease of \$9.7 billion, or 45 percent, from the 2024–25 biennium. General Revenue Funds total \$6.3 billion, a decrease of \$4.7 billion, or 46.7 percent. Included in totals is \$441.9 million in Article IX for various appropriations contingent upon the enactment of relevant legislation.

HIGHLIGHTS

- Funding for the **Texas Commission on the Arts** totals \$39.8 million in All Funds for the 2026–27 biennium, which would be an increase of \$5.7 million. Funding levels include increased funding for arts organization grants (\$5.9 million) and grants to cultural districts (\$2.0 million).
- Funding for the **Office of the Attorney General** totals \$1,469.6 million in All Funds for the 2026–27 biennium, which would be a decrease of \$108.5 million in All Funds, primarily due to a decrease of onetime funding for various projects, including funding for litigation against Google, LLC, information technology projects, the Landowners Compensation program, and the consolidation of funding for the Statewide Victims Notification System at the Trusteed Programs within the Office of the Governor. Also included is funding for salary increases (\$29.0 million), additional funding for the agency's law enforcement division (\$6.6 million), additional staff and funding for the Criminal Investigations Department (\$3.9 million), a legal case-management system (\$7.1 million), and additional funding for Victims Assistance Grants (\$5.0 million). Included in the agency's totals is \$5.0 million in Article IX appropriations contingent upon the enactment of certain legislation.

- Funding for the **Comptroller of Public Accounts** totals \$776.4 million in All Funds for the 2026–27 biennium. This amount would be an increase of \$32.2 million, due primarily to increased funding for recruitment and retention efforts (\$14.2 million), targeted salary increases in the Audit and Enforcement divisions (\$7.2 million), additional full-time-equivalent (FTE) positions and equipment for the Criminal Investigation Division (\$3.9 million), and funding for increased travel and training (\$0.5 million). Included in the agency's totals is \$11.2 million in Article IX appropriations contingent on the enactment of certain legislation.
- Funding for the **Fiscal Programs within the Comptroller of Public Accounts** totals \$4,462.0 million in All Funds for the 2026–27 biennium, which would be an increase of \$315.2 million from the 2024–25 biennium. The increase is related to an increase in federal grant funding through the Broadband Equity, Access, and Deployment program, offset by a decrease in planned expenditures from the Texas Broadband Infrastructure Fund. Included in the agency's totals is \$111.2 million in Article IX appropriations contingent on the enactment of certain legislation.
- Funding for the **Employees Retirement System of Texas**, across all articles, totals \$7,085.1 million for the 2026–27 biennium, including the addition of \$537.2 million in All Funds for the Group Benefits Program and Probation Health Insurance that would address increased healthcare costs for state employees. In addition to the agency's totals is \$40.3 million in Article IX appropriations contingent on the enactment of Senate Bill 1737.
- Funding for the **Texas Facilities Commission** totals \$488.5 million in All Funds for the 2026–27 biennium, which would be a decrease of \$1,906.6 million from the 2024–25 biennium, related primarily to a decrease of onetime capital funding for border wall and facility construction. Funding levels include funding for inflation adjustments for maintenance and renewal projects (\$10.0 million), a combined law enforcement facility in Brazoria County (\$8.0 million) and optimizing the use of state-owned facilities (\$3.9 million). Included in the agency's totals is \$123.3 million in Article IX appropriations for the design and construction of infrastructure to support Beacon Healthcare and research and development in the Permian Basin region.
- Funding for the **Trusted Programs within the Office of the Governor** totals \$1,728.1 million, a decrease of \$7,918.3 million in All Funds from the previous biennium. Decreases in All Funds are associated primarily with the end of funding from the Coronavirus Relief Fund, the expenditure of unexpended balances carried from the 2022–23 biennium to the 2024–25 biennium, onetime funding related to border security, and a decreased number of agency funding requests for multiple programs. Funding levels increase funding for Nonprofit Security grants (\$5.0 million), Sex Trafficking Prevention grants (\$1.0 million), Film Workforce Pilot Program (\$30.0 million), Crime Laboratory Portal Records grants (\$0.5 million), grants for testing of forensic evidence (\$2.0 million), funding to support a statewide crime victim notification system (\$13.0 million), Project Safe Neighborhood grants (\$2.0 million), establishment of foreign offices (\$2.1 million), grants to Texas Anti-Gang Centers for technology to improve security at correctional facilities (\$60.0 million), and various state criminal justice planning projects (\$14.6 million). Included in the agency's totals is an overall decrease of \$9.0 million in Article IX appropriations contingent on the enactment of certain legislation.
- Funding for the **Texas Historical Commission** totals \$171.3 million, which would be a decrease of \$174.5 million in All Funds, primarily related to various onetime funding projects, including renovation and construction projects at historic sites, Capitol Complex projects, and Courthouse Preservation Grants. Funding includes an increase of \$21.7 million for historic sites projects, \$1.1 million for the Republic of Texas International Boundary Marker and El Camino Real de los Tejas National Historic Trail, \$58.8 million for grants to historic organizations for preservation and capital projects, \$2.5 million for the Texas Holocaust, Genocide, and Antisemitism Advisory Commission, and \$3.0 million for targeted salary increases and new FTE positions across several programs. Included in the agency's totals is \$0.1 million in additional funding for the Texas State Almanac and \$4.9 million in Article IX appropriations contingent on the enactment of certain legislation.
- Funding for the **Department of Information Resources** totals \$1,721.2 million in All Funds for the 2026–27 biennium, which would be an increase of \$123.2 million from the 2024–25 biennium. The increase is due primarily to the removal of onetime expenditures and unexpended balances carried from the 2022–23 biennium into the 2024–25 biennium,

offset by an increase in customer utilization of agency services. Included in the agency's totals is \$142.9 million in Article IX appropriations contingent on the enactment of certain legislation.

- Funding for the **State Preservation Board** totals \$35.0 million in All Funds for the 2026–27 biennium, which would be a decrease of \$195.1 million due primarily to the removal of Senate and House Facilities projects and other onetime capital projects.
- Funding for the **Secretary of State** totals \$ 143.4 million in All Funds for the 2026–27 biennium, which would be a decrease of \$21.2 million from the 2024–25 biennium. This decrease is due primarily to the removal of onetime funding provided for replacement of the Business Entity Secured Transaction system and Federal Funds provided through the Help America Vote Act. Funding would include increases to promote election security (\$2.6 million), improve business processes (\$6.9 million), establish expedited document-processing services (\$3.9 million), provide balloting material to military and overseas voters (\$1.0 million), and for the listing of certain local election information on the agency's website (\$0.4 million). Included in the agency's totals is \$2.3 million in Article IX appropriations contingent on the enactment of certain legislation.
- Funding for the **Texas Veterans Commission** totals \$145.9 million in All Funds for the 2026–27 biennium, which would be an increase of \$1.0 million. Funding levels include an increase in staffing for various programs for veterans (\$2.2 million) and grants for organizations that provide veterinary services for veterans (\$1.0 million), offset primarily by the removal of onetime funding. Included in the agency's totals is \$5.5 million in Article IX appropriations contingent on the enactment of Senate Bill 1814.

Figure 20 shows the All Funds appropriation for each agency in Article I, and **Figure 21** shows the General Revenue Funds appropriation for each agency.

SOURCES: Legislative Budget Board; State Auditor's Office.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE II

All Funds for the Health and Human Services agencies total \$105.7 billion, which would be an increase of \$4.9 billion from the 2024–25 biennium. General Revenue Funds and General Revenue–Dedicated Funds total \$45.7 billion, an increase of \$1.9 billion from the 2024–25 biennium.

Appropriations for Health and Human Services encompass various programs; however, the net biennial All Funds increase results primarily from the following areas:

- an increase of \$5.9 billion in All Funds associated with Medicaid and \$1.4 billion for Children's Health Insurance Program (CHIP) client services, primarily due to caseload growth. These amounts do not include \$750.0 million included in House Bill 500, Eighty-ninth Legislature, 2025, the supplemental appropriations bill, for the Medicaid program;
- an increase of \$152.7 million for contingency appropriations;
- a decrease of \$2.2 billion in All Funds associated with behavioral health, primarily due to decreases for onetime construction projects and certain capital repair and renovation projects at state mental health hospitals and other state-funded inpatient mental health facilities; and
- a decrease of \$0.6 billion in Federal Funds at the Department of State Health Services provided for response to the COVID-19 pandemic.

HIGHLIGHTS

- Funding of \$82.6 billion in All Funds, including \$32.0 billion in General Revenue Funds and \$0.1 billion in General Revenue–Dedicated Funds, would be provided at the three Health and Human Services agencies for the Texas Medicaid program. This amount constitutes an increase of \$6.2 billion in All Funds and \$2.7 billion in General Revenue Funds, including the following amounts:
 - \$75.9 billion in All Funds for Medicaid client services, \$2.4 billion in All Funds for programs supported by Medicaid funding, and \$4.3 billion in All Funds for administration of the Medicaid program and other programs supported by Medicaid funding. The net increase in Medicaid funding is due to a \$5.9 billion increase in All Funds in Medicaid client services, a \$0.3 billion increase in All Funds for other programs supported by Medicaid funding, and a less than \$0.1 billion increase in All Funds for administrative funding; and
 - a smaller proportion of the program is funded with Federal Funds due to less favorable federal medical assistance percentages. Full funding for anticipated increases in cost due to medical inflation, higher utilization, or increased acuity is not included.
- Funding for non-Medicaid/CHIP behavioral health services at the three Health and Human Services agencies totals \$5.1 billion in All Funds, including \$4.2 billion in General Revenue Funds and General Revenue–Dedicated Funds, which would fund community mental health services; mental health services for veterans; inpatient mental health services at state-owned and community hospitals; and substance abuse prevention, intervention, and treatment services. This amount is a decrease of \$2.2 billion in All Funds, primarily due to decreases at the **Health and Human Services Commission** for onetime construction projects and certain capital repair and renovation projects at state mental health hospitals and other state-funded inpatient mental health facilities. This amount is offset partially by an increase of \$165.9 million in General Revenue Funds, 630.6 full-time-equivalent (FTE) positions in fiscal year 2026, 1,964.8 FTE positions in fiscal year 2027 for operation of expanded capacity at certain state-owned hospitals, and an increase of \$92.6 million in General Revenue Funds for rate increases and operation of expanded capacity at community mental health hospitals.
- Funding for the **Department of Family and Protective Services** would provide \$116.5 million in All Funds, including \$110.4 million in General Revenue Funds, to expand Community-based Care into new regions and stages and to increase the network support payment to \$2,500 per child full-time-equivalent and provide resource transfer payments for readiness before the implementation of each stage.

Figure 23 shows All Funds amounts for each agency in Article II, and **Figure 24** shows General Revenue Funds amounts for each agency.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE III

Public Education funding excluding the Teacher Retirement System, the Optional Retirement Program, and end-of-article benefits, totals \$92.8 billion in All Funds for the 2026–27 biennium, which would be an increase of \$14.4 billion, or 18.4 percent, from the 2024–25 biennium. General Revenue Related Funds total \$43.8 billion, an increase of \$8.3 billion, or 23.2 percent, from the 2024–25 biennium. Other Funds total \$35.4 billion for the 2026–27 biennium, an increase of \$5.2 billion, or 17.2 percent, which is attributable primarily to increasing from \$12.3 billion to \$18.8 billion the transfer from the General Revenue Fund to the Property Tax Relief Fund to support new property tax relief for the 2026–27 biennium, as directed by the 2026–27 Conference Committee Report for Senate Bill 1, Article III, Texas Education Agency, Rider 76. Federal Funds total \$13.7 billion, which would be an increase of \$1.0 billion, or 7.6 percent, from the 2024–25 biennium.

Most Public Education funding consists of state aid for school districts and charter schools provided through the Foundation School Program (FSP). FSP funding is driven by statutory formulas, amounts specified in the General Appropriations Act, and projected enrollment and district property value amounts, including the following areas:

- FSP funding for the 2026–27 biennium includes \$39.8 billion in General Revenue Funds and \$75.1 billion in All Funds. This amount would constitute a biennial increase of \$8.5 billion, or 27.1 percent, in General Revenue Funds, and an All Funds increase of \$13.6 billion, or 22.1 percent, from the 2024–25 biennium.
- Funding for the FSP would fund requirements in current law fully and includes an estimated \$3.1 billion in All Funds to address changes in student population projections; a savings of \$4.7 billion in All Funds due to district property value

growth; \$10.0 billion from the General Revenue Fund and Property Tax Relief Fund for additional state aid related to property tax relief, \$3.9 billion of which is contingent upon actions of the Eighty-ninth Legislature, 2025; and \$1.0 billion in All Funds related to an increase in the golden penny yield.

- Appropriations in Senate Bill 1, Article IX, include \$8.5 billion in General Revenue Funds for increased public education funding, contingent upon enactment of House Bill 2, relating to public education and public school finance, and Senate Bill 569, relating to the provision of virtual education in public schools. Of this amount, an estimated \$8.4 billion is appropriated to the Texas Education Agency to implement the provisions of the legislation. Of this amount, appropriations also include legislative intent to provide an additional \$0.2 billion in General Revenue Funds in House Bill 500, the supplemental appropriations bill, for open educational resource curriculum adoption supports contingent on the enactment of House Bill 2.
- Non-FSP program and administration funding for the 2026–27 biennium includes \$2.8 billion in General Revenue Funds, which would be a decrease of \$1.3 billion from the 2024–25 biennium. The net decrease is due primarily to the removal of \$1.1 billion in onetime grant funding for school district safety and facility enhancements and the exclusion of \$233.1 million in onetime unexpended balances for the Instructional Materials and Technology Allotment. Non-FSP funding for the 2026–27 biennium includes \$16.5 billion in All Funds, which would be a decrease of \$311.2 million attributable primarily to an increase of \$971.2 million in various Federal Funds estimates, offset by the \$1.3 billion decrease in General Revenue Funds.

Public Education funding for the 2026–27 biennium also includes \$1.0 billion in General Revenue–Dedicated Funds to establish an Education Savings Account Program administered by the Comptroller of Public Accounts, contingent on the enactment of Senate Bill 2, Eighty-ninth Legislature, Regular Session, 2025.

Funding for public and higher education retirement benefits required under current law includes \$6.4 billion in All Funds, which would provide the state contribution to retirement benefits of the Teacher Retirement System of Texas (TRS). Retiree health insurance funding totals \$1.2 billion in General Revenue Funds for the statutorily required state contribution to TRS-Care of 1.25 percent of public education payroll. Contingency funding for House Bill 2 includes the benefit costs to TRS for public education salary increases, including an additional \$45.4 million for TRS-Care and \$34.3 million for public education retirement in the 2026–27 biennium. In addition to active employee health benefits funded by the FSP, pursuant to the Texas Insurance Code, Section 1579.251, active employee health insurance funding of \$369.2 million in General Revenue Funds is provided in House Bill 500.

Funding for **Higher Education**, excluding end-of-article benefits, totals \$30.4 billion in All Funds for the 2026–27 biennium, which would be an increase of \$867.3 million, or 2.9 percent, from the 2024–25 biennium. General Revenue Funds and General Revenue–Dedicated Funds total \$22.8 billion, an increase of \$1.5 billion, or 6.9 percent, from the 2024–25 biennium. Most of the Higher Education funding provided from General Revenue Funds and General Revenue–Dedicated Funds consists of formula funding into the general academic institutions, Lamar State Colleges, Texas State Technical Colleges, health-related institutions, and public community and junior colleges, including the following areas:

- Higher education formulas are supported by \$10.8 billion in General Revenue Funds and \$1.6 billion in statutory tuition in General Revenue–Dedicated Funds. Included in these amounts are increases of \$687.6 million in General Revenue Funds and \$5.6 million in General Revenue–Dedicated Funds. Formula funding rates from the 2024–25 biennium for health-related institutions largely would be maintained in funding for the 2026–27 biennium; however, formulas for the general academic institutions (GAI) include the following adjustments:
 - an increase in the GAI Instruction and Operations formula rate, from \$59.08 to \$60.67 per semester credit hour;
 - an increase in the GAI Infrastructure formula rate, from \$5.75 to \$5.94 per predicted square foot;
 - an increase in the Texas State Technical College returned value rate, from 35.9 percent to 56.1 percent; and

- an increase in the Lamar State Colleges' Instruction and Administration formula rate, from \$8.16 to \$9.16 per contact hour.
- Mission-specific formula funding for health-related institutions for the 2026–27 biennium would increase from the 2024–25 biennium due in part to the establishment of two new mission-specific formulas:
 - Sam Houston Regional Education Consortium Formula (Sam Houston State University College of Osteopathic Medicine): \$3.6 million for the 2026–27 biennium; and
 - Texas Academic Medical Center Support Formula (University of Texas at Austin Dell Medical School): \$29.4 million for the 2026–27 biennium.
- Funding for nonformula support items at all institutions for the 2026–27 biennium totals \$1.9 billion in General Revenue Funds, which would be a decrease of \$501.3 million from the 2024–25 biennium. This decrease is due primarily to decreases in onetime funding, offset partially by an increase of \$567.0 million in new nonformula support items across various institutions.
- Funding contingent upon the enactment of legislation or voter approval of a constitutional amendment totals \$924.8 million in General Revenue Funds, including \$850.0 million that would establish a Texas State Technical College (TSTC) endowment fund for support of TSTC capital projects.
- Funding for Higher Education Employee Group Insurance Contributions totals \$1.9 billion in General Revenue Funds and General Revenue–Dedicated Funds, which would be an increase of \$313.6 million from the 2024–25 biennium due in part to an increase in the monthly premium rate, as was adopted for general state employees.
- Funding for the 2026–27 biennium for Capital Construction Assistance Projects revenue bond debt service totals \$1.3 billion in General Revenue Funds, a decrease of \$44.5 million from the 2024–25 biennium.
- Funding for the **Texas Higher Education Coordinating Board** would provide a total of \$304.4 million in All Funds for Graduate Medical Education Expansion. This amount includes \$282.4 million in General Revenue Funds, an increase of \$71.3 million from 2024–25 biennial appropriated funding levels, and \$22.0 million in distributions from the Permanent Fund Supporting Graduate Medical Education (Other Funds).
- Funding for the Higher Education Fund for the 2026–27 biennium totals \$1.2 billion in General Revenue Funds, which would be an increase of \$393.8 million from the 2024–25 biennium.
- Funding for the Texas A&M University System agencies for the 2026–27 biennium totals \$792.7 million in General Revenue Funds and General Revenue–Dedicated Funds, which would be an increase of \$46.6 million from the 2024–25 biennium. This increase includes \$55.0 million for the Texas A&M Engineering Experiment Station for Texas IGNITE: Innovative Growth in Next-gen AI Technology Ecosystems.

Figure 26 shows the All Funds appropriation for each agency in Article III, and **Figure 27** shows the General Revenue Funds appropriation for each agency.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE IV

All Funds for agencies of the Judiciary total \$1.2 billion for the 2026–27 biennium, a decrease of \$9.2 million, or 0.7 percent, from the 2024–25 biennium. General Revenue Funds total \$829.0 million, which would be a decrease of \$22.0 million, or 2.6 percent, from the 2024–25 biennium. General Revenue–Dedicated Funds total \$206.1 million, which would be an increase of \$33.4 million, or 19.3 percent, from the 2024–25 biennium.

Funding for the Judiciary supports administration of the Texas court system. This support includes the operations of 17 appellate courts and 73 children's courts, district judge salaries and county-level judge salary supplements, the judicial retirement system, prosecutor salaries and payments, judicial branch service agencies, indigent defense, basic civil legal services, juror pay, and judicial education.

HIGHLIGHTS

- Funding includes an estimated \$296.4 million in All Funds, an increase of \$5.1 million, for judicial salaries and supplements under the tiered, tenure-based compensation structure established by the Texas Government Code, Section 659.012. This increase includes \$3.7 million for Child Support Court and Child Protection Court associate judge salaries, \$0.8 million for district judge and professional prosecutor salaries, and \$0.6 million for appellate court judge and justice salaries.
- Funding includes \$165.2 million in All Funds for the Texas Indigent Defense Commission to assist counties to establish, develop, and maintain cost-effective indigent defense services. This amount is a net decrease of \$0.2 million from 2024–25 biennial spending levels. This amount includes a decrease of \$10.0 million in General Revenue–Dedicated Funds from Account No. 5073, Fair Defense, due to an anticipated decrease in court cost fee revenue; a decrease of \$10.3 million in General Revenue Funds due to the expiration of Unexpended Balance Authority provided by Senate Bill 30, Eighty-eighth Legislature, Regular Session, 2023, to provide indigent defense associated with Operation Lone Star as required by House Bill 9, Eighty-seventh Legislature, Second Called Session, 2021, offset by an increase of \$10.0 million in General Revenue Funds to address the revenue shortfall in Account No. 5073; \$8.8 million in General Revenue

Funds for new or expanded public defender offices; \$1.0 million to establish and operate a regional public defender office to serve Terrell and Val Verde counties; and \$0.3 million for salary adjustments. In addition, funding would continue to provide \$1.2 million distributed among six universities for the Innocence Project at 2024–25 biennial levels.

- Funding includes an estimated \$80.3 million in All Funds, a decrease of \$21.2 million from 2024–25 biennial levels, for the **Supreme Court of Texas** to provide basic civil legal services (BCLS) to eligible recipients. The decrease of \$21.2 million in Other Funds from the Judicial Fund is due to an anticipated decrease in civil penalties recovered and collected by the Office of the Attorney General. Funding would continue \$63.3 million in All Funds to provide BCLS for indigent clients at 2024–25 biennial spending levels, including \$10.0 million to provide BCLS to victims of sexual assault and \$7.0 million to provide BCLS to veterans and their families.
- Funding includes \$103.8 million in General Revenue–Dedicated Funds from Account No. 5157, Statewide Electronic Filing System, to provide for Statewide Electronic Filing System vendor contract payments, maintenance costs for the Uniform Case Management System, and statewide judicial technology projects identified by the **Office of Court Administration** (OCA). This amount includes an increase of \$50.3 million from 2024–25 biennial spending levels due to anticipated increases in revenue from filing fees and court costs paid by individuals convicted of an offense.
- Funding includes \$44.8 million in General Revenue Funds through OCA for border security purposes, which would continue 2024–25 biennial spending levels. This provision continues funding of \$31.6 million for legal representation for indigent clients, foreign language interpreters for courts, increased staff functions, equipment purchases, and program administration costs. Funding also continues \$13.2 million to provide magistration services, including weekend services; manage hearings conducted by videoconference; and support counties with in-person adjudication of border security cases during the 2026–27 biennium.
- Funding includes \$36.6 million in All Funds for Child Protection Courts and Child Support Courts within the OCA. This amount includes \$16.2 million for 30 Child Protection Courts and \$20.4 million for 43 Child Support Courts.
- Funding includes \$27.5 million in All Funds, an increase of \$1.7 million from 2024–25 biennial spending levels, for the **Court of Criminal Appeals’** Judicial Education grant program to provide legal education and technical assistance to judges, court staff, prosecuting attorneys and their staff, and criminal defense attorneys that regularly represent indigent defendants in criminal matters; and innocence training to law enforcement officers, law students, and other participants.
- Funding includes \$14.3 million in All Funds for the administration of the Business Court, an increase of \$4.5 million from 2024–25 biennial spending levels. The increase includes \$3.3 million for unanticipated costs related to establishing the court, including salaries for court reporters and law clerks, purchase of recording equipment, and security. Funding also includes \$1.2 million for salary adjustments.
- Funding includes \$10.1 million in All Funds to provide a 6.0 percent salary increase for all non-judicial staff positions within the Judiciary.
- Funding includes \$8.7 million in All Funds for the administration of the **Office of Capital and Forensic Writs**, an increase of \$2.2 million from 2024–25 biennial spending levels. The increase includes \$1.7 million to support 8.0 additional full-time-equivalent (FTE) positions, including 2.0 staff attorney positions, 2.0 mitigation specialist positions, 3.0 paralegal positions, and 1.0 administrative assistant position to establish a new litigation team to accept additional death penalty cases; \$0.3 million for salary adjustments; and \$0.2 million to establish a Mitigation Specialist Pipeline Fellowship program to improve retention and recruitment of mitigation specialists.
- Funding includes \$6.6 million in All Funds for the **Fifteenth Court of Appeals**, an increase of \$4.2 million from 2024–25 biennial spending levels. The court was established statutorily at the beginning of fiscal year 2025. The increase includes \$2.3 million to biennialize appropriations for salaries and operation, \$1.2 million to build a dedicated courtroom, and \$0.7 million for salary adjustments.
- Funding includes \$2.8 million in General Revenue Funds to the Special Prosecution Unit to support three new trial teams, salary adjustments, and administrative costs at the unit’s Walker County headquarters.

- Funding includes \$1.1 million in General Revenue Funds to the **State Commission on Judicial Conduct** to support 5.0 additional FTE positions, including 2.0 staff attorney positions, 1.0 legal assistant position, 1.0 investigator position, and 1.0 administrative assistant position to address the backlog of complaint investigations.
- Funding includes \$0.4 million in General Revenue Funds to the **State Law Library** for 2.0 additional librarian FTE positions and for the translation of portions of the agency's website to Spanish.

Figure 29 shows the All Funds amount for each agency in Article IV, and **Figure 30** shows the General Revenue Funds amount for each agency.

SOURCES: Legislative Budget Board; State Auditor's Office.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE V

All Funds for Public Safety and Criminal Justice agencies for the 2026–27 biennium total \$19,771.9 million, which would be an increase of \$286.6 million, or 1.5 percent, from the 2024–25 biennial expenditure levels. General Revenue Funds for the 2026–27 biennium total \$19,244.8 million, which would be an increase of \$5,843.7 million, or 43.6 percent, from the 2024–25 biennium.

Significant increases are primarily for the biennialization of state salary adjustments provided during the 2024–25 biennium, new commissioned law enforcement officers and support staff at the Department of Public Safety (DPS), driver license division improvements at DPS, reopened units at the Texas Department of Criminal Justice (TDCJ), correctional officer and parole officer salary increases at TDCJ, additional funding for local community supervision and corrections departments at TDCJ, and salary increases at the Texas Juvenile Justice Department (TJJD).

Within the 2026–27 biennial funding for TDCJ, \$4,605.5 million in General Revenue Funds would offset a corresponding \$4,605.5 million decrease in Federal Funds related to COVID-19 pandemic relief.

HIGHLIGHTS

- Funding for **DPS** for the 2026–27 biennium totals \$3,790.9 million in All Funds, which would be a decrease of \$69.9 million, or 1.8 percent from the 2024–25 biennial expenditure levels. This decrease is attributable primarily to the removal of onetime funding for various facility-related projects (\$455.3 million); onetime vehicle replacement and aircraft costs (\$123.4 million); and onetime funding for various information technology (IT) projects (\$42.7 million). These decreases would be offset by funding for 467.0 new full-time-equivalent (FTE) positions for commissioned

law enforcement officers and 135.5 support positions (\$319.5 million); six replacement helicopters and one fixed-wing airplane (\$56.1 million); 399.0 positions to support the remote issuance of driver licenses (\$47.1 million); the biennialization of statewide salary adjustments (\$43.5 million); funding for two new driver license offices (\$26.4 million); additional Driver License Customer Service Center Staff (\$28.5 million); law enforcement equipment including body-worn cameras and data storage, vehicular cameras' data storage and dispatch systems (\$20.4 million); cold case resolution capability expansion and 51.5 FTE positions (\$20.4 million); merit and retention pay for noncommissioned staff (\$16.1 million); contingency funding for various bills as outlined in Article IX (\$13.7 million); driver license performance improvement group and 28.0 FTE positions (\$12.0 million); and additional funding for the Statewide Safe Gun Storage Campaign (\$0.5 million). In addition, House Bill 500, Eighty-ninth Legislature, 2025, the supplemental appropriations bill, includes funding for deferred maintenance (\$20.0 million); generators for the Austin Crime Lab (\$2.5 million); and lock replacements (\$1.2 million).

- Funding for **TDCJ** for the 2026–27 biennium totals \$9,752.6 million in All Funds, which would be an increase of \$1,056.1 million, or 12.1 percent from the 2024–25 biennial expenditure levels. The increase is attributable primarily to funding for salary increases for correctional and parole officers (\$362.6 million); the resumption of services at previously idled units and to fund per diem rate increases at contracted facilities (\$313.0 million); additional funding to address increasing correctional managed healthcare costs (\$259.0 million); additional funding to address increasing operational costs (\$150.0 million); increased funding for local community supervision and corrections departments to address increasing costs and provide salary increases (\$46.4 million); the operation of the Dalby Correctional Facility in Post (\$41.2 million); targeted salary increases for TDCJ staff (\$20.0 million); increased infirmary capacity (\$19.3 million); training and retention initiatives (\$15.6 million); increased operating expenses and expanded capacity at the Texas Correctional Office on Offenders with Medical or Mental Impairment (\$9.0 million); and IT staffing enhancements (\$7.0 million). These increases would be offset by the removal of onetime funding for major repair and restoration projects (\$231.2 million); vehicle replacements (\$43.6 million); and capital equipment (\$19.3 million). In addition, House Bill 500 includes supplemental funding for the construction of expansion dormitories (\$301.0 million); major repair and restoration projects (\$226.3 million); and the purchase of the Dalby Correctional Facility (\$110.0 million).
- Funding for **TJJD** for the 2026–27 biennium totals \$953.1 million in All Funds, which would be a decrease of \$78.7 million, or 7.6 percent, in All Funds. The decrease is attributable primarily to the removal of onetime funding for the construction of new facilities (\$200.0 million). This decrease would be offset by funding for salary increases for direct-care staff at state secure facilities and local juvenile probation department staff (\$46.1 million); the biennialization of the statewide salary adjustments (\$24.0 million); the impact of the Legislative Budget Board's January 2025 population projections (\$22.5 million); funding for the Office of the Inspector General (\$13.3 million); and funding for pre-adjudication and post-adjudication and regionalization placements (\$6.4 million). In addition, House Bill 500 includes supplemental funding to complete the construction of two new facilities (\$104.0 million); reimbursement to counties for holding youth that are pending admission to TJJD (\$13.3 million); and life safety and preventive maintenance projects (\$5.0 million).
- Funding for the **Texas Commission on Law Enforcement** for the 2026–27 biennium totals \$39.5 million in All Funds, which would be an increase of \$12.5 million, or 46.5 percent, in All Funds. The increase is attributable to funding for IT modernization efforts (\$4.4 million); improved resources for technical assistance and training (\$3.9 million); the expansion of the criminal justice career pipeline program (\$2.0 million); training academy specialists (\$2.0 million); compliance analysts (\$1.2 million); salary increases (\$0.7 million); legal support staff (\$0.5 million); and records management staff (\$0.3 million). These increases would be offset by the removal of onetime funding for vehicle replacements (\$1.8 million) and IT projects (\$1.9 million).
- Funding for the **Texas Commission on Fire Protection** for the 2026–27 biennium totals \$7.9 million in All Funds, which would be an increase of \$1.9 million, or 32.3 percent, in All Funds. The increase is attributable to funding for additional FTE positions in the compliance division (\$1.2 million); firefighter training on wildland-urban interface fires (\$0.6 million); and additional testing and certification FTE positions (\$0.4 million).
- Funding for the **Texas Alcoholic Beverage Commission**, the **Texas Commission on Jail Standards**, and the **Texas Military Department** would be comparable to 2024–25 biennial levels.

Figure 32 shows All Funds amounts for each agency in Article V, and **Figure 33** shows General Revenue Funds amounts for each agency.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE VI

All Funds for the Natural Resources agencies total \$8.1 billion for the 2026–27 biennium, which would be a decrease of \$3.0 billion, or 37.1 percent, from the 2024–25 biennium. General Revenue Funds and General Revenue–Dedicated Funds total \$3.1 billion, a decrease of \$1.0 billion, or 24.5 percent, from the 2024–25 biennium. Federal Funds and Other Funds total \$4.9 billion, which would be a decrease of \$2.0 billion, or 28.6 percent from the 2024–25 biennium.

The totals above include an All Funds increase of \$114.7 million in contingency funding for Article VI agencies in Article IX, including \$13.5 million in General Revenue Funds, \$1.2 million in General Revenue–Dedicated Funds, and \$100.0 million in Other Funds.

HIGHLIGHTS

Funding for the **General Land Office and Veterans Land Board** would provide the following amounts:

- \$1.3 billion in Federal Funds related to hurricanes, wildfires, floods, and other natural disasters across the state, including \$142.3 million for community housing projects and \$1.1 billion for infrastructure and mitigation projects. This amount includes a decrease of \$1.4 billion due primarily to spending down remaining Community Development Block Grant (CDBG) and CDBG-Mitigation program funding for these purposes, including subrecipient grants related to Hurricane Harvey; floods during calendar years 2015, 2016, and 2018; and disasters during calendar year 2019.
- \$484.9 million in Other Funds from the Texas Veterans Homes Administration Fund, an increase of \$397.1 million, primarily due to an increase of \$398.0 million to align with the Comptroller of Public Accounts' Biennial Revenue Estimate for continued administration of Texas veterans' home programs;

- \$252.7 million in All Funds for Coastal Management and Coastal Erosion Projects, a decrease of \$744.0 million in All Funds, primarily including the following amounts:
 - \$539.7 million in General Revenue Funds to provide onetime funding for grants and non-federal matching funds for activities carried out by the Gulf Coast Protection District and for studies and coastal projects conducted by the U.S. Army Corps of Engineers. Appropriations provide unexpended balance authority to carry forward any unobligated or unexpended balances remaining at the end of fiscal year 2025 into the 2026–27 biennium for the same purpose;
 - \$140.3 million in Other Funds from Appropriated Receipts, primarily related to anticipated revenue decreases from the Gulf of Mexico Energy Security Act (GOMESA), RESTORE the Texas Coast, Texas Trustee Implementation Group, Natural Resource Damage Assessment, National Fish and Wildlife Foundation, and Coastal Erosion Planning and Response Act Match projects;
 - \$34.8 million in various Federal Funds no longer anticipated to be available; and
 - \$14.1 million in General Revenue–Dedicated Funds from Account No. 5176, Coastal Erosion Response Fund, revenues due to agency-anticipated decreases in Hotel Occupancy Tax collections; and
- \$29.7 million in All Funds for the preservation and maintenance of the Alamo and Alamo Complex. This amount includes a decrease of \$406.8 million primarily due to the removal of onetime costs of \$399.4 million in General Revenue Funds and \$7.4 million in Other Funds from the Economic Stabilization Fund in the 2024–25 biennium.

Funding for the **Texas Water Development Board** would provide the following amounts:

- \$102.2 million in Federal Funds, a decrease of \$32.8 million from 2024–25 biennial spending levels. The decrease is due primarily to anticipated decreases in funding for Flood Mitigation Assistance grants. Total Flood Mitigation Assistance funding includes \$76.7 million. Funding also includes an additional \$4.8 million to provide an additional 50.0 full-time-equivalent positions, which matches an additional \$3.2 million in General Revenue Funds for this purpose;
- \$80.0 million in Other Funds from the Texas Infrastructure Resiliency Fund (TIRF) for development of the statewide flood plan and flood infrastructure funding. This amount is a decrease of \$402.7 million in flood-related Other Funds from the 2024–25 biennial spending level, including \$27.7 million from the TIRF and \$375.0 million from the Flood Infrastructure Fund;
- \$72.8 million in All Funds, a decrease of \$0.8 million from the 2024–25 biennial spending level, for debt service on Economically Distressed Areas Program bonds;
- \$42.4 million in Other Funds from the Water Infrastructure Fund, a decrease of \$78.9 million due to an anticipated decrease in debt service payments;
- \$8.5 million in Other Funds from the new Texas Water Fund Administration Fund, which would be capitalized with \$13.0 million in General Revenue Funds appropriated in House Bill 500, the supplemental appropriations bill, with 34.0 FTE positions each fiscal year in Article IX to administer the Texas Water Fund, carry out conveyance responsibilities, and cover any other necessary expenditures to implement the provisions of Senate Bill 7, Eighty-ninth Legislature, 2025, relating to the oversight and financing of certain water infrastructure matters under the jurisdiction of the Texas Water Development Board, contingent upon enactment of the legislation and House Bill 500;
- \$7.5 million in General Revenue Funds with 2.0 FTE positions each fiscal year in Article IX to provide grants to groundwater conservation districts to conduct projects and programs for groundwater research, science, and data collection that benefit local groundwater management and planning;
- \$7.2 million in Other Funds from the Agricultural Water Conservation Fund, an increase of \$4.2 million from the 2024–25 biennial spending level, to provide grants for projects that support agricultural irrigation conservation strategies in alignment with the state water plan and demonstrate agricultural water conservation best management practices; and
- \$5.4 million in Other Funds from the Rural Water Assistance Fund (RWAF), an increase of \$2.2 million from the 2024–25 biennial spending level, for interfund debt service payments on RWAF bonds.

Funding for the **Texas Department of Agriculture** would provide the following amounts:

- \$1.5 billion in All Funds for the Child and Adult Nutrition programs, an increase of \$27.1 million from 2024–25 biennial spending levels. This amount primarily includes a decrease of \$14.2 million from the Coronavirus Relief Fund, which is offset by other projected Federal Funds anticipated to be available to the program for the 2026–27 biennium and other General Revenue Fund increases, including \$5.0 million for Home Delivered Meals and \$1.9 million for salary increases;
- \$200.0 million in All Funds, including \$100.0 million in General Revenue Funds for deposit to the Texas Agricultural Fund No. 683 (Fund No. 683) and subsequently \$100.0 million in Fund No. 683, for the purposes of implementing the provisions of House Bill 43, Eighty-ninth Legislature, 2025, relating to the Texas Agricultural Finance Authority and certain programs administered by the authority, contingent upon the enactment of the legislation;
- \$45.1 million in General Revenue Funds for the Texans Feeding Texans program, which would be an increase of \$5.0 million from 2024–25 biennial spending levels. This amount includes \$24.9 million for Home Delivered Meals and \$20.2 million for the Surplus Agricultural Products Grant Program;
- \$13.2 million in General Revenue Funds to provide free school lunches for students that qualify for reduced-price lunches;
- \$7.0 million in General Revenue Funds to operate regional agricultural entry-point inspection stations established during the 2024–25 biennium, which would be a net decrease of \$0.1 million from 2024–25 biennial spending levels. Plants entering Texas are inspected to prevent the spread of certain plant pests and diseases that threaten the state’s agricultural industry; and
- \$6.6 million in General Revenue Funds to provide free school breakfasts for students that qualify for reduced-price breakfasts.

Funding for the **Texas Parks and Wildlife Department** would provide the following amounts:

- \$444.3 million in General Revenue Funds from Sporting Goods Sales Tax transfers, an increase of \$20.8 million from 2024–25 biennial appropriation levels, for the operation and administration of state historic sites, state natural areas, and state parks. This increase is in alignment with the Comptroller of Public Accounts’ Biennial Revenue Estimate for the 2026–27 biennium;
- \$307.5 million in All Funds, which would be an increase of \$35.1 million from the 2024–25 biennial spending level, primarily in operating costs, to provide for state park operations, minor repairs, and support for 88 state parks, historic sites, and natural areas anticipated to be open to the public during the 2026–27 biennium;
- \$171.1 million in All Funds for wildlife and fisheries, conservation, management, and research operations. This amount is a decrease of \$124.8 million from 2024–25 biennial spending levels due primarily to agency-estimated decreases in Federal Funds and Other Funds from Appropriated Receipts that are not anticipated to be available in the 2026–27 biennium;
- \$129.0 million in Federal Funds, which is a decrease of \$230.5 million, or 64.0 percent, from the 2024–25 biennium. The decrease does not represent a decrease in Federal Funds available to the agency. Instead, the decrease is related to the agency’s expenditure of federal grant allotments from previous years during the 2024–25 biennium, pandemic-related funding that is not anticipated to be available in the 2026–27 biennium, and the agency’s appropriation estimation practices. The agency receives funding from various federal sources for wildlife and fisheries conservation and management, developing outdoor recreation opportunities, law enforcement, and outreach and education efforts;
- \$45.1 million in General Revenue Funds to provide funding for a 50.0-hour work week for game wardens and park police;
- \$24.5 million in General Revenue Funds to provide additional game warden patrol vehicles, in-vehicle automation, body cameras, body-camera data storage, and computers;
- \$20.8 million in General Revenue Funds for grants to various local parks;
- \$10.0 million in General Revenue Funds to provide funding to construct and maintain a memorial for the victims of the May 2022 shooting at Robb Elementary School in Uvalde; and

- \$7.0 million in General Revenue Funds to provide a grant to the Battleship Texas Foundation for the repair, renovation, operation and maintenance of the Battleship Texas.

Funding for the **Texas Commission on Environmental Quality** (TCEQ) would provide the following amounts:

- authority for TCEQ to draw needed funds from General Revenue–Dedicated Account No. 5071, Texas Emissions Reduction Plan (Account No. 5071), for the Texas Emissions Reduction Plan (TERP) program operations and maintenance costs at the beginning of the 2026–27 biennium due to the Texas Emissions Reduction Plan Trust (TERP Trust) fund being statutorily required to begin each biennium with a zero balance. TCEQ is required to reimburse Account No. 5071 using TERP Trust fund revenues in an amount that equals expenditures for this purpose during the biennium;
- \$181.5 million in Federal Funds, an increase of \$69.1 million, or 62.0 percent, from 2024–25 biennial spending levels across various programs. This increase is due primarily to \$64.8 million from the U.S. Department of Energy’s Texas Voluntary Marginal Conventional Well Plugging Program to administer new grants for plugging marginal conventional wells and an increase of \$11.2 million from the Infrastructure Investment and Jobs Act (IIJA) across various programs;
- \$56.8 million in General Revenue–Dedicated Funds from Account No. 550, Hazardous and Solid Waste Remediation Fee, to provide for the regulation and management of solid or hazardous waste facilities. This amount would be a net decrease of \$8.1 million, or 11.8 percent, from 2024–25 biennial spending levels due primarily to the removal of onetime costs;
- \$29.7 million in various General Revenue–Dedicated Funds to address issues related to Texas’ growth and expanding federal requirements involving air quality, water quality and supply, underground injection control, produced water, occupational licensing, and field investigations. This funding provides additional resources for planning, monitoring, permitting, compliance, and public engagement; additional monitoring and analysis equipment; and to support administrative functions of the agency;
- \$10.0 million in Other Funds from the Leaking Water Wells Fund, an increase of \$9.4 million from 2024–25 biennial spending levels, to continue implementing the requirements of House Bill 4256, Eighty-eighth Legislature, Regular Session, 2023, by providing grants to plug leaking water wells; and
- \$1.8 million in Other Funds from the new Texas Water Fund Administration Fund, which would be capitalized with \$13.0 million in General Revenue Funds appropriated in House Bill 500, the supplemental appropriations bill, with 2.0 FTE positions each fiscal year in Article IX to pay for the necessary and reasonable staffing expenses related to the review of permit applications for water supply projects receiving financial assistance from the Texas Water Fund as authorized in the provisions of Senate Bill 7, Eighty-ninth Legislature, 2025, relating to the oversight and financing of certain water infrastructure matters under the jurisdiction of the Texas Water Development Board, contingent upon enactment of the legislation;

Funding for the **Railroad Commission of Texas** would provide the following amounts:

- \$153.8 million in General Revenue–Dedicated Funds from Account No. 5155, Oil and Gas Regulation and Cleanup, which is a decrease of \$8.8 million from 2024–25 biennial spending levels due primarily to onetime funding decreases; and
- an estimated \$108.6 million in various Federal Funds, which includes a decrease of \$34.4 million due primarily to decreases in IIJA funding for the plugging of orphaned oil and gas wells.

Funding for the **Texas State Soil and Water Conservation Board** would provide the following amounts:

- \$94.9 million in All Funds, which includes \$51.0 million in General Revenue Funds and \$43.9 million in Federal Funds, to address the structural repair, operation, and maintenance of earthen flood-control dams. This amount includes a decrease of \$11.6 million in General Revenue Funds for the removal of onetime costs for unexpended balances carried forward from fiscal year 2023 into the 2024–25 biennium;
- \$22.7 million in All Funds, a net increase of \$9.7 million from 2024–25 biennial spending levels, for the On-the-Ground Conservation Program established by Senate Bill 1118, Eighty-seventh Legislature, Regular Session, 2021.

Through the program, the agency forms partnerships with other state and federal agencies, soil and water conservation districts, local governments, nonprofit organizations, universities, and nongovernmental and private organizations to leverage funds from multiple sources to address various conservation projects. The increase is due primarily to additional Federal Funds provided from a subaward from the Texas A&M AgriLife Extension Service to develop a new Climate-Smart Agriculture and Forestry management plan to provide financial incentives to producers;

- \$17.4 million in All Funds, a net decrease of \$1.0 million from 2024–25 biennial spending levels, to enable the agency to provide funding to local Soil and Water Conservation Districts. The decrease is due primarily to a decrease of \$1.1 million in Federal Funds that no longer are anticipated to be available in the 2026–27 biennium; and
- \$7.2 million in General Revenue Funds for carrizo cane eradication, which continues appropriations near 2024–25 biennial spending.

Figure 35 shows the All Funds amounts for each agency in Article VI, and **Figures 36** and **37** show the amounts for each agency in General Revenue Funds and General Revenue–Dedicated Funds, respectively.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE VII

All Funds for the Business and Economic Development agencies total \$48.5 billion for the 2026–27 biennium, which would be a decrease of \$1.4 billion, or 2.7 percent, from the 2024–25 biennium. General Revenue Funds total \$958.6 million, which would be an increase of \$77.5 million, or 8.8 percent, from the 2024–25 biennium.

Contingent on enactment of Senate Bill 3070, Eighty-ninth Legislature, 2025, the Texas Lottery Commission is abolished on September 1, 2025, and regulation of the lottery and charitable bingo and all associated appropriations are transferred to the Texas Department of Licensing and Regulation within Article VIII. This decrease to Article VII total appropriations is reflected in the Biennial Change amount located in the tables above and is composed of \$671.9 million in All Funds of which \$5.1 million is General Revenue Funds and \$666.8 is General Revenue–Dedicated Lottery Account No. 5025 funds.

HIGHLIGHTS

- Funding for the **Texas Department of Transportation (TxDOT)** includes \$39.9 billion in All Funds, which would be a net decrease of \$374.6 million in All Funds from the 2024–25 biennium. This amount includes a decrease of \$600.0 million in General Revenue–Dedicated Funds for maritime port capital improvement projects and loans from the Ship Channel Improvement Revolving Fund; a net increase of \$292.0 million in All Funds for highway planning and design, right-of-way acquisition, construction and maintenance, including a decrease of \$777.1 million in Federal Funds offset by an increase of \$1.0 billion in Other Funds due primarily to estimated increases in State Highway Fund

revenue sources; and a net decrease of \$67.2 million in All Funds for bond debt service. In addition, \$0.5 million in General Revenue contingency funding is included in Article IX. In addition, funding in House Bill 500, Eighty-ninth Legislature, 2025, the supplemental appropriations bill, for TxDOT includes \$506.1 million in All Funds for the following purposes:

- \$250.0 million in General Revenue Funds for making grants for railroad grade-separation projects contingent on enactment of Senate Bill 1555 or similar legislation by the Eighty-ninth Legislature;
 - \$128.8 million in General Revenue Funds to fund airport capital improvement and routine maintenance projects;
 - \$67.0 million in General Revenue Funds for the purchase of new aircraft and construction of an aircraft hangar for the TxDOT Flight Services program;
 - \$20.0 million for state highway improvements; and
 - \$38.3 million in Other Funds from the State Highway Fund for motor vehicle purchases.
- Funding for the **Texas Department of Motor Vehicles** (DMV) includes \$533.5 million in All Funds, which would be a net decrease of \$134.8 million from the 2024–25 biennium. This amount includes a decrease of \$143.0 million in Other Funds from onetime Texas Public Finance Authority Revenue Bond funding during the 2024–25 biennium for the agency’s Camp Hubbard headquarters renewal project; a decrease of \$2.6 million in General Revenue Funds for Motor Vehicle Crime Prevention Authority (MVCPA) grants and administration to align with the Comptroller of Public Accounts’ Biennial Revenue Estimate for MVCPA fee revenue for the 2026–27 biennium; a net decrease of \$1.7 million in General Revenue Funds from onetime automation project expenditures during the 2024–25 biennium; a decrease of \$1.8 million in Federal Funds for motor carrier regulation and onetime federal reimbursements for expenses related to the COVID-19 pandemic; an increase of \$6.4 million in Other Funds from the Texas Department of Motor Vehicles Fund for an additional 50.0 full-time-equivalent positions; and a net increase of \$8.0 million in Other Funds from the Texas Department of Motor Vehicles Fund for agencywide programs and indirect administrative support. In addition, House Bill 500 funding for DMV includes \$125.0 million in General Revenue Funds to implement the second phase of the Registration and Titling System replacement project. In addition, \$9.3 million in contingency funding from the Texas Department of Motor Vehicles Fund (Other Funds) is included in Article IX.
 - Funding for the **Texas Department of Housing and Community Affairs** includes \$910.6 million in All Funds, which would be a net decrease of \$367.3 million from the 2024–25 biennium. This amount includes a decrease of \$397.8 million in Federal Funds due to decreased federal expenditures for relief related to the COVID-19 pandemic; a decrease of \$8.7 million in Federal Funds due to lower anticipated spending on programs that are not related to the pandemic, including the HOME Investment Partnerships Program, Section 811 Project Rental Assistance, Section 8 Housing Choice Vouchers, Manufactured Housing Inspections, Emergency Shelter Grants Program, Fair Housing Initiative Program, and Community Development Block Grants; and a decrease of \$1.0 million in General Revenue Funds to remove onetime funding for homeless services in Fort Bend County. Partially offsetting the decrease, funding includes an increase of \$40.5 million, of which \$33.0 million is Federal Funds; \$6.5 million is Other Funds from Appropriated Receipts; and \$1.0 million is General Revenue Funds, due to increased anticipated spending on the Weatherization Assistance Program, the Housing Trust Fund, Mainstream Vouchers, and Community Services Block Grants, to biennialize the statewide salary adjustment provided during the 2024–25 biennium, and to represent higher Appropriated Receipts collections in the Manufactured Housing Division. In addition, \$1.5 million in General Revenue contingency funding is included in Article IX.
 - Funding for the **Texas Workforce Commission** includes \$6.1 billion in All Funds, which would be a net increase of \$75.6 million from the 2024–25 biennium. This amount includes a decrease of onetime Federal Funds awards of \$858.4 million from the Coronavirus Relief Fund to be expended by the end of the 2024–25 biennium and a decrease of \$285.7 million in other federally funded grants. These decreases are offset by an increase of \$701.7 million for Child Care and Development funding, \$262.0 million in funding for Vocational Rehabilitation funds, \$79.8 million in General Revenue

Funds to fully draw down all available Federal Funds for Vocational Rehabilitation, and \$106.8 million in funding for Temporary Assistance for Needy Families to serve additional eligible children through the childcare assistance program. In addition, a combined \$29.9 million would be provided for increases at Apprenticeship Training programs pursuant to the Texas Education Code, Chapter 133; the Texas Veterans Network and Leadership Program; the Emergency Medical Response Service Staffing Program; Enhanced Workforce Data System; Older Individuals Who are Blind Program; and the expansion of the Senior Keys to Independence Program. In addition, an increase of \$9.0 million in General Revenue–Dedicated Funds from Account No. 165, Unemployment Compensation Special Administration (Account No. 165), for unemployment insurance data center services and an increase of \$32.5 million in Other Funds due primarily to an increase of \$56.1 million in Interagency Contract with the Department of Family and Protective Services offset by decreases of \$23.6 million is due primarily to Interagency Contract amendments and onetime Appropriated Receipts for donations and third-party reimbursements that are not anticipated to continue.

In addition, House Bill 500 includes \$68.0 million in General Revenue Funds for the Unemployment Insurance Trust Fund, \$30.8 million in General Revenue Funds to fully draw down all available Federal Funds for Vocational Rehabilitation during fiscal year 2025, and \$13.2 million in General Revenue Funds, General Revenue–Dedicated Funds from Account No. 165, and Federal Funds for unemployment insurance technology improvements and network modernization.

Figure 39 shows the All Funds amounts for each agency in Article VII, and **Figure 40** shows the General Revenue Funds amounts for each agency.

MAJOR FISCAL AND POLICY ISSUES AFFECTING ARTICLE VIII

All Funds for the Regulatory agencies total \$6.7 billion for the 2026–27 biennium, which would be an increase of \$803.7 million, or 13.6 percent, from the 2024–25 biennium. The net increase includes the following changes across several agencies:

- an increase of \$671.9 million in All Funds of which \$5.1 million is General Revenue Funds and \$666.8 is General Revenue–Dedicated Lottery Account No. 5025 funds contingent on enactment of Senate Bill 3070, Eighty-ninth Legislature, 2025, the Texas Lottery Commission is abolished on September 1, 2025, and regulation of the lottery and charitable bingo and all associated appropriations are transferred to the Texas Department of Licensing and Regulation;
- a decrease of \$61.5 million in funding removed for onetime items expended during the 2024–25 biennium among several agencies, including the following amounts:
 - a decrease of \$26.3 million in General Revenue Funds for the development of a cloud-based licensing system, development of the Financial Crimes Intelligence Center forensic laboratory, vehicle purchases, and contingent appropriations for combative sports regulation at the Texas Department of Licensing and Regulation;
 - a decrease of \$26.5 million in General Revenue–Dedicated Funds from Account No. 36, Texas Department of Insurance Operating Fund (Account No. 36), for removal of onetime funding for agency and adjuster licensing operational costs collected from agent and adjuster licensing fees in excess of appropriated amounts; and
 - a decrease of \$8.7 million in All Funds for onetime items among several agencies;

- an increase of \$17.3 million and 75.5 additional full-time-equivalent (FTE) positions, primarily to address workload increases across several regulatory agencies associated with growth in the statewide licensed population during the past several years;
- an increase of \$12.2 million for biennialization of the state salary adjustment provided during the 2024–25 biennium;
- an increase of \$116.5 million in General Revenue Funds for lease payments and retirement and group insurance benefits; and
- an increase of \$8.5 million in General Revenue contingency funding for Article VIII agencies is included in Article IX.

The Regulatory agencies regulate various industries, including health-related occupations, non-health-related occupations, securities, and pari-mutuel racing, and the appropriations and indirect costs for most of these regulatory agencies are supported by fees generated from the industries and occupations they regulate.

HIGHLIGHTS

- Funding for the **Texas Department of Licensing and Regulation** (TDLR) includes \$809.7 million in All Funds. This total includes \$667.6 million in General Revenue Funds and General Revenue–Dedicated Funds to transfer and integrate all resources formerly at the Texas Lottery Commission into TDLR to operate the state lottery and charitable bingo contingent on the enactment of Senate Bill 3070, Eighty-ninth Legislature, 2025. In addition, \$1.6 million in General Revenue Funds is appropriated through House Bill 500, Eighty-ninth Legislature, 2025, the supplemental appropriations bill, for cybersecurity projects and a new helpdesk system.

The following increases in General Revenue Funds are included:

- \$19.7 million to support the Financial Crimes Intelligence Center through 25.0 additional positions and funding that would provide salary increases to existing staff, 17 additional vehicles, additional field operations equipment, and for the building of the digital forensic laboratory and other information technology-related costs;
- \$4.7 million and 12.0 additional FTE positions to support various agency operations in response to growth in the licensed populations that the agency regulates;
- \$2.4 million and 13.3 additional FTE positions for the enforcement of emergency-order closures of massage establishments to assist the agency's efforts to combat human trafficking;
- \$1.9 million in General Revenue Funds for biennialization of the statewide salary adjustment provided during the 2024–25 biennium; and
- \$1.4 million in General Revenue Funds for modernizing the agency's cybersecurity system.

These increases would be offset by a \$26.3 million decrease in General Revenue Funds for onetime expenses incurred during the 2024–25 biennium for the development of a cloud-based licensing system, development of the Financial Crimes Intelligence Center, vehicle purchases, and contingent appropriations for combative sports regulation.

- Funding for the **Texas Department of Insurance** includes \$276.4 million in All Funds, which would be a net decrease of \$21.3 million from the 2024–25 biennium. Funding includes a decrease of \$26.5 million in General Revenue–Dedicated Funds from Account No. 36 for removal of onetime funding for agency and adjuster licensing operational costs collected from agent and adjuster licensing fees in excess of appropriated amounts and a decrease of \$7.7 million in Other Funds from Appropriated Receipts for onetime appropriations for the Three-Share Premium Assistance Program. These decreases would be offset by increases in General Revenue–Dedicated Funds from Account No. 36 of \$6.4 million for increased costs of ongoing software and data center services and \$4.8 million for biennialization of the statewide salary adjustment. House Bill 500 would provide General Revenue–Dedicated Funds from Account No. 36 of \$2.5 million for software products related to network adequacy and other purposes and \$1.1 million for the development of a new case-management system. In addition, an increase

of \$2.0 million in Other Funds from the TexasSure Fund would support the continuation of the TexasSure insurance verification system.

- Funding for the **Texas Medical Board** includes \$48.0 million in All Funds, which would be a biennial increase of \$3.2 million due primarily to an increase of \$2.5 million for the restoration of funding lapsed during the 2024–25 biennium due to staff vacancies and \$1.3 million for additional agency staff. These increases would be offset by a decrease of \$1.5 million in General Revenue Funds and General Revenue–Dedicated Funds for onetime funding provided during the 2024–25 biennium that is not continued.
- Funding for the **Texas Board of Nursing** includes \$34.7 million in All Funds, which would be a biennial increase of \$3.8 million. This amount includes \$1.9 million in General Revenue Funds for 15.0 additional FTE positions; \$1.7 million in General Revenue Funds and 6.0 FTE positions for the agency’s regulatory response to Operation Nightingale; an additional \$0.6 million in Other Funds from Appropriated Receipts to represent amounts collected by the agency more accurately; and \$0.4 million in General Revenue Funds for biennialization of the statewide salary adjustment.
- Funding for the **Texas Racing Commission** includes \$18.9 million in All Funds, which would be a net increase of \$0.6 million from the 2024–25 biennium. The biennial increase includes net increases of \$1.0 million in General Revenue Funds and \$2.0 million in General Revenue–Dedicated Funds resulting from a method-of-financing adjustment to provide General Revenue Funds for agency indirect administrative functions and General Revenue–Dedicated Funds for direct administration of pari-mutuel racing licensing and regulatory programs, an increase of \$0.2 million in General Revenue Funds for the purchase of drug and evidence testing trailers, an increase of \$2.3 million in Other Funds from Appropriated Receipts for racetrack reimbursements for race animal medication and drug testing costs, and a decrease of \$0.9 million in Other Funds from the Texas-bred Incentive Fund to align the estimated appropriation with the Comptroller of Public Accounts’ Biennial Revenue Estimate for the 2026–27 biennium.
- Funding for the **Public Utility Commission** includes \$5,076.1 in All Funds, which is a net increase of \$9.6 million in General Revenue Funds. This increase provides funding for an additional 41.0 FTE positions for agency operational needs such as the Texas Energy Fund program, infrastructure resilience and reliability, and agency services to the public. Funding appropriated through House Bill 500 would include \$3.9 million for the development of a case-management system.
- Funding for the **Office of Public Utility Counsel** includes \$10.4 million in All Funds, which is a net increase of \$3.6 million in General Revenue Funds and General Revenue–Dedicated Funds. This increase is due primarily to an additional \$2.4 million with 3.0 additional FTE positions for a Data Analytics team, \$0.6 million for legal expert witness fees, and \$0.5 million for staff salary increases.
- Funding for the **Texas Funeral Service Commission** includes \$4.3 million in All Funds, which would be a net increase of \$1.2 million from the 2024–25 biennium. This amount includes General Revenue Funds increases of \$0.9 million and 6.0 additional FTE positions to address increased workloads associated with agency assumption of the Whole Body Donation Program pursuant to Senate Bill 2040, Eighty-eighth Legislature, Regular Session, 2023; \$0.2 million and 2.0 additional FTE positions to support agency operations and licensing; and \$0.1 million and 1.0 FTE position for an additional staff attorney. Funding appropriated through House Bill 500 would include an additional \$0.8 million in General Revenue Funds for additional office space to meet the needs of the expanding staff.
- Funding for the **Health Professions Council** includes \$4.5 million in All Funds, which would be a biennial increase of \$1.2 million. This amount includes an additional \$0.5 million in General Revenue Funds to migrate servers and data into the Department of Information Resources’ Shared Technology Services program and \$0.7 million in Other Funds through Interagency Contracts for cost increases for the Shared Regulatory Database. Appropriations would increase the agency’s FTE positions by 1.0 position to transfer one employee that performs Health Profession Council responsibilities from the Optometry Board.

- Funding for the **Office of Public Insurance Counsel** includes \$4.5 million in All Funds, which would be a net increase of \$1.4 million from the 2024–25 biennium. This amount includes an increase of \$0.8 million in General Revenue Funds for the agency’s assumption of the Certificate of Public Advantage Program; an increase of \$0.3 million for an additional information technology specialist and an attorney, and an increase of \$0.2 million in General Revenue Funds for the restoration of funds lapsed during the 2024–25 biennium due to vacant positions.
- Funding for the **Board of Plumbing Examiners** includes \$9.1 million in All Funds, which would be a net increase of \$1.2 million from the 2024–25 biennium. This amount includes an increase of \$0.9 million and 7.0 FTE positions for licensing, enforcement, legal, and administration support and \$0.3 million for an additional testing facility at Harlingen and a mobile testing unit. Funding appropriated through House Bill 500 includes an additional \$0.7 million in General Revenue Funds for the agency’s headquarters relocation.

Figure 42 shows the All Funds amounts for each agency in Article VIII, and **Figure 43** shows the General Revenue Funds amounts for each agency.
