2. **Updated Actuarial Valuation.** The Employees Retirement System shall contract with an actuary to perform a limited actuarial valuation of the assets and liabilities of the Employees Retirement System as of February 28 in those years when the Legislature meets in regular session. The purpose of the valuation shall be to determine the effect of investment, salary, and payroll experience on the unfunded liability, the amortization period, and the state contribution rate which results in a 30-year amortization period of the Retirement System.
3. **State Contribution to Employees Retirement Program.** The amount specified above in A.1.1, Retirement Contributions, is based on a state contribution of 6.45 percent of payroll, including annual membership fees of \$3 for contributing members for each fiscal year.
4. **State Contribution to Judicial Retirement Program (JRS-2).** The amount specified above in A.1.2, Judicial Retirement System - Plan 2, is based on a state contribution of 16.83 percent of payroll for contributing members for each fiscal year.
5. **State Contribution to Group Insurance for General State Employees.** Funds identified above for group insurance are intended to fund:
 - a. the total cost of the basic life and health coverage for all active and retired employees;
 - b. fifty percent of the total cost of health coverage for the spouses and dependent children of all active and retired employees who enroll in coverage categories which include a spouse and/or dependent children; and
 - c. the additional cost of providing a premium structure comparable to the Children's Health Insurance Program (CHIP) for dependent children of state employees enrolled in the State Kids Insurance Program (SKIP).

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

During each fiscal year, the state's monthly contribution shall be determined by multiplying (1) the per capita monthly contribution as certified herein by (2) the total number of full-time active and retired employees enrolled for coverage during that month.

Each year, upon adoption of group insurance rates by the Board of Trustees, Employees Retirement System must notify the Comptroller, the Legislative Budget Board, and the Governor of the per capita monthly contribution required in accordance with this rider for each full-time active and retired employee enrolled for coverage during the fiscal year.

It is the intent of the Legislature that the Employees Retirement System control the cost of the group insurance program by not providing rate increases to health care providers participating in HealthSelect during the 2006-07 biennium.

6. **Administrative Cost Provision.** Funds identified above in A.1.3, Judicial Retirement System - Plan 1, include \$120,000 in each fiscal year to reimburse the Employees Retirement System for the cost of administering the Judicial Retirement Plan 1.
7. **Administrative Cost Provision.** Funds identified above in A.1.4, Public Safety Benefits, include \$28,000 in each fiscal year to reimburse the Employees Retirement System for the cost of administering the death benefits program for public safety personnel.

9. **Transfer of Retirement Contributions and Group Insurance.** Appropriations made in this and other articles of this Act for Retirement and Group Insurance contributions shall be transferred by each agency from the Employees Retirement System to the agency based on estimated amounts by funding source for each fiscal year. Transfers should be made no later than September 15 of the year in which the payments are to be made. Adjustments and return of excess appropriation authority to the Employees Retirement System shall be completed by October 30 of the subsequent fiscal year.

10. **Appropriation for State Kids Insurance Program (SKIP).** Pursuant to 1551.159, Insurance Code, VTCA, relating to the state's contribution for dependent children of certain state employees, funds identified above in Strategy B.1.2, State Kids Insurance Program, for group insurance are to be used for the costs of the State Kids Insurance Program (SKIP).

11. **Federal Funds for Medicare Part D Prescription Drug Program.** The Employees Retirement System (ERS) is hereby authorized to receive employer reimbursements of all federal funds applicable to Medicare Part D prescription drug reimbursement relating to benefits administered by ERS. 3. **Limitation on Expenditures for Conservatorship Suits.** To the extent allowed by federal regulation, federal funds may be used by the department in conjunction with funds provided by counties with which the department has child welfare contracts, to pay for legal representation for children or their parents in suits in which the department is seeking to be named conservator. No general revenue funds appropriated to the department may be used to make such payments.
4. **Appropriation of Funds from Counties, Cities, and Other Local Sources.** All funds received by the department from counties, cities, and other local sources and all balances from such sources as of August 31, 2005, are hereby appropriated for the biennium ending August 31, 2007, for the purpose of carrying out the provisions of this Act. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs, and salary and travel costs of staff whose function supports several programs. The department may not transfer funds out of Strategy A.2.10, Foster Care Payments, without the prior written approval of the Legislative Budget Board and the Governor.
 - b. The department may also use funds in Strategy A.2.10, Foster Care Payments, to recommend alternate service provision intake and investigation that will consider expansion of contract services, regional planning, service outcomes, and appropriate funding mechanisms to be tested in pilot projects. The department shall strive to assure that no more than 45 percent of the children in paid placements are in substitute care for more than 24 months for fiscal years 2006 and 2007.

Further, it is the intent of the Legislature that whenever possible, the department shall utilize state and/or federal funds currently being expended for substitute care to cover the cost of assuring permanent homes where appropriate for foster children.

All references in this rider to rebate revenue refer to vendor drug rebates as well as supplemental rebates earned via the preferred drug lists (methods of finance include Vendor Drug Rebates-Medicaid, Vendor Drug Rebates-CHIP and Vendor Drug Rebates-Supplemental Rebates);
- b. **CHIP.** The Health and Human Services Commission is authorized to expend CHIP rebate revenues and related interest earnings appropriated above in Strategy C.1.4, CHIP Vendor Drug Program;
- c. **Rebates as a First Source of Funding.** Expenditures for the Medicaid and CHIP Vendor Drug Programs shall be made from rebates received in fiscal years 2006 and 2007. As rebates are generated, expenditures to support the Medicaid and CHIP Vendor Drug Programs shall be made from rebate revenues. In the event rebate revenues are not available for expenditure, General Revenue may be used to support both Vendor Drug Programs until rebate revenues are available.
- d. **Appropriation.** In addition to rebate revenues appropriated above in Strategy B.2.2, Medicaid Vendor Drug Program, and Strategy C.1.4, CHIP Vendor Drug Program, the Health and Human Services Commission is appropriated Medicaid and CHIP vendor drug rebates generated in excess of those amounts, subject to the following requirements:
 - (1) Vendor drug rebates shall be expended prior to utilization of any General Revenue available for the purpose of the CHIP or Medicaid Vendor Drug Programs;
 - (2) In the event General Revenue has been expended prior to the receipt of vendor drug rebates, the Commission shall reimburse General Revenue. The Commission shall reimburse the General Revenue Fund with vendor drug rebates on a monthly basis in order to prevent accumulation of vendor drug rebates; and
 - (3) The Commission shall report monthly to the Legislative Budget Board, the Governor, and the Comptroller's Office on Medicaid and CHIP vendor drug receipts, expenditures (including expenditures from the General Revenue Fund, made pursuant to this section), and anticipated revenues and balances.

expended as they are received as a first source, and General Revenue shall be used as a second source, to support the Medicaid program. In the event that these revenues should be greater than the amounts identified in the method of finance above as Medicaid Subrogation Receipts (State Share), the Commission is hereby appropriated and authorized to expend these Other Funds thereby made available, subject to the following requirements:

- a. Amounts available shall be expended prior to utilization of any General Revenue available for the same purposes;
- b. In the event General Revenue has been expended prior to the receipt of the state's share of Medicaid Subrogation Receipts, the Commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of Medicaid Subrogation Receipt balances; and
- c. The Commission shall report monthly to the Legislative Budget Board, the Governor, and the Comptroller's Office on Medicaid Subrogation Receipts, expenditures, and anticipated revenues and balances.

The preceding paragraph shall be the exclusive appropriation authority for receipts from the above identified sources and none of these receipts shall be appropriated by a provision of Article IX of this Act.

- 12. Appropriation Transfer Between Fiscal Years.** In addition to the transfer authority provided elsewhere in this Act and in order to provide for unanticipated events that increase costs associated with providing Medicaid or CHIP services for eligible clients, the Health and Human Services Commission is authorized to transfer General Revenue from funds appropriated in Medicaid or CHIP strategies in fiscal year 2007 to fiscal year 2006. Such transfers may only be made subject to the following:

- a. Transfers under this section may be made only:

 - (2) for any other emergency expenditure requirements, including expenditures necessitated by public calamity.
- b. A transfer authorized by this section must receive the prior approval of the Governor and the Legislative Budget Board.
- c. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending made under this section.

- 13. Reporting of Child Abuse.** The Texas Health and Human Services Commission may distribute or provide appropriated funds only to recipients who show good-faith efforts to comply with all child abuse reporting guidelines and requirements set forth in Chapter 261 of the Texas Family Code.

- 14. Authorization to Receive, Administer, and Disburse Federal Funds.** The appropriations made herein may be used to match or to meet maintenance of effort requirements for Federal Funds granted to the state for the payment of personal services and other necessary expenses in connection with the administration and operation of state programs of health and public welfare services. Notwithstanding the General Provisions of this Act, the Health and Human Services Commission is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state and retain their character as Federal Funds for such purposes, and to receive, administer, and disburse Federal Funds for federal regional programs in accordance with plans agreed upon by the Health and Human Services Commission and the responsible federal agency, and such other activities as come under the authority of the

HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

Commissioner of Health and Human Services, and such moneys are hereby appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Earned Federal Funds are not considered to be Federal Funds for the purpose of this section.

15. **Medical Assistance Payments and Unexpended Balances.** General Revenue funds appropriated above in Goal B for Medicaid services shall be made available to the agency by the Comptroller of Public Accounts in equal monthly installments on the first day of each calendar month; provided, however, that any balances on hand in such funds may be carried over from month to month during each fiscal year and from fiscal year 2006 to fiscal year 2007, and such funds are appropriated to the Commission for the 2006-07 biennium.
16. **Risk Stabilization Reserve.** Out of funds appropriated above, the agency shall contract with an independent audit entity to audit the closeout of the Medicaid claims payment contract with the National Heritage Insurance Company (NHIC). In lieu of pursuing a contract and at the discretion of the State Auditor, the State Auditor's Office may conduct the audit. Special attention shall be paid to those adjustments made after December 31, 2003, when NHIC was no longer responsible for processing claims. The scope of the audit shall be provided to the Legislative Budget Board and the Comptroller of Public Accounts 45 days prior to the start of the audit. All findings shall be reported to the Governor, the Legislative Budget Board, and the Comptroller within 30 days of completion of the audit. The state's share of any identified unexpended balance in the risk stabilization reserve and/or trust account, or of other funds owed to the state, shall be deposited into the General Revenue Fund and such funds are not appropriated to the Health and Human Services Commission.

If the agency determines that an audit has already met these requirements, it will be at the discretion of the State Auditor to review the audit and determine if any further audit is warranted.

17. **Accounting of Support Costs.** The Comptroller of Public Accounts shall establish separate accounts from which certain support costs shall be paid. The Health and Human Services Commission is hereby authorized to make transfers into these separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs and salary and travel costs of staff whose function supports several programs. The Commission shall be responsible for quarterly allocations of these costs to the original strategies.
18. **Payment of Hospital Providers.** At the hospital's option, all payments from funds appropriated for acute care services made to hospitals (1) with more than 100 licensed beds, located in a county that is not a metropolitan statistical area (MSA) as defined by the U.S. Office of Management and Budget, and designated by Medicare as Sole Community Hospital (SCH) or Rural Referral Center (RRC), or (2) with 100 or fewer licensed beds may be reimbursed under a cost-reimbursement methodology authorized by the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) using the most current available cost figures. Hospitals reimbursed under TEFRA cost principles shall be paid without the imposition of the TEFRA cap. Hospitals that meet this criteria as of September 1, 2005, retain this reimbursement methodology in fee-for-service and managed care models.

At initial cost settlement of the hospital's fiscal year, the Health and Human Services Commission shall determine the amount of reimbursement the hospital would have been paid under TEFRA cost principles, and if the amount of reimbursement under the TEFRA principles is greater than the amount of reimbursement received by the hospital under the prospective payment system, the Health and Human Services Commission shall reimburse the hospital the difference. These payments shall be made out of the funds appropriated above for acute care hospital services.

Hospitals reimbursed under TEFRA cost principles shall be paid without the imposition of the TEFRA cap. Under a full-risk managed care pilot project, the participating managed care organizations shall reimburse the hospitals. This section applies only to a managed care contract that is entered into or renewed on or after September 1, 1997.
- 20. Payments to Rural Physicians under Medicaid Managed Care.** All payments made to physicians who practice in rural counties with fewer than 50,000 persons and who participate in a Medicaid managed care program must be reimbursed at the Medicaid fee schedule, or in the case of a full-risk managed care model, at a rate using the current Medicaid fee schedule, including negotiated fee for service. Under a primary care case management system model, primary care physicians also shall be paid a monthly case management fee. This section applies only to a managed care contract that is entered into or renewed on or after September 1, 1997.
- 21. Disposition of Appropriation Transfers from State-owned Hospitals.** The Health and Human Services Commission shall use the sums transferred from state owned hospitals as provided elsewhere in the Act as necessary to apply for appropriate matching Federal Funds and to provide the state's share of disproportionate share payments due to state-owned hospitals. Any amounts of such transferred funds not required for disproportionate share payments or payments as specified by rider 30, Graduate Medical Education, shall be deposited by the Health and Human Services Commission to the General Revenue Fund as unappropriated revenue. By October 1 of each fiscal year, the Health and Human Services Commission shall present a schedule of projected transfers and payments to the Comptroller of Public Accounts, the Governor, and the Legislative Budget Board. The Comptroller of Public Accounts shall process all payments and transfers, unless disapproved or modified by the Legislative Budget Board or the Governor.
- 22. Transfer Authority.** Subject to the limitations contained in rider 9, Limitation: Medicaid and CHIP Transfer Authority, and notwithstanding any other provision, appropriations contained in this Act to the Health and Human Services Commission may be transferred from one appropriation item to another appropriation item in amounts not to exceed 25 percent of All Funds for the fiscal year, upon approval by the Commissioner, subject to the following reporting requirements:

 - a. At least 45 days prior to any transfer of funds between items of appropriation notification shall be made to the Governor and the Legislative Budget Board.
 - b. At least 45 days prior to adopting or implementing a program expansion, notification shall be made to the Governor and the Legislative Budget Board. Program expansion is defined as any modification of current policy that would result in delivery of new or additional services not previously provided or the delivery of services to additional client populations.
 - c. Notifications shall include information regarding the source of funds to be transferred; any changes in Federal Funds related to the proposed transfer; the strategy from which the transfer is to be made and the strategy to which the transfer is to be made; the need which was to be served through the original appropriation and the basis for the decrease in need; the need to be served in the strategy receiving the funds and the basis for such selection; and the amounts of funds to be spent on direct client services as opposed to both general and operating support costs. In the event program expansions are under consideration, information shall be forwarded regarding the population to be served; criteria for eligibility; source of funding; and impact on existing programs.

The Commission is also authorized to receive and spend experience rebates generated in accordance with its contractual agreements with health maintenance organizations who participate in Medicaid managed care. Expenditures shall be made from credits, managed care rebates, and interest earnings received in fiscal years 2006 and 2007. The use of the credits, managed care rebates, and interest earnings is limited to funding services for Medicaid clients. Medicaid program income shall be expended as they are received as a first source, and General Revenue shall be used as a second source, to support the Medicaid program. In the event that these revenues should be greater than the amounts identified in the method of finance above as Medicaid Program Income, the commission is hereby appropriated and authorized to expend these General Revenue Funds thereby made available, subject to the following requirements:
- a. Amounts available shall be expended prior to utilization of any General Revenue available for the same purposes;
 - b. In the event General Revenue has been expended prior to the receipt of program income, the Commission shall reimburse General Revenue. This process shall be completed on a monthly basis in order to prevent accumulation of program income balances; and
 - c. The Commission shall report monthly to the Legislative Budget Board, the Governor, and the Comptroller's Office on program income receipts, expenditures, and anticipated revenues and balances.

The preceding paragraph shall be the exclusive appropriation authority for receipts from the above identified sources and none of these receipts shall be appropriated by a provision of Article IX of this Act.

Expenditures shall be made from CHIP Experience Rebates generated in fiscal years 2006 and 2007. The method of financing item, Experience Rebates - CHIP, for appropriations made above, includes unexpended and unobligated balances of Experience Rebates - CHIP remaining as of August 31, 2005, and receipts earned in fiscal years 2006 and 2007.

HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

The use of CHIP Experience Rebates is limited to health care services for CHIP clients. CHIP Experience Rebates shall be expended as they are received as a first source, and General Revenue shall be used as a second source, to support CHIP-related programs. In the event that the state has not received a tobacco settlements payment for fiscal year 2006 and fiscal year 2007 by September 1 of each year of the biennium, the Comptroller of Public Accounts is hereby authorized to use general revenue funds as needed for program expenditures for cash flow purposes between the beginning of the fiscal year and the receipt by the state of the tobacco settlement payment for the fiscal year. Upon receipt of the tobacco settlement payment, the general revenue fund shall be reimbursed with tobacco settlement receipts for all expenditures made pursuant to this provision.
 - c. Any unexpended balances remaining from appropriations made in Goal C, CHIP Services, for fiscal year 2006 may be carried over to fiscal year 2007.

administrative costs to the state and providers while providing fair and accurate financial information to the state necessary to the proper planning and funding of mental retardation services. In so doing, the Health and Human Services Commission shall seek to capture any and all costs, follow GAAP standards and to the extent possible, utilize financial statements similar to those prepared for banking, tax, and other common business financial planning, evaluation and reporting purposes.

In implementing this directive, the Commission shall work with providers, advocates, agency staff, and private sector financial experts, and shall ensure a clear separation between the rate setting and analysis functions from the audit functions.

- 30. Graduate Medical Education.** The Health and Human Services Commission is authorized to spend up to \$80.9 million in Appropriated Receipts - Match for Medicaid and an amount of Federal Funds estimated to be \$124.4 million for the biennium out of Strategy B.2.1. Cost Reimbursed Services, for Graduate Medical Education payments to teaching hospitals, contingent upon receipt of allowable funds from public teaching hospitals to be used as the non-federal share for Medicaid Graduate Medical Education. Appropriated Receipts - Match for Medicaid shall be the only source of funds used for the non-federal share for Medicaid Graduate Medical Education. The Commission shall develop a payment methodology that allocates funds for Medicaid Graduate Medical Education to all public and private teaching hospitals, and mitigates negative fiscal impacts on contributing hospitals and other state funding.
- 31. Contingent Appropriation: Cost Sharing - Medicaid Clients.** Contingent upon federal approval, the Health and Human Services Commission is authorized to collect and is hereby appropriated all cost sharing revenues generated by Medicaid clients as authorized in Section 32.064 of the Human Resources Code.

- 33. Additional Funding Sources, Medicaid.** Notwithstanding any other provisions of this Act, if the appropriations provided for a Medicaid program are not sufficient to provide for expenditures mandated by either state or federal law, after accounting for any appropriations made to the agency operating the Medicaid program, and available for transfer to the Medicaid program, the Legislative Budget Board and the Governor may provide for and are hereby authorized to direct the transfer of sufficient amounts of funds to the Health and Human Services Commission from appropriations made elsewhere in this Act.
- 34. Appropriation and Reporting of Earned Federal Funds.**

 - a. The Health and Human Services Commission shall submit a monthly report to the Legislative Budget Board and the Governor which details revenues, expenditures, and balances for earned federal funds as of the last day of the prior month. These payments shall equal the amount of the "pass through" and "first excess" payment the family would have received under prior law. Child support collections shall comprise a portion of each total payment. The portion of the total payment funded with child support collections shall equal the state share of the Federal Medical Assistance Percentage (FMAP) for the fiscal year. If child support "pass through" or "first excess" payment distribution requirements are modified by federal law after enactment of this provision, the commission, in cooperation with the Office of the Attorney General, shall adjust the supplemental payments as necessary to be consistent with federal law and to not exceed the total the family would have received prior to welfare reform. The commission shall report any change to child support supplemental payments to the Governor and Legislative Budget Board.
- 36. Temporary Emergency Assistance for Families At-Risk of Welfare Dependency.** Out of funds appropriated above in Strategy D.1.1, TANF Grants, the commission shall provide a one-time emergency assistance payment to applicants for Temporary Assistance for Needy Families (TANF) who are likely to be employed within a short period of time, without referral to the Choices program. - 37. High Performance Bonus for Administration of the Food Stamp Program.** High Performance Bonuses are annual incentive payments to state agencies that meet standards for high or most improved performance established by the Secretary of the U.S. Department of Agriculture. The authority to expend high performance bonuses for administrative costs paid in a prior fiscal year is subject to the following conditions:
- a. Within 30 days of receiving notice of the state's eligibility for a performance bonus, the Health and Human Services Commission shall notify the Legislative Budget Board and the Governor;
 - b. At least 45 days prior to budgeting a performance bonus, the Health and Human Services Commission shall provide documentation of the proposed use of these funds to the Legislative Budget Board and the Governor. The report shall identify the impact on established performance targets, measures, and full-time equivalent positions, and shall be prepared in a format specified by the Legislative Budget Board.

HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

- c. In the event that the state receives a performance bonus, the Health and Human Services Commission is appropriated all funds received by the agency as Earned Federal Funds (General Revenue) subject to all limitations in this rider and to the following:
 - (1) A portion of these funds, in each year of the biennium, shall be used by the Health and Human Services Commission for the development and operation of a nutrition education and outreach program, or for activities that otherwise improve low-income consumers' access to basic nutrition and healthy foods; and
 - (2) A portion of these funds, in each year of the biennium, shall be used by the Health and Human Services Commission to provide bonuses to position classifications whose efforts directly contributed to meeting these performance standards, or to position classifications who meet or exceed customer service performance measures developed by the commission, or whose efforts directly contributed to increasing the percentage of eligible persons who receive Food Stamps.
 - (3) Any High Performance bonus received by the Health and Human Services Commission between June 2, 2005 and August 31, 2005 is hereby appropriated to the commission.
- d. Before an employee can be eligible for a bonus, the employee must have been employed in the program for the related twelve months, remains employed in the program, and whose performance meets expectations.
- e. The commission has the authority to determine whether employees who have received bonuses under this provision are eligible for merit salary increases during a twelve-month period prior to or after receipt of the bonus.
- f. The commission shall prepare annual reports by October 1 of each year of the biennium summarizing the commission's progress in implementing the outreach program required in section (c) and file those reports with the standing committees of the Senate and House of Representatives having primary jurisdiction over health and human services.

38. Temporary Assistance for Needy Families (TANF) Maintenance of Effort. It is the intent of the Legislature that all general revenue appropriated above for TANF maintenance of effort shall be expended within the appropriate fiscal year for that purpose in order to secure the TANF federal block grant for the state. Out of funds appropriated above in Strategy D.1.1, TANF Grants, \$68,657,338 in general revenue is appropriated for TANF maintenance of effort for fiscal year 2006, and \$68,657,338 in general revenue is appropriated for TANF maintenance of effort for fiscal year 2007. None of the general revenue appropriated for TANF maintenance of effort in Strategy D.1.1, TANF Grants, may be transferred to any other item of appropriation or expended for any purpose other than the specific purpose for which the funds are appropriated. However, general revenue appropriated for TANF maintenance of effort may be transferred to Strategy A.1.2, Integrated Eligibility and Enrollment, subject to the following limitations:

- a. Declines or shifts in TANF caseloads prevent the Health and Human Services Commission from expending all general revenue appropriated for TANF maintenance of effort in Strategy D.1.1, TANF Grants, within the appropriate fiscal year;
- b. The amount of general revenue transferred from Strategy D.1.1, TANF Grants, shall be expended within Strategy A.1.2, Integrated Eligibility and Enrollment, for TANF program operating costs, within the appropriate fiscal year; and

- 39. Earned Income Disregard.** It is the intent of the Legislature that out of amounts appropriated above to Strategy D.1.1, TANF Grants, the Health and Human Services Commission is to maintain the earned income disregard for working TANF families. When determining eligibility and benefits, the commission shall exclude \$120 of earnings and 90 percent of the remaining earnings for each of the first four months of employment by a recipient. After the first four months of employment, the commission shall exclude \$120 of a recipient's earnings each month.
- 40. Performance Reporting for the Prescription Drug Rebate Program.** The Commission shall report on a semi-annual basis the following information to the Legislative Budget Board, the State Auditor's Office and the Governor: the outstanding prescription drug rebate balances for the Medicaid, CHIP, Kidney Health, and Children with Special Health Care Needs programs. The report shall include rebate principal and interest outstanding, age of receivables, and annual collection rates. The reports shall specify amounts billed, dollar value of pricing and utilization adjustments, and dollars collected. The Commission shall report these data on each year for which the Prescription Drug Rebate program has collected rebates and also on a cumulative basis for all years. In addition, the Commission shall provide no later than August 31, 2006 a separate report to the Legislative Budget Board, State Auditor's Office and the Governor's Office detailing the outstanding Medicaid prescription drug rebates and interest balances for the period from 1991 through the second quarter of calendar year 1995 in the format specified above.

In order to fully comply with this rider, the Commission should address data integrity issues related to the calculation of outstanding balance, cited in the State Auditor's Office report number 03-029 *An Audit Report on the Health & Human Services Commission Prescription Drug Rebate Program*.

- 41. TANF Grants.** It is the intent of the Legislature that the commission shall adjust the TANF grant amount each year to ensure that the maximum monthly grant for a family of three is at least 17 percent of the federal poverty level and provide a one-time per year grant of up to \$30 for each TANF child on August 1 of each year.
- 42. Texas Integrated Eligibility Redesign Systems (TIERS).** To fund the debt related to TIERS, the department may seek funding from the most cost-effective type of financing, including but not limited to cash acquisition, commercial financing, and financing provided by the Texas Public Finance Authority. From any funds appropriated to the Health and Human Services Commission for the purpose of implementing the project, an amount not to exceed \$3,521,186 (amounts needed for debt service) and an amount not to exceed \$19,170,165 (amounts needed for Master Lease Purchase Program) for the biennium in all funds may be transferred to the Texas Public Finance Authority for lease payments to the Texas Public Finance Authority to pay debt service on the obligations issued by the Texas Public Finance Authority on behalf of the commission for the above-mentioned project.
- 43. Capital Purchases on Behalf of other Government Entities or Service Providers.** Any capital items purchased by the Health and Human Services Commission (HHSC) for use by local governmental entities for which the commission is reimbursed do not apply to the commission for the purpose of the capital budget rider limitations specified in Article IX, Limitation on Expenditures - Capital Budget, of the General Provisions of this Act, nor to HHSC rider 2, Capital Budget.
- 44. Reimbursement of Advisory Council Members.** Pursuant to Government Code §531.408, reimbursement of travel expenses for Health and Human Services Council members, out of funds appropriated above, is hereby authorized such that the sum total of all reimbursements for members of the Council shall not exceed \$10,825 per fiscal year, at the rates specified in the general provisions of this Act.

 - (5) Any other information requested by the Legislative Budget Board or the Governor.

The monthly financial reports shall be prepared in a format specified by the Legislative Budget Board.

- 46. Medicaid Eligibility Determinations for Children.** It is the intent of the Legislature that the initial Medicaid certification be determined without a face-to-face interview. The Health and Human Services Commission may develop procedures that require an initial Medicaid certification to be conducted by a personal interview only when it is determined that there are no other reasonable means to verify the information needed to satisfactorily determine initial eligibility.

For recertification of Medicaid eligibility, the Health and Human Services Commission may develop procedures to determine the need for a personal interview, based on a system of objective, risk-based factors and conditions. Such procedures shall be intended to focus only on a targeted and limited number of recertifications for which there is a high probability that eligibility has not continued.

- 47. Office for Prevention of Developmental Disabilities.** The Health and Human Services Commission shall expend, from funds otherwise appropriated to the commission by this Act, an amount not to exceed \$100,320 each fiscal year for salaries, benefits, travel expenses, and other support of the Office for Prevention of Developmental Disabilities.

50. Medical Treatments. The Health and Human Services Commission may distribute funds for medical, dental, psychological or surgical treatment provided to a minor only if consent to treatment is obtained pursuant to Chapter 32 of the Texas Family Code. In the event that compliance with this rider would result in the loss of Federal Funds to the state, the department may modify, or suspend this rider to the extent necessary to prevent such loss of funds, provided that 45 day prior notification is provided to the Governor and the Legislative Budget Board.

51. Appropriations Reduction for Integrated Eligibility. Pursuant to the Seventy-eighth Legislature, House Bill 2292, Section 2.06, regarding the implementation of call centers, the appropriations to the Health and Human Services Commission made above for eligibility determination are hereby reduced by \$14,471,184 in General Revenue and \$16,905,312 in Federal Funds (including \$2,238,156 in Temporary Assistance for Needy Families) for fiscal year 2006 and \$50,591,837 in General Revenue and \$58,951,746 in Federal Funds (including \$7,804,838 in Temporary Assistance for Needy Families) for fiscal year 2007 to reflect savings associated with the transition to integrated eligibility determination and the use of call centers.

The number of authorized FTE positions for the Health and Human Services Commission is hereby reduced by 829.0 in fiscal year 2006 and 3,980 in fiscal year 2007. FTE reductions may be made incrementally during the fiscal year, and the agency may exceed the appropriated FTE cap for the first two quarters of each year of the biennium. However, the agency shall report on a quarterly basis beginning December 1, 2005 to the Legislative Budget Board and the Governor on the actual and cumulative FTE reductions and savings achieved. The agency shall achieve an overall FTE reduction of 3,472 in fiscal year 2006 and 4,487 in fiscal year 2007. The commission may allocate no more than 7 percent of both the funding and FTE reductions to the Department of Aging and Disability Services for long term care functional eligibility determination.

52. Appropriation of Unexpended Balances - Revenue Bonds. Any unexpended balances of Bond Proceeds - Revenue Bonds for the TIERS project from previous appropriations, estimated to be \$0, from fiscal year 2005 to fiscal year 2006 are hereby appropriated to the Health and Human Services Commission for the same purposes, contingent upon the commission providing to the Legislative Budget Board and the Governor a detailed description of the project and cost at least 45 days prior to the expenditure of such funds.

- 54. Collection of Rebates on Physician Administered Prescription Drugs.** The Health and Human Services Commission is required to make necessary changes to the Medicaid Management Information System to collect rebates on single-source and multi-source physician administered drugs. The pilot program shall include public awareness efforts aimed at educating Medicaid clients about appropriate use of the emergency room and, at a minimum, one of the following: higher reimbursement to primary care providers who extend their routine office hours to include evenings and weekends; contracts with urgent care clinics to provide after-hour care; a case management program targeted to clients who use the emergency room for non-emergent conditions; an additional per member per month quality enhancement fee to primary care providers and/or an administrative entity for the purposes of implementing quality initiatives to reduce non-emergent use of the emergency room; or other option designed to reduce non-emergent use of the emergency room determined by the Commission. The Commission shall submit a workplan by September 1, 2005, to the Legislative Budget Board and the Governor that details the quality initiative(s) to be implemented by the Commission. The Commission shall conduct a study to test the effectiveness of the pilot program at reducing non-emergent use of the emergency room and Medicaid costs and submit a report to the Legislative Budget Board and the Governor by February 1, 2007.
- 56. Analysis of Multi-state Medicaid Drug Purchasing Pool.** Out of funds appropriated above in Strategy B.2.2, Medicaid Vendor Drug Program, the Health and Human Services Commission shall conduct an analysis to determine the cost-benefit and feasibility of establishing or joining a multi-state Medicaid drug purchasing pool. Analysis shall include the identification of other states with which pooling of Medicaid drug purchasing provides the greatest opportunity to achieve savings in Texas. The Commission shall report the results of this analysis to the Legislative Budget Board and the Governor not later than January 15, 2006.
- 57. CHIP Enrollment.** In the event that appropriations are insufficient to sustain enrollment at authorized eligibility and benefit levels in CHIP, it is the intent of the legislature that the Executive Commissioner transfer necessary funds to Goal C, CHIP Services, pursuant to the notification and approval requirements contained in other provisions, and request additional appropriation authority from the Legislative Budget Board prior to establishing a waiting list and suspending enrollment pursuant to Health and Safety Code § 62.101.

- 59. Ambulance Services.** Out of funds appropriated above, the Health and Human Services Commission shall conduct a study of ambulance service rates in Texas and their equivalence to comparable Medicare fee schedules as well as rates paid in other states under Medicaid services. The Commission shall provide a copy of this report to the Legislative Budget Board and the Governor's Office no later than December 31, 2005.
- 60. Medicaid Provider Reimbursement.** From funds appropriated above, the Health and Human Services Commission shall convene a workgroup to assist the Executive Commissioner in studying and making recommendations for changes in the hospital (both inpatient and outpatient services) reimbursement rate methodology. These recommendations shall include cost inflators, rebasing of the rates, and other alternatives, such as waivers that would combine Disproportionate Share Hospital (DSH), Graduate Medical Education (GME) and Upper Payment Limit (UPL) funds. Alternatives could be considered in determining hospital rates that would reward efficient providers, critical care providers, rural hospitals and special children hospitals, as well as incentives for hospitals to serve Medicaid clients and control medical cost. Workgroup members shall be composed of agency staff familiar with inpatient hospital rate methodology, external groups and representatives of the various hospital organizations. The Health and Human Services Commission shall prepare a report for consideration by the Eightieth Legislature. The report should contain options and the fiscal impact of the recommended changes to the hospital rate methodology submitted to the Legislative Budget Board and Governor by October 1, 2006.
- 61. - 62. Medicaid Reimbursement for Immunizations.** The Health and Human Services Commission, in conjunction with the Department of State Health Services, shall develop and implement a reimbursement fee schedule for its immunization program that compensates providers based on the number of antigens delivered to the patient. In no event shall the reimbursement for administering immunizations be less than the current program if it were based on an antigen delivered fee schedule. The Commission shall ensure that the change to an antigen-based fee schedule will not require higher overall reimbursement.
- 63. Medicaid Support and Information Services.** Out of the funds appropriated above in Goal B: Medicaid, such funds as are necessary to implement the project are allocated for the Medicaid Help Line authorized under § 531.0213, Government Code. - 66. Payment of August 2007 Payments for Medicaid Managed Care and Children's Health Insurance Program (CHIP).** Funds appropriated above include a reduction of \$52.7 million in General Revenue and \$134.6 million in All Funds out of Strategy B.1.4, Children and Medically Needy, for fiscal year 2007 and a reduction of \$5.0 million in General Revenue and \$17.9

- 67. Continued Medicaid Coverage of Certain Excluded Medicare Part D Drug Categories.** It is the intent of the Legislature that from funds appropriated above in Strategy B.2.2, Medicaid Vendor Drug Program, the Health and Human Services Commission shall continue to provide Medicaid coverage for certain categories of drugs not covered under the federal Medicare Part D program, under Section 1935(d)(2) of the Social Security Act, for full dual eligible clients. This coverage is limited to only those categories of excluded Medicare Part D drugs that continue to be eligible for federal Medicaid matching funds and that are currently covered under the Medicaid Vendor Drug Program (e.g. prescribed over-the-counter medications, barbiturates, and benzodiazepines).
- 68. Contingent Appropriation for Mental Health Services.** Out of the General Revenue amounts appropriated above for Medicaid mental health benefits in Strategy B.1.1, Aged and Disabled, \$17,314,248 in fiscal year 2006 and \$17,314,248 in fiscal year 2007 is contingent on revenue deposited in General Revenue Dedicated Account 5100, System Benefit Fund, exceeding the Comptroller of Public Accounts' Biennial Revenue Estimate by \$11,201,653 for fiscal year 2005, by \$10,629,577 for fiscal year 2006 and by \$12,797,266 for fiscal year 2007. - 69. Dual Diagnosis Pilot.** From funds appropriated by this Act, the Health and Human Services Commission is authorized to utilize up to \$75,000 per year to provide a grant to a non-profit organization to develop a pilot project directed at enhancing the well being and care of citizens who are dually diagnosed with mental retardation and mental illness.
- The project will create and design a regional delivery system that ensures a dually diagnosed individual access to a full array of services and supports as needed. This system will include the clinical best practice model for successful outcomes. The system will include input and participation with local MHAs, local MRAs, community health centers, state mental retardation, and mental health facilities within the region, community providers, and advocates. The grantee is expected to actively seek supplemental funding sources to support the project. A report including project status, outcomes and additional funding secured will be submitted to the 80th Legislature.

It is the intent of the Legislature that any waiver obtained by the Commission shall not be used to provide abortion services or require appropriations of general revenue that exceed the cost savings to be realized by the waiver in the first two years of implementation and in future biennia.
- 72. Advanced Practice Nurse and Physician Assistant Reimbursement.** The Health and Human Services Commission shall adopt rules to provide that the Commission shall not pay for any Medicaid service provided by an Advanced Practice Nurse or Physician Assistant unless it is billed under the Advanced Practice Nurse's or Physician Assistant's provider number.

The Health and Human Services Commission shall implement Medicaid upper payment limit reimbursement to cover the actual costs incurred in providing Medicaid inpatient and outpatient services and Graduate Medical Education at children's hospitals. In the event that appropriations are insufficient to cover these Medicaid costs in all children's hospitals, the Health and Human Services Commission shall prioritize this Medicaid upper payment limit reimbursement to reduce the Medicaid losses in any children's hospital with a Medicaid patient load that exceeds 60 percent of the hospital's total inpatient days.
- 74. Contingency for Senate Bill 747.** Contingent upon enactment of Senate Bill 747 by the Seventy-ninth Legislature, Regular Session, or similar legislation relating to a women's health waiver, and contingent upon federal approval of the waiver, the Health and Human Services Commission shall transfer \$20 million in General Revenue and \$30 million in Federal Funds in fiscal year 2007 from Strategy B.1.3, Pregnant Women, to Strategy B.1.4, Children and Medically Needy. It is the intent of the Legislature that the agency re-direct savings accrued from implementation of the bill in order to reduce the amount of non-General Revenue funding for the provision of Medicaid services to the Medically Needy. These General Revenue funds shall be expended as specified in this provision only in the event that the Commission receives a contribution of local matching funds for the Medically Needy program.

(Continued)

- b. **Appropriation authority and accounting for MH and MR Medicare Receipts.** Amounts defined as MH and MR Medicare Receipts shall be deposited into the General Revenue Fund according to the identified Comptroller Revenue Object Code above. The Department of State Health Services and the Department of Aging and Disability Services are authorized to receive and expend MH and MR Medicare Receipts as a first source, and general revenue shall be used as a second source. The expenditure of MH and MR Medicare Receipts is subject to the following requirements:
- (1) Amounts available shall be expended prior to utilization of any general revenue available for the same purpose. In the event general revenue must be expended, the agency will provide notification to the Legislative Budget Board and the Governor;
 - (2) In the event general revenue has been expended prior to the receipt of MH and MR Medicare Receipts as defined above, the departments shall reimburse general revenue upon receipt of the revenue. These transfers and repayments shall be credited to the fiscal year being reimbursed and shall be in accordance with procedures established by the Comptroller. All transfers of the method of finance shall be reported by the departments to the Legislative Budget Board and the Governor.

Sec. 29. Funding Equity Among Local Mental Health and Mental Retardation Authorities. It is the intent of the Legislature that the Department of State Health Services and the Department of Aging and Disability Services shall implement a long-term plan to achieve equity in state funding allocations among local mental health and mental retardation authorities. The plan shall be implemented from fiscal years 2006-2013. The goal of the plan shall be to achieve equity to the greatest extent possible by fiscal year 2013, however, any funding reductions to a local authority for the purpose of achieving equity may not exceed 5 percent of allocated general revenue in a fiscal year. The plan shall also provide for improving funding equity to be a priority in distributing any new state or federal funds that may become available for allocation to community centers.

In assessing the equity of funding the departments may use alternatives other than basing equity calculations solely on the total population served by each local authority. Additional factors, such as incidence of poverty, may be considered if they help to provide a better estimate of the need for state funded mental health or mental retardation services in the areas served by each local authority. The

departments shall submit the long-term equity plan to the Office of the Governor and the Legislative Budget Board by December 31, 2005. The departments shall include in legislative appropriations requests a table showing how implementation of the equity plan will affect projected allocations to community centers at the baseline current services funding level.

Sec. 30. Community Mental Health and Mental Retardation Centers. If the Department of State Health Services or the Department of Aging and Disability Services determine that a community mental health and mental retardation center is unable or unwilling to fulfill its contractual obligations to provide services or to exercise adequate control over expenditures and assets, the departments may take necessary steps, including the appointment of a management team as authorized by Health and Safety Code, §§ 534.038-534.040, to protect the funds appropriated under this Act and ensure the continued provision of services.

Sec. 33. Barber and Cosmetology Services. The Department of State Health Services and the Department of Aging and Disability Services may charge fees for barber and cosmetology services in state mental health and mental retardation facilities provided the fees charged are consistent with an individual's ability to pay. These fees are appropriated above to the departments to offset the cost of providing barber and cosmetology services. The departments may also use patient benefit funds to offset the cost of these services for indigent clients.

Sec. 34. Surplus Property. In order to conserve funds appropriated, surplus personal property may be transferred from one state mental health or mental retardation facility to another with or without reimbursement. The Department of State Health Services and the Department of Aging and Disability Services may transfer surplus personal property from a state mental health or mental retardation facility to a community MHMR center with or without reimbursement. Surplus personal property belonging to any state mental health or mental retardation facility may be sold; provided, however, that such transfers or sales shall be made under the same procedure as provided by Government Code, Chapter 2175.

Sec. 35. Road Construction and Maintenance at State Facilities. Notwithstanding any other provision in law, the Texas Department of Transportation shall construct, repair, and maintain roads in and providing access to and from Department of State Health Services and Department of Aging and Disability Services mental health and mental retardation facilities.

(Continued)

The commission is authorized to license the use of any copyright-protected material, trademark, trade secrets, and any patented technology relating to mental health or mental retardation program activities. The authorization provided under this provision does not include any mineral royalties. Fees collected in the sale of training materials described under (a) above may be in excess of the actual reproduction cost incurred by the commission and shall be used to recoup the costs associated with developing the training materials. Fifty percent of the fees collected in licensing of any patented technology shall be devoted to further research and development of technologies reasonably believed to be of assistance to priority populations. The remaining 50 percent shall be deposited to the General Revenue Fund.

Sec. 37. Employee Meals. Notwithstanding any other provision in this Act, the Department of State Health Services and the Department of Aging and Disability Services may provide free meals to employees of state mental health and mental retardation facilities who are required to eat meals with clients.

Sec. 38. Maximum Security Salaries. As a specific exception to the General Provisions of this Act governing salary rates of classified positions, funds are included above for the Department of State Health Services and the Department of Aging and Disability Services to pay employees working in designated Maximum Security Units or designated specialized Behavioral Management Units of state mental health and mental retardation facilities up to a 6.8 percent increase over those salary rates provided by the General Provisions.

Sec. 39. Fire Prevention and Safety. In instances in which regular employees of state mental health and mental retardation facilities located in remote areas are assigned extra duties in fire prevention programs, the following payments are authorized in addition to the salary rates stipulated by the General Provisions of this Act relating to the position classifications and assigned salary ranges:

Sec. 41. Language Interpreter Services. In order to compensate employees of state mental health and mental retardation facilities for assuming the duty of providing interpretation services to consumers whose primary language is not English, facilities of the Department of State Health Services and the Department of Aging and Disability Services, upon written authorization of the Commissioner or his/her designee, may, from funds appropriated above, increase the salary of classified employees by an amount equal to a one step increase, or 3.4 percent, so long as the resulting salary rate does not exceed the rate designated as the maximum rate for the applicable salary group. This increase shall be granted only for the regular provision of interpreter services above and beyond the regular duties of the position, and shall be removed when these services are, for whatever reason, no longer provided by the employee or when they are no longer needed by the facility. Salary increases provided for this purpose are not merit increases and shall not affect an employee's eligibility to receive a merit increase. This authorization also includes employees who provide interpretation services in American Sign Language.

Sec. 42. State-Owned Housing. The Superintendent, Medical Director, Assistant Superintendent for Programs, and Director of Plant Maintenance at each state mental health and mental retardation facility are authorized to live in state-owned housing at a rate determined by the Department of State Health Services or the Department of Aging and Disability Services. Sec. 44. Limit on Spending New Generation Medication Funds.

- a. It is the intent of the Legislature that the Department of State Health Services and the Department of Aging and Disability Services utilize funds appropriated for New Generation Medications for no other purpose than the provision of New Generation Medications. This limitation shall apply to funds appropriated for New Generation Medications in the following strategies at the Department of State Health Services: B.2.1, Mental Health Services for Adults, B.2.2, Mental Health Services for Children, B.2.3, NorthSTAR Behavioral Health Waiver, and C.1.3, Mental Health State Hospitals; and in the following strategy at the Department of Aging and Disability Services: A.8.1, MR State Schools Services.
- b. Notwithstanding the limitation described above, the department shall allow a local mental health or mental retardation authority to expend an amount not to exceed 15 percent of its New Generation Medication funds on support programs that are related to the administration of New Generation Medications, provided, however, that an authority using its New Generation Medication funds for support services must meet its contracted performance target for persons served with New Generation Medications and that the availability of New Generation Medication funds to expend on services must result from cost efficiencies achieved by the authority.
- c. To the extent that the local authorities are able to obtain private sector donations of medications for clients and/or financial contributions for the purchase of new generation medications in Strategies B.2.1 and B.2.2, and they meet or exceed their contracted performance targets for persons served with New Generation Medications, they may expend up to an equivalent amount from these strategies on direct services to clients.

Sec. 45. Purchasing of Medication. The Department of State Health Services and the Department of Aging and Disability Services shall require local mental health and mental retardation authorities to document their effort to make needed medications available to consumers at the lowest possible prices and to utilize the most cost effective medication purchasing arrangement available. It is the intent of

ALL HEALTH AND HUMAN SERVICES AGENCIES**

the Legislature that the Department of State Health Services and the Department of Aging and Disability Services shall provide technical assistance to community centers as necessary to maximize efficiency.

Sec. 46. Donations from Individuals, Community Groups and Volunteer Services Councils. It is expressly provided that the Department of State Health Services and the Department of Aging and Disability Services, in accordance with § 533.001 of the Health and Safety Code and to the extent permitted by law, may accept donations for permanent improvements at the state mental health facilities and the state mental retardation facilities from individuals, community groups and local Volunteer Services Councils. Such funds are not subject to limitations on capital budget expenditures as contained in Article IX or any other similar provisions in this Act. Permanent improvements are defined as an improvement to a state facility that involves construction, building system(s), and/or landscaping.

Sec. 47. Contracted Medical Services. It is the intent of the Legislature that the Department of State Health Services (DSHS) and the Department of Aging and Disability Services (DADS) will not pay more than the approved reimbursement rate set by the Health and Human Services Commission for hospital services provided to an indigent DSHS or DADS consumer in a private or public hospital.

Sec. 48. Efficiencies at Local Mental Health and Mental Retardation Authorities. It is the intent of the Legislature that the local mental health and mental retardation authorities that receive allocations from the funds appropriated above to the Department of Aging and Disability Services and the Department of State Health Services shall maximize the dollars available to provide services by minimizing overhead and administrative costs and achieving purchasing efficiencies. Among the strategies that should be considered in achieving this objective are consolidations among local authorities and partnering among local authorities on administrative, purchasing, or service delivery functions where such partnering may eliminate redundancies or promote economies of scale. Local mental health and mental retardation authorities shall also maximize third party billing opportunities, including Medicare and Medicaid.

It is the Legislature's intent that local authorities not expend funds appropriated to the Department of Aging and Disability Services in Strategy A.4.3, MR Community Services, or Strategy A.4.4, MR Community Services Residential, to supplement the rate-based payments they receive to fund their costs as providers of waiver or ICF-MR services.

Sec. 49. Appropriation Reduction for the Provision of Services to the Medicaid Aged/Blind/Disabled Population. Appropriations to the Health and Human Services Commission made elsewhere in this Act are hereby reduced by \$36,500,000 in General Revenue Match for Medicaid and an estimated \$56,350,000 in Federal Funds for fiscal year 2006, and by \$73,000,000 in General Revenue Match for Medicaid, and an estimated \$111,700,000 in Federal Funds for fiscal year 2007. In order to achieve the level of savings anticipated by this provision, it is the intent of the Legislature that the Commission utilize cost-effective models to better manage the care of the aged/blind/disabled Medicaid population including primary care case management (PCCM), HMO carve-out, or integrated care management (ICM).

It is specifically provided, however, that funds appropriated for the provision of services to the Medicaid aged/blind/disabled population may not be expended to expand the use of any capitated managed care model which would eliminate existing federal matching payments to local public hospitals under federal upper payment limit (UPL) regulations. The implementation or expansion of managed care models is further subject to the following provisions:

- a. The Commission shall develop an equitable allocation of the appropriation reductions made herein to each of the service delivery areas listed below and shall establish an appropriate share of the savings target to each managed care organization in that service delivery area—Bexar, Dallas, El Paso, Harris, Lubbock, Nueces, Tarrant, and Travis.

**SPECIAL PROVISIONS RELATING TO
ALL HEALTH AND HUMAN SERVICES AGENCIES**
(Continued)

- b. As authorized by law, the Commission shall develop an Integrated Care Management model for the provision of medical and health care services to the aged/blind/disabled population in the Dallas service delivery area. Subject to competitive procurement requirements and any necessary federal approval, the Commission shall implement the model by September 1, 2006 or as soon thereafter as practicable. Not later than August 1, 2006, the Commission shall establish an actuarial estimate of the savings expected to be achieved by the ICM model. To the extent necessary, the Commission is directed to adjust payments to hospitals, physicians, and home health providers in the service delivery area to ensure that the savings target is achieved.
- c. In any service delivery area where a capitated managed care model for the aged/blind/disabled population is utilized (HMO carve-out), not later than August 1, 2006 the Commission shall establish an actuarial estimate of the apportioned share of savings expected to be achieved by each managed care organization. To the extent necessary, the Commission is directed to adjust payments for administration, risk, and profit to ensure that the savings target is achieved.
- d. The Commission may utilize the Primary Care Case Management model for the aged/blind/disabled population in a service delivery area only if the actuarial estimate of savings achieves the savings target for that area.
- e. It is the intent of the Legislature that the Commission consult with public hospital officials and appropriate county officials in each service delivery area in determining the managed care model to be utilized in that area.
- f. Contingent upon federal approval of any necessary waiver changes, the Commission may expend funds appropriated to the provision of services to the Medicaid aged/blind/disabled population to convert the Harris County STAR+PLUS model to an HMO carve-out model as soon as practicable.
- g. Medicaid funds appropriated to the Department of Aging and Disability Services and the Health and Human Services Commission may be transferred between the agencies during the 2006-07 biennium to support the implementation of models of care under sections (b), (c), and (d). The Commission shall notify the Legislative Budget Board and the Governor of the amounts to be transferred for this purpose. The notification shall indicate the impact to performance measures at both agencies. The Commission shall provide a final notification update November 1, 2006 on amounts to be transferred and the impact to performance measures.

Sec. 50. Alternatives to Abortion. From funds appropriated in Strategy B.1.3, Family Planning Services, Department of State Health Services, \$2,500,000 each year of TANF federal funds initially designated to be converted to the Title XX Social Services Block Grant is transferred to the Health and Human Services Commission to be expended as TANF federal funds through grant or contract. The Health and Human Services Commission shall expend these funds, consistent with federal and state law, to implement a statewide program for women seeking alternatives to abortion focused on pregnancy support services that promote childbirth.

Sec. 51. Equal Opportunity Principles in Contracting for Social Services. The legislature intends that each state agency that contracts with or makes a grant to a nongovernmental entity to provide social services, using money appropriated by this Act, enter the contract or make the grant in a manner that is consistent with the equal opportunity principles and safeguards provided by federal law under 42 U.S.C. § 604a.

Sec. 52. Transfers of Funds for Consolidated Support Services. The Health and Human Services Commission (HHSC) is authorized to return funding at the Commission to the appropriate HHS agency for support functions and programs consolidated at the Commission. HHSC shall notify the Legislative Budget Board, Governor, and the Comptroller prior to making the transfers.

**SPECIAL PROVISIONS RELATING TO
ALL HEALTH AND HUMAN SERVICES AGENCIES**
(Continued)

- a. Funds related to consolidated programs and support services shall be returned to the Department of Aging and Disability Services (DADS), the Department of Assistive and Rehabilitative Services (DARS), the Department of Family and Protective Services (DFPS), and the Department of State Health Services (DSHS). These funds will be matched with available federal funds and expended under interagency memoranda between HHSC and each agency.
- b. Transfer limitations elsewhere in this Act do not apply to this provision.
- c. By July 1 preceding the start of each fiscal year, the agencies of Article II shall provide a report by strategy that reduces funding at HHSC and increases funding by the same amount at DADS, DARS, DFPS, and DSHS.
- d. The transfers shall be made prior to the start of the fiscal year.
- e. The loss of funds at HHSC shall be replaced by increased interagency contracts in the method of finance.
- f. This transfer shall not result in a change in total funding in Article II.

Sec. 53. Exemption of Federal Funds from Article IX, Capital Budget Provisions. To comply with the legislative intent to maximize the use of federal funds and to fulfill grant requirements for the receipt and expenditure of federal funds, the Department of Aging and Disability Services, the Department of Assistive and Rehabilitative Services, the Department of Family and Protective Services, the Department of State Health Services, and the Health and Human Services Commission are hereby exempted from the Capital Budget Rider Provisions contained in Article IX of this Act, "Limitations on Expenditures -- Capital Budget," when federal funds are received in excess of amounts identified in the agency's Capital Budget Rider and when such funds are designated for the purchase of capital items. The agency shall notify the Legislative Budget Board and the Governor upon receipt of such federal funds, including the amount received and the items to be purchased, and shall not expend such funds without approval of the Legislative Budget Board and the Governor. The proposed expenditure shall be considered to be approved if neither the Legislative Budget Board nor the Governor issues a written disapproval not later than:

- a. the 10th business day after the date the staff of the Legislative Budget Board concludes its review of the proposed expenditures and forwards its review to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor; and
- b. the 10th business day after the receipt of the proposed expenditures by the Governor.

* **Sec. 54. Contingency Reduction for House Bill 10: Department of Aging and Disability Services.** Contingent upon enactment of House Bill 10 by the Seventy-ninth Legislature, Regular Session, or similar legislation that appropriates approximately \$62,200,000 in General Revenue and \$85,800,000 in Federal Funds to provide reimbursement for nursing facility services and community center services delivered in August 2005, the Department of Aging and Disability Services' appropriations in the following strategies are hereby decreased for fiscal year 2006 by the amounts indicated: Strategy A.6.1, Nursing Facility Payments, \$56,700,000 in General Revenue Funds and \$85,800,000 in Federal Funds; A.4.3. components or from academic components to medically-related components except that transfers may be made from schools of nursing, pharmacy and allied health in academic components to medically-related components and from medically-related components into the health-related programs listed above in academic components. Transfers may not be made into the informational items setting the salary rate for the president, chancellor, or for any other line-item salary shown. Nothing in this section shall authorize the transfer of appropriations from Texas A&M University Service Agencies to Texas A&M University.

2. **Health to Academic Intercomponent Transfers with LBB Prior Approval.** As an exception to the provisions in Subsection 1, transfers may be made with prior approval of the Governor and Legislative Budget Board from medically-related components to general academics if it does not diminish the academic programs of the medically-related component or result in increased fees to patients at the component. The systems shall furnish whatever documentation may be required by the Governor and Legislative Budget Board to assure these conditions are met.
3. **Revenue Enhancement and Transfer Notification.** The Legislature instructs The University of Texas System to enhance local funds revenues to reduce the need for general revenue funds. The Legislature instructs The University of Texas System to give 30 days notice to the Legislative Budget Board and Governor prior to transferring local funds from any System hospital. Furthermore, notwithstanding the provisions of subsections 1 and 2 above, The University of Texas System Board of Regents shall not transfer funds from health institutions delivering patient care if such a transfer would result in a decrease in the quality or amount of indigent patient care offered by the affected institution.
4. **Reporting of Transfers.** Any transfers made pursuant to Subsections 1, 2, and 3, whether general revenue or local funds in nature, shall be reported in the Legislative Appropriations Request for the biennium beginning September 1, 2007.

above amounts a house, utilities, and/or supplement from institutional funds. 4. **Merit Authorization.** It is expressly provided that institutional administrators may grant merit salary increases to employees whose job performance and productivity is consistently above that normally expected or required.
5. **Merit Requirement for Faculty and Faculty Equivalent Employees of Institutions and Agencies of Higher Education.** Notwithstanding any other provisions of this act, salary increases for faculty or faculty equivalent employees of institutions of higher education shall be awarded on the basis of merit and performance in accepted activities. This shall not be interpreted so as to preclude salary adjustment designed to avoid salary inequities.
6. **Group Insurance Premiums.** For the biennium ending August 31, 2007, there is hereby appropriated such amounts, from local funds or educational and general income available to institutions of higher education, as may be necessary to pay the proportional share of the State's contributions for Staff Group Health Insurance Premiums. 8. **Administrative Accountability**
 - a.  - b. For purposes of subsection (a), "high-ranking administrative position" includes the following positions:

- (12) any other administrative position having similar responsibilities to the other positions listed in this subsection.

c. A report submitted under subsection (a) must:

- (1) be in a form prescribed by the Legislative Budget Board;
- (2) include the name, salary, and total value of nonsalary benefits for each person holding a high-ranking administrative position at the institution; and
- (3) include the percentage salary increase for each person holding a high-ranking administrative position at the institution who occupies the same position during the current fiscal year as during the preceding fiscal year.

d. Not later than the seventh day after the date an institution of higher education submits the report required by subsection (a), the institution shall make a copy of the report available for public inspection in the library of the institution.

Sec. 6. Expenditure Provisions. The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

1. **Annual Operating Budgets Required.** It is expressly provided that the governing board of each of the institutions of higher education named herein shall approve on or before September 1, 2005 and 2006, an itemized budget covering the operation of the ensuing fiscal year, which budget shall be prepared within the limits of the revenue available. Each institution's operating budget shall contain a section(s) which provides budget amounts and the method of finance for each listed informational item of appropriated funds contained in this Act. A copy of each budget, and any subsequent amendments thereto, shall be filed with the Legislative Reference Library and the institution's general library to be available for public inspection. Copies of each budget shall also be filed with the Legislative Budget Board, the Governor, and the Texas Higher Education Coordinating Board by December 1 of each fiscal year.
2. **Clearing Accounts.** At their option, the institutions may use their local depository bank account in lieu of the special clearing account, authorized by Education Code, § 51.008(b), provided that the general requirements set out in therein, for deposits and transfers to the state treasury, are complied with.
3. **Revolving Funds**
 - a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the Comptroller of Public Accounts being hereby authorized to make such reimbursements on claims filed with her by the institutions under her regularly prescribed procedures except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state appropriations, and each institution shall prepare such a

STATE AGENCIES OF HIGHER EDUCATION

reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.

- b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.
- c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.

- 4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.

- 5. **Investment Reports.**

- a. The governing board of each of the educational institutions named in this Article shall file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the Governor an annual report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the State Auditor's Office. Copies of such reports shall be available for public inspection. In addition to the annual report, each institution shall publish on its website quarterly investment reports in any format it deems appropriate.
- b. The governing boards of each educational institution named in this Article must adopt formal investment policies. Each governing board shall submit to the Legislative Budget Board and State Auditor's Office a copy of their investment policy by December 31 of each year.

- 6. **Central Services Accounts.**

- a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment or travel incidental to the administration and supervision of the respective units.

- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account
The University of Texas System Central Services Account
University of Houston System Central Services Account
Texas Tech University System Central Services Account
University of North Texas System Central Services Account
Texas State University System Central Services Account

- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Education Code § 55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

to reimburse institutions or centers for debt retirement authorized by Education Code § 55.17 through § 55.1744 and § 55.19, and any additional authorization enacted by the Seventy-ninth Legislature. Any funds in excess of the amount expended for debt retirement shall be reverted to the General Revenue Fund at the end of each fiscal year.

Sec. 7. Recruitment of Students. No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 8. Television Stations Prohibited. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 10. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use education and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

Sec. 11. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code § 56.031 to § 56.039, cited as the Texas Public Educational Grants Program.
2. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships, shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

3. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
4. Out of the additional funds appropriated for the 2006-07 biennium for the informational strategy described as "Scholarships," it is the intent of the Legislature that the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.
2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.
3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

Sec. 14. Off-campus Instruction. General academic institutions may teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. Medical School Enrollment. It is the intent of the Legislature that the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 2006 and August 31, 2007, shall be no less than 200 students at The University of Texas System medical colleges and 100 students at the University of North Texas Health Science Center at Fort Worth and the Texas Tech University Health Sciences Center College of Medicine. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of undergraduate medical students by more than 5 percent for fiscal years 2006 and 2007, the school shall report to the Legislative Budget Board the reasons for failing to meet the required enrollment. It is the intent of the Legislature that this information be taken into account when preparing the appropriation recommendations for the Eightieth Legislature.

Sec. 16. Tuition and Other Educational and General Local Fee Collection. On or before the end of the 20th class day for each regular semester and the 15th class day for each summer session, each institution of higher education shall collect from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by Education Code, Chapter 54, as amended. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 17. Compliance with Uniform Recruitment and Retention Strategy. It is the intent of the Legislature that institutions of higher education give top priority and consideration to compliance with the spirit and mandates of the Uniform Recruitment and Retention Strategy.

Sec. 18. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board, shall clearly define all variables used by the Seventy-ninth Legislature in arriving at formula appropriations for 2006 and 2007. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making 2006 and 2007 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2006 and 2007 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 19. System Offices Funding Authorized. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

Sec. 20. Annual Reports of Health Related Institutions Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year, showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 21. Self-insurance Funds. Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code § 2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in § 51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 22. Elements of Un-sponsored Charity Care.

1. **Financially Indigent.** Un-sponsored charity care shall include unreimbursed services to the financially indigent. Financially indigent shall mean uninsured or underinsured patients accepted for care with no obligation or a discounted obligation to pay for services rendered based on a teaching hospital's or clinic's formal eligibility system which may include: (a) income levels and means testing or other criteria for determining a patient's inability to pay; or (b) other criteria for determining a patient's inability to pay that are consistent with the hospital's or clinic's mission and established policy. The federal poverty level shall serve as an index for the threshold below which patients receiving care at The University of Texas Southwestern Medical Center at Dallas, The University of Texas Medical Branch at Galveston, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, The University of Texas M.D. Anderson Cancer Center, The University of Texas Health Center at Tyler, Texas A&M University System Health Science Center, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center are deemed financially indigent. Financially indigent services include both noncovered services and contractual allowances for patients eligible for the Medicaid program and for the Children with Special Health Care Needs program, services provided under county indigent care contracts (Sec. 25), and services provided under other state or local government programs with eligibility indexed to the federal poverty level.
2. **Medically Indigent.** Un-sponsored charity care shall include unreimbursed services to the medically indigent. Medically indigent shall mean patients who are responsible for their living expenses, but whose medical and hospital bills, after payment by third-party payers, where applicable, exceed: (a) a specified percentage of the patient's annual gross income (i.e., catastrophic medical expenses) in accordance with a teaching hospital or

clinic's formal eligibility system in such instances where payment would require liquidation of assets critical to living or earning a living; or (b) the criteria for determining a patient's inability to pay as established by the public health-related institutions listed in Sec. 22, 1. Financially Indigent.

3. **Charity Care Determination.** The determination that a patient is financially or medically indigent shall occur within 120 days of the patient's discharge from the hospital or clinic setting or within 120 days of the third party payor settlement.
4. **Contractual Adjustments.** The contractual adjustments to commercial contracts, managed care contracts, and Medicare for the public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall not be counted as unsponsored charity care.
5. **Bad Debt.** Bad debts shall not be counted as unsponsored charity costs. Bad debts shall include the uncollected billed charges for services rendered to patients who do not qualify under the definition of unsponsored charity care.

Sec. 23. Unsponsored Charity Care Reporting Requirement. The public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall include in their biennial legislative appropriations request information including the actual amount of unsponsored charity care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the definition of unsponsored charity care set forth in the section called "Elements of Unsponsored Charity Care."

Sec. 24. Patient Income Eligibility Guidelines. The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the federal poverty level indexed at an agreed-upon level as the guideline for determining indigent patient status, and those institutions' eligibility guidelines regarding copayment by patients deemed financially or medically indigent shall be the same.

The University of Texas Southwestern Medical Center at Dallas, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, Texas A&M University System Health Science Center, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center may use as a basis for reporting indigent care statistical samples derived from indigent care determinations made by their affiliated teaching hospitals and designed to estimate the amounts of charity care provided using the definitions established by The University of Texas hospitals noted above.

Sec. 25. County Indigent Care Contracts.

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 26. Ethics Policy.

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.
2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.

Sec. 27. Driscoll Children's Hospital. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases or in assuming the direct care of those children. It is legislative intent that this rider language not restrict the traditional referral patterns, utilized by physicians to refer patients to health-related institutions.

Sec. 28. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under § 576.022, Health and Safety Code.

Sec. 29. Post Tenure Review. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

Sec. 30. General Academic Funding. Funding for general academic institutions will consist of four formulas and supplemental items.

1. **Instruction and Operations Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2006-07 biennium is \$55.72.

Weighting is determined by the following matrix:

	Lower Division	Upper Division	Masters	Doctoral	Special Professional

2. **Teaching Experience Supplement.** For the 2006-07 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.

3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater and thermal energy. The average rate per square foot is \$6.37.

4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, indirect research costs recovered on grants, organized activities, scholarships, tuition revenue bond payments, Skiles Act bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2006.

Sec. 31. Health Related Institutions Funding. Funding for health related institutions shall consist of three formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$10,987:

<u>Program</u>	<u>Weight Per Student</u>
Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Dental	4.601
Medical	4.753

Instructional programs with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale.

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$8.47 for all health related institutions, excluding The University of Texas M. D. Anderson Cancer Center and The University of Texas Health Center at Tyler. For these two institutions, the per square foot rate is \$8.06.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall be included in the total funding for hospital and patient care activities.

3. **Research Funding.** The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 1.73 percent of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Graduate Medical Education Formula.** The Graduate Medical Education Formulas shall provide funding on a per medical resident basis. Funding is based on a base value of \$4,806 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2006 are \$2,403 per resident and appropriations for fiscal year 2007 are \$2,403 per resident.
5. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health-related institutions bill pattern titled Graduate Medical Education (GME), shall be spent to increase the number of resident slots in the State of Texas, as well as faculty costs relating to GME. In addition, each health-related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.
6. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Hospital and clinic operations shall be funded through a combination of hospital and clinic revenue and general revenue.
7. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2006.
8. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and the University of Texas Health Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:

- *
 - a. The University of Texas M.D. Anderson Cancer Center has a statutory mission to eliminate cancer through patient care, research, education, and prevention.

*Modified to correct error.

General Revenue funds appropriated to The University of Texas M.D. Anderson Cancer Center in Strategy B.1.3, Science Park Operations, and Strategy D.1.1, Patient Care Activities, shall be based on the number of new cancer cases each year based upon population estimate projections of the state produced by the Texas State Data Center and California State Center Registry incidence rates used as a methodological source by cancer epidemiologists in Texas and throughout the country. General Revenue appropriations for fiscal year 2006 shall be based on the number of new cancer cases reported in 2003, and General Revenue appropriations for fiscal year 2007 shall be based on the number of new cancer cases reported in 2004. The rate per new cancer case shall be \$54.15 in fiscal year 2006 and \$52.98 in fiscal year 2007 for Strategy B.1.3, Science Park Operations; and \$253.08 in fiscal year 2006 and \$256.87 in fiscal year 2007 for Strategy D.1.1, Patient Care Activities.

- b. The University of Texas Health Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with respiratory diseases. General Revenue funds appropriated to The University of Texas Health Center at Tyler in Strategy A.1.1, Medical Education and Research Items, shall be based on the number of new primary chest disease diagnoses each year in Texas as reported by participating Texas hospitals in the Texas Hospital Association Patient Data System program. General Revenue appropriations for fiscal year 2006 shall be based on the number of new primary chest disease diagnoses reported in 2002, and General Revenue appropriations for fiscal year 2007 shall be based on the number of new primary chest disease diagnoses reported in 2003. The rate per primary chest diagnosis shall be \$5.97 for fiscal year 2006 and \$6.49 for fiscal year 2007.
- c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board, Governor, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

Sec. 32. Optional Retirement Program Differential. Included in the appropriation to institutions of higher education in this act are general revenue amounts to offset local funds used for the optional retirement program employer contributions between 6 percent and 7.31 percent of salaries for employees who were on the state payroll or who were employed by a Public Community or Junior College as of August 31, 1995. These general revenue amounts are included in the funding formulas for general academic institutions and two-year institutions and in the base funding for other institutions of higher education.

Sec. 33. Indirect Cost Recovery Earned by Texas A&M Services. The Texas A&M University System Service agencies shall report to the Legislative Budget Board in their Legislative Appropriations Requests for 2008-09 all indirect cost recovery revenue earned on research grants and contracts including amounts collected by the Research Foundation.

Sec. 34. Fire Safety Projects at Institutions of Higher Education. Because of the urgent nature of these projects, it is the intent of the Legislature that institutions of higher education that have major fire safety projects, identified by the State Fire Marshal's Office as not meeting the requirements of the National Fire Protection Association, *Life Safety Code*, 2003 Edition, remedy the fire safety issues and complete any related construction and renovation projects as soon as practical. Institutions shall consult with the State Fire Marshal's Office and develop a time line for completion of the projects. Institutions shall implement the interim safety precautions

The notice shall contain information about the actions needed to rectify noncompliance and the time frame in which the institution plans to make improvements in order to comply.

Sec. 35. Funding for Physical Education Courses. No funds appropriated under this act shall be used for contact hours or semester credit hours for students who are registered solely for physical education, weight lifting, group exercises, aerobics, or related courses; have registered for the same such course more than once; and are not seeking a degree plan or certificate of completion of a course of study.

Sec. 36. Faculty Salary Increase Report. The Texas Higher Education Coordinating Board shall report the average salary increase provided to faculty at each general academic institution to the Legislative Budget Board and Governor by January 31 of each fiscal year on a form prescribed by the Texas Higher Education Coordinating Board.

Each general academic institution that accepts donations for endowed chairs shall do the following: for each endowed chair that remains unfilled for a period of three consecutive years, provide a report to the donor disclosing the vacant status of the chair, in accordance with the donor agreement.

Sec. 39. A&M Service Agencies' Infrastructure. Funds identified as Infrastructure Support in Brazos County for Texas Agricultural Experiment Station, Texas Cooperative Extension, Texas Forest Service, Texas Engineering Experiment Station, Texas Transportation Institute, and Texas Engineering Extension Service are to be applied to each agency's infrastructure needs in Brazos County under the Texas Higher Education Coordinating Board's recommended formula for the A&M service agencies' infrastructure.

1. Each agency shall continue to work with the Texas Higher Education Coordinating Board as part of the ongoing formula advisory committee review process.

Also contingent on the finding of fact, the "Number of Full-Time-Equivalents (FTE)" indicated above includes 153.2 FTEs for fiscal year 2006 and 153.2 FTEs for fiscal year 2007.

In addition to implementing the recommendations made by the Sunset Advisory Commission (Staff Report, October 2004), the commission shall develop the following accountability system. By January 1st of each fiscal year, the commission shall report to the Governor and the Legislative Budget Board the specific prevention and enforcement activities performed with the funds to include locations where the monies were spent, what programs were implemented, the impact of enforcement efforts compared to the previous biennium, and the impact on DWI-related fatalities and arrests.

3. **Appropriation of Federal Title IV-E Receipts.** The provisions of Title IV-E of the Social Security Act shall be used in order to increase funds available for juvenile justice services. The Texas Juvenile Probation Commission shall certify or transfer state funds to the Texas Department of Family and Protective Services so that federal financial participation can be claimed for Title IV-E services provided by counties. The Texas Juvenile Probation Commission shall direct necessary general revenue funding to ensure that the federal match for the Title IV-E Social Security Act is maximized for use by participating counties. Such federal receipts are appropriated to the Texas Juvenile Probation Commission for the purpose of reimbursing counties for services provided to eligible children.

4. **Juvenile Boot Camp Funding.** Out of the funds appropriated above in Strategy B.1.2, Harris County Boot Camp, the amount of \$1,000,000 annually may be expended only for the purpose of providing a juvenile boot camp in Harris County.

5. **Residential Facilities.** Juvenile Boards may use funds appropriated in Goal A, Basic Probation, and Goal B, Community Corrections, to lease, contract for, or reserve bed space with public and private residential facilities for the purpose of diverting juveniles from commitment to the Texas Youth Commission.

6. **Funding for Progressive Sanctions.**
 - a. Out of the funds appropriated above in Strategy A.1.2, Progressive Sanctions Levels 1-3, \$10,200,000 in fiscal year 2006 and \$10,200,000 in fiscal year 2007 can be distributed only to local probation departments for funding juvenile probation services associated with sanction levels described in §§ 59.003(a)(1), 59.003(a)(2), and 59.003(a)(3) of the Family Code, or for salaries of juvenile probation officers hired after the effective date of this Act. These funds may not be used by local juvenile probation departments for salary increases, employee benefits, or other costs (except salaries) associated with the employment of juvenile probation officers hired after the effective date of this Act.

 - b. Out of the funds appropriated above in Strategy B.1.3, Level 5 Post-adjudication Facilities, \$4,394,436 in fiscal year 2006 and \$4,394,436 in fiscal year 2007 can be used only for the purpose of funding secure post-adjudication placements for (1) juveniles who have a progressive sanction guideline level of 5 or higher as described by §§ 59.003(a)(5), 59.003(a)(6), and 59.003(a)(7); (2) are adjudicated for a felony offense that includes as an element of the offense the possession, carrying, using or exhibiting of a deadly weapon; (3) the juvenile court's order of adjudication contains a finding that the child committed a felony offense and the child used or exhibited a deadly weapon during the commission of the conduct or during immediate flight from commission of the conduct; or (4) are adjudicated for a sex offense of the grade of felony that requires registration under the Texas Sexual Offender Registration Program.

The Texas Juvenile Probation Commission shall reimburse a county juvenile probation department a specified number of placements under this section, as determined by the Texas Juvenile Probation Commission, after the requirements for reimbursement as outlined herein have been met to the satisfaction of the Texas Juvenile Probation Commission.

 - c. The Texas Juvenile Probation Commission shall maintain procedures to ensure that only those juvenile offenders identified above are submitted for reimbursement of secure post-

JUVENILE PROBATION COMMISSION

adjudication placements under this section. The Texas Juvenile Probation Commission shall no later than March 1 of each fiscal year submit an expenditure report for the prior fiscal year reflecting all secure post-adjudication placement costs to the Legislative Budget Board and the Governor.

7. **County Funding Levels.** To receive the full amount of state aid funds for which a juvenile board may be eligible, a juvenile board must demonstrate to the commission's satisfaction that the amount of local or county funds budgeted for juvenile services is at least equal to the amount spent for those services, excluding construction and capital outlay expenses, in the 1994 county fiscal year. This requirement shall not be waived by the commission unless the juvenile board demonstrates to the satisfaction of the commission that unusual, catastrophic or exceptional circumstances existed during the year in question to adversely affect the level of county fiscal effort. If the required local funding level is not met and no waiver is granted by the commission, the commission shall reduce the allocation of state aid funds to the juvenile board by the amount equal to the amount that the county funding is below the required funding.
8. **Local Post-adjudication Facilities.** Out of the funds appropriated above in Strategy B.1.4, Local Post-Adjudication Facilities, the amount of \$ 4,147,038 in fiscal year 2006 and \$4,147,038 in fiscal year 2007 may be used only for the purpose of funding local post-adjudication facilities. The agency shall fund these facilities based on historical occupancy rates, rather than the number of beds in the facility.
9. **Juvenile Justice Alternative Education Programs (JJAEP).** Out of the funds transferred to the Texas Juvenile Probation Commission pursuant to Texas Education Agency (TEA) Rider 37 and appropriated above in Strategy D.1.1, Juvenile Justice Alternative Education Programs, the Texas Juvenile Probation Commission shall allocate \$1,500,000 at the beginning of each fiscal year to be distributed on the basis of juvenile age population among the mandated counties identified in Chapter 37, Texas Education Code, and those counties with populations between 72,000 and 125,000 which choose to participate under the requirements of Chapter 37.

An additional \$500,000 shall be set aside in a reserve fund for each fiscal year of the biennium to allow mandated and non-mandated counties to apply for additional funds on a grant basis.

The remaining funds shall be allocated for distribution to the counties mandated by the § 37.011(a) Texas Education Code, at the rate of \$59 per student per day of attendance in the JJAEP for students who are required to be expelled as provided under § 37.007, Texas Education Code, and are intended to cover the full cost of providing education services to such students. Counties are not eligible to receive these funds until the funds initially allocated at the beginning of each fiscal year have been expended at the rate of \$59 per student per day of attendance. Counties in which populations exceed 72,000, but are 125,000 or less, may participate in the JJAEP, and are eligible for state reimbursement at the rate of \$59 per student per day.

The Texas Juvenile Probation Commission may expend any remaining funds for summer school programs in counties with a population over 72,000 which are funded as mandated counties in Chapter 37. Funds may be used for any student assigned to a JJAEP. Summer school expenditures may not exceed \$3.0 million in any fiscal year.

Unspent balances in fiscal year 2006 shall be appropriated to fiscal year 2007 for the same purposes in Strategy D.1.1.

The allocations made in this rider for the JJAEP are estimated amounts and not intended to be an entitlement and are limited to the amounts transferred from the Foundation School Program pursuant to TEA Rider 37. The amount of \$59 per student per day may vary depending on the total number of students actually attending the JJAEPs. Any unexpended or unobligated appropriations shall lapse at the end of fiscal year 2007 to the Foundation School Fund.

The Texas Juvenile Probation Commission may reduce, suspend, or withhold Juvenile Justice Alternative Education Program funds to counties that do not comply with standards, accountability measures, or Texas Education Code Chapter 37.

10. **Funding for Additional Eligible Students in JJAEPs.** Out of funds appropriated above in Strategy D.1.1, Juvenile Justice Alternative Education Programs, a maximum of \$500,000 in each fiscal year (for a maximum of 90 attendance days per child), is allocated for counties with a population of at least 72,000 which operate a JJAEP under the standards of Chapter 37, Texas

Education Code. The county is eligible to receive funding from the Texas Juvenile Probation Commission at the rate of \$59 per day per student for students who are required to be expelled under § 37.007, Texas Education Code, and who are expelled from a school district in a county that does not operate a JJAEP.

11. **Use of JJAEP Funds.** None of the funds appropriated above for the support of JJAEPs shall be used to hire a person or entity to do lobbying.
12. **JJAEP Accountability.** Out of funds appropriated above in Strategy D.1.1, Juvenile Justice Alternative Education Programs (JJAEP), the Texas Juvenile Probation Commission and the Texas Education Agency shall ensure that Juvenile Justice Alternative Education Programs are held accountable for student academic and behavioral success. The agencies are to jointly submit a performance assessment report to the Legislative Budget Board and the Governor by May 1, 2006. The report shall include, but is not limited to, the following:
 - a. an assessment of the degree to which each JJAEP enhanced the academic performance and behavioral improvement of attending students;
 - b. a detailed discussion on the use of standard measures used to compare program formats and to identify those JJAEPs most successful with attending students;
 - c. the percent of eligible JJAEP students statewide and by program demonstrating academic growth in the Texas Assessment of Knowledge and Skills (TAKS);
 - d. standardized cost reports from each JJAEP and their contracting independent school district(s) to determine differing cost factors and actual costs per each JJAEP program by school year; and
 - e. inclusion of a comprehensive five-year strategic plan for the continuing evaluation of JJAEPs which shall include oversight guidelines to improve: school district compliance with minimum program and accountability standards, attendance reporting, consistent collection of costs and program data, training and technical assistance needs.
13. **Training.** It is the intent of the Legislature that the Texas Juvenile Probation Commission provide training to local juvenile probation personnel and to local Juvenile Judges to maximize the appropriate placement of juveniles according to the progressive sanction guidelines.
14. **Unexpended Balances - Hold Harmless Provision.** Any unexpended balances as of August 31, 2006 in Strategy A.1.1, Basic Probation Services (estimated to be \$200,000), and in Strategy B.1.1, Community Corrections Services (estimated to be \$200,000), above are hereby appropriated to the Juvenile Probation Commission in fiscal year 2007 for the purpose of providing funding for juvenile probation departments whose allocation would otherwise be affected as a result of reallocations related to population shifts.
15. **Appropriation: Refunds of Unexpended Balances from Local Juvenile Probation Departments.** The Texas Juvenile Probation Commission (JPC) shall maintain procedures to ensure that the state is refunded all unexpended and unencumbered balances of state funds held as of the close of each fiscal year by local juvenile probation departments. All fiscal year 2006 and fiscal year 2007 refunds received from local juvenile probation departments by JPC are appropriated above in Strategy B.1.1, Community Corrections Services. Any Basic Probation refunds received in excess of \$650,000 in fiscal year 2006 and \$650,000 in fiscal year 2007 are hereby appropriated to JPC for the Level 5 Secure Correction Placement Program. Any Community Corrections refunds received in excess of \$500,000 in fiscal year 2006 and \$500,000 in fiscal year 2007 are hereby appropriated to JPC for the Level 5 Secure Correction Placement Program.
16. **Reporting Requirements to the Legislative Budget Board (LBB).** The Juvenile Probation Commission shall report juvenile population data as requested by the Legislative Budget Board on a monthly basis for the most recent month available. JPC shall report to the Legislative Budget Board on all populations specified by the LBB, including, but not limited to, additions, releases, and end-of-month populations. End of fiscal year data shall be submitted indicating each reporting county to the LBB no later than two months after the close of each fiscal year.
17. **Special Needs Diversionary Programs.** Out of the funds appropriated above in Strategy B.1.5, Special Needs Diversionary Programs, \$1,974,033 in fiscal year 2006 and \$1,974,033 in fiscal year 2007 shall be used for specialized mental health caseloads. The agency shall use these

The adjusted annual salary is to be divided by 12 to arrive at the monthly rate.  - b. The Texas Youth Commission may authorize salary rates at amounts above the adjusted annual salary determined in the preceding formula, but such rates, including longevity for persons commencing employment on September 1, 1983, or thereafter, and excluding hazardous duty pay, shall never exceed the rates of pay for like positions paid in the public schools of the city in which the Texas Youth Commission institution is located. SPECIAL PROVISIONS RELATING TO PUBLIC SAFETY AND CRIMINAL JUSTICE AGENCIES

Sec. 2. Authorization to Receive, Administer, and Disburse Federal Crime Funds. Out of funds appropriated above, the Texas Department of Criminal Justice, the Texas Juvenile Probation Commission, and the Texas Youth Commission, may allocate matching funds in order to secure federal grants for the construction, expansion, renovation, and operation of correctional facilities and services, as authorized by federal legislation. These agencies are authorized to receive and disburse, in accordance with plans acceptable to the responsible federal agency, all federal monies that are made available to the state for programs, projects, or services that otherwise could not be funded or undertaken without the receipt of such funding. Such federal funds are hereby appropriated to the specific purpose or purposes for which they are granted or otherwise made available. At least 45 days prior to any expenditure of such federal funds, documentation of the proposed use of the funds shall be provided to the Legislative Budget Board and the Governor.

Sec. 3. Purchase of TDCJ Products. It is the intent of the Legislature that state public safety and criminal justice agencies use products produced by the Texas Department of Criminal Justice to the greatest extent possible when either renovating existing facilities or constructing new facilities.

Sec. 4. Prioritization of DNA Samples. It is the intent of the Legislature that the Texas Department of Criminal Justice (TDCJ) prioritize the drawing of blood samples from inmates for the purpose of having these samples processed for DNA information needed for entry into the Department of Public Safety's (DPS) DNA database. The factors to be weighed by TDCJ shall include the severity of the offense, and the proximity to the time of release for the offender. It is also the intent of the Legislature that DPS prioritize any samples received prior to this Act taking effect with assistance from TDCJ using the above mentioned factors. At any time, DPS may request that TDCJ prioritize any particular sample for drawing and shipping to DPS, if DPS has information to the effect that the sample may provide evidence vital to a criminal investigation or judicial proceeding.

3. **Contingency Cash Flow.** If the Legislative Budget Board and Governor determine after review of relevant information that cash flow difficulties will occur as a result of the appropriations made above, the board and Governor may authorize the Texas Commission on Environmental Quality (TCEQ) to temporarily expend general revenue funds for the purpose of meeting the temporary cash flow needs of the TCEQ, limited to the amounts appropriated above. The transfer of funds shall be repaid to the General Revenue Fund by the end of the fiscal year in which the funds were transferred under procedures and standards established by the Comptroller of Public Accounts.
4. **Authorization: Aircraft Chartering.** Notwithstanding any other provision of this Act, the Texas Commission on Environmental Quality is authorized to spend appropriated funds for the chartering of aircraft for the purposes of monitoring environmental quality, and the enforcement of environmental and water rights laws of the State.

It is provided, however, that the combined federal and state share of the funding for

COMMISSION ON ENVIRONMENTAL QUALITY

any such local air pollution programs shall not exceed 67 percent of the total allocation to the programs, with the local share being based on the local dollars allocated pursuant to maintenance-of-effort requirements for federal air pollution grants.

6. **Fee Revenue: Pollution Control Equipment Exemptions.** Pursuant to Tax Code, § 11.31, included in amounts appropriated above out of the General Revenue Fund in Strategy C.1.3, Pollution Prevention, Recycling, and Innovative Programs, is \$133,600 each fiscal year from fee revenue collected beginning with the effective date of this Act for the purpose of determining whether pollution control equipment is exempt from taxation.

In addition to amounts appropriated above, any amounts collected by the Texas Commission on Environmental Quality pursuant to Tax Code, § 11.31 on or after September 1, 2005, in excess of \$133,600 in each fiscal year of the biennium are hereby appropriated to the agency.

7. **Authorization: Operating Fund.** The Texas Commission on Environmental Quality (TCEQ) is hereby authorized to make transfers from any appropriation made to TCEQ into a single account in the General Revenue Fund known as the "Texas Commission on Environmental Quality Operating Fund" for the purpose of making expenditures for which appropriations were made in this Act. After the expenditures have been made from the fund and as soon as the proper strategies have been identified, TCEQ shall process adjustments to the Comptroller in summary accounts to facilitate accurate cost allocations; provided, however, that each special account and fund shall be used for the purposes as now described by law and nothing shall be done to jeopardize or divert the special accounts and funds or any portion thereof including federal aid.
8. **Appropriation: Air Quality Planning.** Included in amounts appropriated above out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, is \$5,075,000 for the biennium for air quality planning activities to reduce ozone in areas including Austin, Corpus Christi, Longview-Tyler-Marshall, San Antonio, and Victoria. These activities may include identifying, inventorying, and monitoring of current pollution levels; modeling future pollution levels; and the identification, quantification, and implementation of potential pollution reduction through voluntary controls. The areas receiving funds shall coordinate with the Texas Commission on Environmental Quality (TCEQ) to ensure that these activities are consistent with agency monitoring, inventory and modeling approaches and infrastructure.

"Other direct and indirect costs" for strategy A.2.4, Occupational Licensing, are estimated to be \$311,354 for fiscal year 2006 and \$319,598 for fiscal year 2007. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
10. **Contract with the State Office of Administrative Hearings.** Included in the amounts appropriated above is \$938,860 in fiscal year 2006 and \$938,860 in fiscal year 2007 to cover the cost of contracting with the State Office of Administrative Hearings for funding the Natural Resources Division for the purpose of conducting administrative hearings and for related expenses. The Texas Commission on Environmental Quality (TCEQ) and the State Office of Administrative Hearings may not enter into a contract for an amount less than the amounts specified herein. If the State Office of Administrative Hearings determines, at the end of each fiscal year, that the amount paid under the contract exceeds the necessary funding, it shall refund the difference to TCEQ. If the State Office of Administrative Hearings determines that the amounts are insufficient to fund the Natural Resources Division, the State Office of Administrative Hearings may enter into negotiations with TCEQ in order to renegotiate the interagency contract to provide additional funds for administrative hearings. The State Office of Administrative Hearings is not appropriated any state funds from such renegotiated contracts until it gives written notice to the Legislative Budget Board and the Governor, together with written permission of the agency.

The maximum rate for fees authorized in Health and Safety Code, §382.062, shall be \$80,000.

- 34. Contingency Appropriation: Concho River Watermaster.** In addition to the amounts appropriated above out of the Watermaster Administration Account No. 158 in Strategy A.2.2, Water Resource Permitting, and contingent upon the creation of a watermaster office for the Concho River watershed and upon the Texas Commission on Environmental Quality (TCEQ) assessing new fees on water rights holders in the Concho River watershed, there is hereby appropriated to the TCEQ \$139,768 in fiscal year 2006 and \$110,548 in fiscal year 2007 in fee revenues deposited to the credit of the Watermaster Administration Account No. 158. These funds shall be used to administer the Concho River watermaster's office.

This appropriation is contingent upon the TCEQ assessing fees sufficient to generate, during the 2006-07 biennium, revenue to cover, at a minimum, appropriations for the Concho River watermaster's office as well as "Other direct and indirect costs" for the program appropriated elsewhere in this Act. "Other direct and indirect costs" associated with the Concho River Watermaster are estimated to be \$12,243 in fiscal year 2006 and \$13,042 in fiscal year 2007. Also contingent upon the creation of a watermaster office for the Concho River watershed and upon the TCEQ assessing new fees on water rights holders in the Concho River watershed, the "Number of Full-Time-Equivalents (FTE)" figure indicated above is hereby increased by 2 in each fiscal year of the 2006-07 biennium, and the TCEQ's Capital Budget authority is hereby increased for the following item and in the following amount.

- 37. Contingency Appropriation: Revenue from Increased Fee Rates at Watermaster Offices.** In addition to amounts appropriated above in Strategy A.2.2, Water Resource Permitting, there is hereby appropriated to the Texas Commission on Environmental Quality (TCEQ) fee revenues collected and deposited to the credit of the Watermaster Administration Account No. 158 in an amount not to exceed \$110,000 in fiscal year 2006 and not to exceed \$130,000 in fiscal year 2007 from additional fees generated pursuant to Water Code, § 11.329 due to the implementation of increased fee rates at the watermaster offices and in excess of the Comptroller's Biennial Revenue Estimate. These funds shall be used for operating costs of the watermaster offices.

This appropriation is contingent upon the TCEQ and the watermaster offices assessing fees sufficient to generate, during the 2006-07 biennium, revenue to cover the appropriations out of the Watermaster Administration Account No. 158. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Comptroller of Public Accounts shall reduce the appropriation authority provided above to be within the amount of revenue expected to be available. The TCEQ and the watermaster offices, upon completion of necessary actions to assess or increase additional fees, shall furnish copies of minutes and other information supporting the estimated revenues to be generated for the 2006-07 biennium under the revised fee structure to the Comptroller of Public Accounts. If the Comptroller finds the information sufficient to support the projection of increased revenues in excess of those estimated in the Biennial Revenue Estimate for 2006-07, a finding of fact to that effect shall be issued and the contingent appropriation shall be made available for the intended purpose.

- 38. Memorandum of Understanding.** It is the intent of the Legislature that the Texas Commission on Environmental Quality (TCEQ) and each of the five River Compact Commissions enter into a memorandum of understanding (MOU) that specifies the manner in which the TCEQ shall manage and support the operations of each River Compact Commission, including the transfer of compact commission Full-Time-Equivalents (FTEs) and appropriations to the TCEQ. However, in no event shall this MOU interfere with the activities of each interstate river compact or individual compact commissioner in appropriating water supply between compact states or resolving water-related problems between compact states.

These concession receipts shall be credited for the benefit of the specific state park or other agency facility where the funds are generated by volunteer groups. Concession receipts generated as a result of the efforts of department employees or leased concession contracts with third parties are appropriated in the strategies above and are not subject to this rider.

From the proceeds of such bonds or other obligations, the Texas Public Finance Authority is hereby appropriated such amounts as may be necessary to pay costs associated with the issuance, including the costs of issuing the bonds or other obligations, reasonably required reserve funds, and capitalized interest, if any. From the remaining proceeds of the bonds or other obligations, the TPWD is hereby appropriated such amounts as are necessary to pay the costs of the construction of the fish hatchery, including project management and equipping the hatchery.

Notwithstanding any other provision of this Act, the TPWD is hereby authorized to construct two new state-owned residences to provide 24-hour on-site supervision and maintenance for the new hatchery at a cost not to exceed \$150,000 per residence. When this new hatchery becomes operational, the TPWD is directed to close an existing fish hatchery in East Texas and to stop housing employees at the state-owned residences at that site. It is the intent of the Legislature that bonds be used to accelerate the construction and replacement of inland fish hatcheries and that once sufficient revenue from freshwater fish stamp proceeds have accumulated in the Game, Fish and Water Safety Account No. 9, these funds shall be used to retire all outstanding debt obligations.

Included in the amounts appropriated above in Strategy D.1.4, Debt Service are lease payments of \$525,000 in fiscal year 2006 and \$1,263,750 in fiscal year 2007 out of the General Revenue-Dedicated Game, Fish and Water Safety Account No. 9 which shall be transferred to the Texas Public Finance Authority for debt service payments on revenue bonds or other obligations issued in fiscal year 2006 for the hatchery. Additionally, the TPWD is hereby exempted from the capital budget rider provisions when pass through funds to local entities are received in excess of the amounts identified in the agency's capital budget rider and such funds are designated by the donor, grantee or federal agency solely for the acquisition of land. This provision does not exempt the TPWD from capital budget rider provisions for state land acquisition.

Amounts expended from these funding sources shall not count towards the limitation imposed by capital budget provisions elsewhere in this Act. The TPWD shall notify the Legislative Budget Board and the Governor upon receipt of such funds, of the amount received and the items to be purchased.

- 27. Appropriation of Receipts out of General Revenue-Dedicated Accounts.** For the biennium beginning September 1, 2005, the Texas Parks and Wildlife Department (TPWD) is hereby appropriated any revenues that are deposited to an account of the department that are in excess of the amounts reflected in the Comptroller's Biennial Revenue Estimate for each year of the biennium (estimated to be \$1,500,000 each fiscal year in the General Revenue-Dedicated Game Fish and Water Safety Account No. 9 and \$1,500,000 each fiscal year in the General Revenue-Dedicated State Parks Account No. 64). Any unexpended balances and additional revenue collections in excess of the Biennial Revenue Estimate as of August 31, 2006 are hereby appropriated for the fiscal year beginning September 1, 2006. The TPWD is specifically authorized to expend these funds for purposes authorized by the Parks and Wildlife Code, including capital budget purposes. Such expenditures must comply with limitations established for salary, travel, and capital expenditures, employment levels, and other provisions contained in Article IX of this Act.

On March 1 of each year, the TPWD shall notify the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor of the amount that the department projects will be received in excess of the amount contained in the Comptroller's Biennial Revenue Estimate for each of the department's General Revenue-Dedicated accounts along with sufficient information to reflect how that estimate was determined. If the Comptroller finds the information sufficient to support the projection of additional revenues, a finding of fact to that effect shall be issued to reflect the additional revenue available for each General Revenue-Dedicated account.

It is the intent of the legislature that in the event the Comptroller issues a finding of fact that additional revenue is available in the State Parks Account No. 64 and the Game, Fish and Water Safety Account No. 9 that the first \$1,565,058 in additional revenue to State Parks Account No. 64 be allocated to Strategy B.1.1, State Park Operations and Strategy B.1.3, Parks Support to restore operations, services and staffing at state parks; and that the first \$1,317,465 in additional revenue to Game, Fish and Water Safety Account No. 9 be allocated to Strategy C.1.2, Warden Training Academy and Strategy C.1.1, Enforcement Programs to restore funding for game warden cadet classes and law enforcement.

- 29. Battleship TEXAS.** It is the intent of the Legislature that \$16,090,050 in federal Transportation Enhancement Program funds administered by the Texas Department of Transportation be made available during the biennium for the Battleship TEXAS project if the Battleship TEXAS project meets federal grant requirements of the Transportation Enhancement Program as defined by federal Department of Transportation, Federal Highway Administration federal regulations in Title 23 of the United States Code. The Texas Parks and Wildlife Department (TPWD) in conjunction with the Texas Department of Transportation will review the Battleship TEXAS project to determine if the Battleship TEXAS project meets the federal Transportation Enhancement Program guidelines in Title 23 of the United States Code. It is the intent of the

- 3. Reporting Requirements.** Within 90 days following the conclusion of a contract issued by the Department of Housing and Community Affairs or, at the option of the contracting party, within 90 days following the conclusion of the contracting party's fiscal year during which a contract was in force, the contracting party shall provide to the Executive Director a full accounting of state funds expended under the terms of the contract. This requirement shall be a part of any contract entered into by the department and contracting entities. Failure of a contracting party to provide full accounting of state funds expended under the terms of any contract under the conditions stated above shall be sufficient reason to terminate that contract and for the department to deny any future contracts to that contracting party.
- 4. Housing Assistance.** The housing finance division shall adopt an annual goal to apply no less than \$30,000,000 of the division's total housing funds toward housing assistance for individuals and families in which the annual family income does not exceed the following amounts based on the number of persons in the family:

Number of Persons in the Family	Maximum Annual Income

2 Persons	\$16,000
3 Persons	\$17,000
4 Persons	\$19,000

For each additional person add \$1,500. No less than 20 percent of the division's total housing funds shall be spent for individuals and families earning between 31 percent and 60 percent of median family income. In those counties where the median family income is lower than the state average median family income, the department shall use the average state median income in interpreting this rider. The department shall provide a quarterly report to the Legislative Budget Board documenting its expenditures in each income category.

- 5. Local Site Visits.** From monies appropriated above, when the Department of Housing and Community Affairs receives a letter from the mayor or county judge of an affected city or county opposing an application for a federal tax incentive to develop rental housing, a site visit by an employee of the Department of Housing and Community Affairs with the mayor or county judge or their designated representative shall take place within 30 days following notification. The site visit must occur before the incentive can be approved. a system that gives increased points for comprehensive services to low-income citizens, such as case management, home-buyer assistance, and family budgeting. The department is also encouraged to develop a sliding scale fee schedule for the low-income tax credit program and the 501c(3) bond program to encourage increased participation by non-profit entities such as community development housing organizations.

8. **Limitation on Expenditure.** Under Strategy A.1.5, Federal Tax Credits, no funds shall be used for processing or approving applications for allocations unless the department adopts or amends administrative rules containing the following:
 - a. All representations made by an applicant for an allocation are enforceable by the department, including enforcement by administrative penalties for failure to perform as stated in the representations and enforcement by inclusion in deed restrictions to which the department is a party.
 - b. The department will require inspections of all construction for quality during the construction process while defects can reasonably be corrected.
 - c. A general contractor hired by an applicant or an applicant, if the applicant serves as general contractor, must demonstrate a history of constructing similar types of housing without the use of federal tax credits.
 - d. The department shall give notice of a proposed project to the state representative and senator representing the area where a project would be located. The state representative or senator may hold a community meeting at which the department shall provide appropriate representation.
 - e. The department shall allocate credits among as many different entities as practicable without diminishing the quality of the housing that is built.
9. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the strategy items in Goal E, Manufactured Housing, the cost of the appropriations required for manufactured housing consumer claims payments according to the Occupations Code § 1201, Manufactured Housing Standards Act, as well as the "other direct and indirect costs" associated with this goal, appropriated elsewhere in this Act. "Other direct and indirect costs" for Goal E, Manufactured Housing, are estimated to be \$721,523 for fiscal year 2006 and \$750,699 for fiscal year 2007. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
10. **Mortgage Revenue Bond Program.** The Department of Housing and Community Affairs shall operate the First-Time Homebuyer Mortgage Revenue Bond Program in a manner that maximizes the creation of very low-income single family housing by ensuring that at least 30 percent of the lendable bond proceeds are set aside for a period of one year for individuals and families at 60 percent and below the area median family income (AMFI), while assuring the highest reasonable bond rating. In an effort to facilitate the origination of single family mortgage loans to individuals and families at 60 percent and below the AMFI, the department shall utilize down payment and closing cost assistance or other assistance methods.
11. **Conversions of Executory Contracts.** Out of the funds appropriated above, the department shall spend not less than \$4,000,000 for the biennium for the sole purpose of contract for deed conversions for families that reside in a colonia and earn 60 percent or less of the applicable area median family income. 12. **Colonia Annual Assessment.** The department shall collect information on the demand for contract for deed conversion, self-help housing, consumer education, and other colonia resident services in counties within 150 miles of the Texas-Mexico border. The department shall include the assessment of colonias needs in its annual state low income housing plan and report listing policy goals for its colonia programs, the strategies to meet the goals, and the expected outcomes.

2. **Reporting Requirements.** Within 90 days following the conclusion of a contract issued by the Office of Rural Community Affairs (ORCA) or, at the option of the contracting party, within 90 days following the conclusion of the contracting party's fiscal year during which a contract was in force, the contracting party shall provide to the Executive Director a full accounting of state funds expended under the terms of the contract. This requirement shall be a part of any contract entered into by ORCA and contracting entities. Failure of a contracting party to provide full accounting of state funds expended under the terms of any contract under the conditions stated above shall be sufficient reason to terminate that contract and for ORCA to deny any future contracts to that contracting party.
3. **Coordination with Texas Water Development Board.** The Office of Rural Community Affairs (ORCA) and the Texas Water Development Board (TWDB) shall continue to coordinate funds as outlined in a Memorandum of Understanding (MOU) so as to assure that none of the funds appropriated above are expended in a manner that aids the proliferation of colonias or are otherwise used in a manner inconsistent with the intent of the Economically Distressed Areas Program (EDAP) operated by the Texas Water Development Board (TWDB); and maximize delivery of the funds and minimize administrative delay in their expenditure. The MOU shall be amended, if necessary, prior to the distribution of the Colonia Fund in fiscal years 2006 and 2007. In distributing funds out of the Colonia Fund, ORCA shall provide top funding priority to those projects that are in EDAP-funded areas and which assist colonia residents who cannot

afford the cost of service lines, hook-ups, and plumbing improvements associated with being connected to an EDAP-funded system. None of the funds appropriated above for Strategy A.1.1, Provide Grants, may be expended in EDAP-eligible counties that have not adopted, or not enforcing, the Model Subdivision Rules established pursuant to § 16.343 of the Water Code. No later than September 15, 2006, ORCA and the TWDB shall submit a joint report to the Legislative Budget Board that describes and analyzes the effectiveness of projects funded as a result of coordinated Colonia Fund/EDAP efforts including an estimate of the amount each agency has saved by reduced duplication of efforts. If there is an insufficient number of TWDB EDAP projects ready for Colonia Economically Distressed Areas Program (CEDAP) connection funding within 12 months after ORCA receives the federal letter of credit, the CEDAP funds may be transferred at ORCA's discretion as stated within the current Community Development Block Grant action plan.

4. **Administrative Allocation: Councils of Governments.** From the federal administrative monies made available to the Office of Rural Community Affairs under the Community Development Block Grant Program, an amount up to 19 percent of such monies shall be allocated for the councils of government, based upon agreements between the Office of Rural Community Affairs and each council of government, to continue staff support to the 24 Regional Review Committees of local elected officials appointed by the Governor and/or for other technical assistance services so long as the staff support activities comply with the rules, policies, and standards established by the US Department of Housing and Urban Development.
5. **Colonia Set-Aside Program Allocation.** The Office of Rural Community Affairs (ORCA) shall continue the Community Development Block Grant (CDBG) Colonia Set-Aside Program by allocating not less than 10 percent of the yearly allocation of CDBG funds for eligible activities to assist in providing for the housing, planning, and infrastructure needs in colonias. From this 10 percent yearly allocation, \$2,000,000 shall be reserved to provide financial assistance to units of general local government located in economically distressed areas as defined by § 17.921, Water Code, to pay for residential service lines, hookups, and plumbing improvements associated with being connected to a water supply or sewer service system, any part of which is financed under the economically distressed areas program established under Subchapter J, Chapter 16, Water Code and Subchapter K, Chapter 17, Water Code. ORCA by rule shall provide that an application for assistance under the program hereby authorized may be submitted after construction of the water supply or sewer service system begins. ORCA shall approve or disapprove a timely application before construction of the water supply or sewer service is completed in order to eliminate delay in connection once construction is completed. ORCA shall coordinate the application process with the Texas Water Development Board to avoid duplication of effort and the necessity for applicants to submit dual applications.

In addition, ORCA shall allocate 2.5 percent of the CDBG monies to support the operation of the Colonia Self-Help Centers and shall transfer such funds to the Department of Housing and Community Affairs on September 1 of each year of the biennium.

Consistent with federal rules and regulations, the funds provided from ORCA to the Colonia Self-Help Center in El Paso county shall be used to provide Internet access and training for parents and their children attending elementary schools in colonias, to establish technology Centers within those elementary school libraries, to purchase wireless devices and laptop computers to loan out from the Technology Centers, and improve internet access for students and parents.

7. **Limitation on Use of Funds.**

- a. State agencies that are appropriated funds from the receipts collected pursuant to the Comprehensive Tobacco Settlement Agreement and Release, including distributions from funds, shall submit a budget by November 1 of each year of the biennium to the Legislative Budget Board and the Governor. This budget shall describe the purposes and amounts for which such funds will be expended by the state agency. No funds described in this budget may be expended by the state agency or institution of higher education until the Legislative Budget Board and the Governor receive the budget.
- b. Authorized managers of permanent funds and endowments whose earnings are appropriated to the Office of Rural Community Affairs shall provide a copy of year end financial reports to the Legislative Budget Board and the Governor by November 1 of each year of the biennium. 5. **Proportionality Requirements for Agency Reimbursements related to Unemployment Compensation Benefits.** From information related to unemployment benefits paid on behalf of previously employed former state employees provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, any General Revenue-Dedicated Accounts, Federal Funds or Other Funds from appropriations made elsewhere in this Act to state agencies. The Comptroller shall transfer these amounts of appropriations made elsewhere in this Act to the Unemployment Compensation Special Administration Account No 165. The amounts reimbursed pursuant to this provision are hereby appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937. These transfers and repayments shall be credited to the fiscal year being reimbursed and shall be made in accordance with established state accounting procedures. All transfers of the method of finance shall be reported by the TWC on a monthly basis to the Legislative Budget Board and Governor.

3. **Interagency Contracts.** In executing interagency contracts with state agencies under its jurisdiction, the State Office of Administrative Hearings shall establish procedures which will allow agencies to establish a limitation on the aggregate billable amount for a fiscal year.
4. **Renegotiation of Lump Sum Contract.** Appropriations made above to Strategy A.1.1, Conduct Hearings, include \$938,860 in fiscal year 2006 and \$938,860 in fiscal year 2007 to fund the Natural Resources Division for the purpose of conducting hearings for the Texas Commission on Environmental Quality (TCEQ). The State Office of Administrative Hearings (SOAH) and TCEQ may not enter into a contract for an amount less than the specified amounts herein above. If SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the funding necessary for the Natural Resources Division, it shall refund the difference. If SOAH determines that these amounts are insufficient to fund the Natural Resources Division it may enter into negotiations with the TCEQ in order to renegotiate an interagency contract in a manner which will provide it with additional funds, provided that SOAH shall not be appropriated any state funds from such renegotiated interagency contract until it gives prior written notice to the Legislative Budget Board and the Governor, accompanied by written permission of the TCEQ.
5. **Benefit Collection.** Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. These reimbursements to SOAH will then be paid to the General Revenue Fund in proportion to the source of funds from which the respective salary or wage is paid.
6. **Contingency Appropriation for Expanded Jurisdiction.** Contingent on the enactment of legislation by the Seventy-ninth Legislature transferring the hearings functions of other state agencies to the State Office of Administrative Hearings (SOAH), or otherwise expanding the jurisdiction of the office, SOAH is hereby authorized to expend funds transferred to the office from those agencies or funds appropriated for the purpose of handling the expanded jurisdiction, pursuant to provisions elsewhere in this Act. Appropriations authorized pursuant to this provision may be expended only to implement the transferred functions or expanded jurisdiction. All funds collected by SOAH as payment for, or reimbursement of, the office's costs of providing services to other state agencies or governmental entities, or others as directed by the Legislature, are appropriated to SOAH for its use during the biennium.
7. **Hearings Activity Report.** By May 1st and November 1st of each fiscal year, the State Office of Administrative Hearings (SOAH) shall submit to the Legislative Budget Board and the Governor a report detailing hearings activity conducted during the prior two fiscal year quarters. The report shall indicate, for each agency served, the person hours allocated to the agency's cases and the cost, both direct and indirect, of conducting the hearings. The report shall also indicate, for each agency served, the number of cases received, the number of cases disposed of, the number of administrative fine cases disposed of and the median number of days between the date a case is received by SOAH and the date the case is finally disposed of, during the reporting period.
8. **Interagency Contract for Administrative Law Judge Training.** Out of funds appropriated above, the State Office of Administrative Hearings shall enter into a contract in the amount of \$25,000 with the Texas Center for the Judiciary for training of Administrative Law Judges. Any amounts not expended as of August 31, 2006, are appropriated for the fiscal year beginning September 1, 2006.
9. **Contingency for Additional Self-directed Semi-independent Agency Pilot Projects.** Contingent upon additional agencies added as a self-directed semi-independent (SDSI) agency pilot project by the Legislature during the 2006-07 biennium, the agency added as a SDSI pilot project that is listed in Rider 10 shall be removed from the exemption granted in Rider 10 below.

* 10. Billing Rate for Workload.

- a. Amounts appropriated above and elsewhere in this Act for funding for the payment of costs associated with administrative hearings conducted by the State Office of Administrative Hearings (SOAH) are based on an hourly rate of \$100 per hour for each hour of work performed during each fiscal year as reflected by the SOAH's Legislative Appropriation Request and Hearings Activity Report to the Seventy-ninth Legislature.
- b. Amounts appropriated above include General Revenue funding for 5,895.5 hours of work performed by SOAH for the Division of Workers' Compensation (DWC) for the 2006-07 biennium. These interagency amounts for additional work performed by SOAH for DWC above the hours identified in this subsection are calculated at the rate identified in subsection (a) of this Section.
- c. Amounts appropriated above in Strategy A.1.1, Conduct Hearings, to SOAH from the General Revenue include funding in each year of the biennium for billable casework hours performed by SOAH for conducting administrative hearings at the rate determined by SOAH and approved by the Legislature for the following agencies that do not have appropriations for paying SOAH costs for administrative hearings and are not subject to subsection (a) of this Section:

These increased revenues must exceed \$11,476,000 for fiscal year 2006 and \$11,401,000 for fiscal year 2007 (Object Code 3172) contained in the Comptroller of Public Accounts' Biennial Revenue Estimate.

The Office of Consumer Credit Commissioner, upon completion of necessary actions to access or increase such additional fees, shall furnish copies of the Finance Commission's minutes and other information supporting the estimated revenues to be generated for the 2006-07 biennium under the revised fee structure to the Comptroller of Public Accounts. If the Comptroller finds the information sufficient to support the projection of increased revenues, a finding of fact to that effect shall be issued and the contingent appropriation shall be made available for the intended purposes.
6. **Contingency Appropriation: Regulatory Response.**
- a. Contingent upon a finding of fact by the Finance Commission that additional resources are needed by the Office of Consumer Credit Commissioner for regulation of the Texas motor vehicle sales finance or payday lending industries, the Office of Consumer Credit Commissioner is hereby appropriated out of fee revenues collected by the agency an amount not to exceed \$522,000 for fiscal year 2006 and \$522,000 for fiscal year 2007, and the "Number of Full-time Equivalent Positions (FTE)" figure indicated above is hereby increased by no more than 9.0 for fiscal year 2006 and 9.0 for fiscal year 2007.
- b. None of the funds appropriated in item (a) above may be expended by the Office of Consumer Credit Commissioner unless the Finance Commission files a finding of fact with the Governor and the Legislative Budget Board and neither the Governor nor the Legislative Budget Board issues a written disapproval not later than:
- (1) the 10th day after the date the staff of the Legislative Budget Board concludes its review of the findings of fact and forwards those findings of fact along with the conclusions or comments of the Legislative Budget Board staff to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor; and
- (2) within 10 business days of the receipt of the finding of fact by the Governor.
- c. The appropriations in item (a) are also contingent upon the Office of Consumer Credit Commissioner generating sufficient additional fee revenues to cover these contingency appropriations and related employee benefits, and providing such information as may be deemed necessary by the Comptroller of Public Accounts to issue a finding of fact that the increased revenues will be available to fund the increased appropriation. These increased revenues must exceed \$3,396,000 for fiscal year 2006 and \$3,396,000 for fiscal year 2007 (Object Codes 3172, 3174, and 3175) contained in the Comptroller of Public Accounts' Biennial Revenue Estimate.
- d. Funds appropriated in this provision may only be used to address issues included in the finding of fact submitted to the Governor and the Legislative Budget Board pursuant to subsection (b) above, and apply only to the 2006-07 biennium unless otherwise appropriated. It is the intent of the Legislature that these funds not be included in base level funding requests for the fiscal year 2008-09 biennium.

SALARY ADMINISTRATION AND OTHER EMPLOYMENT PROVISIONS

(Continued)

- (c) The amounts appropriated above include \$2,041,994 in each fiscal year in General Revenue Funds to the Texas Alcoholic Beverage Commission for Schedule C pay raises and stipends. These appropriations are contingent upon the Texas Alcoholic Beverage Commission increasing fees and surcharges, pursuant to § 5.50, Alcoholic Beverage Code, by \$4,641,452 and providing such information deemed necessary by the Comptroller of Public Accounts to issue a finding of fact that the increased revenues are estimated to be available in excess of the Comptroller's Biennial Revenue Estimate, including supplemental estimates used in certifying this Act, to fund the increased appropriations and benefits.

PART 4. EMPLOYMENT POLICIES AND PROVISIONS

Sec. 4.01. **Method of Salary Payments.** All annual salaries appropriated by this Act are for full-time employment unless specifically designated as part-time. This section may not be construed to prevent the chief administrator of an agency from paying less than the maximum salary rate specified in this Act for a position, or the employment of a part-time employee to fill a regular position provided for in this Act, so long as the salary rate for such part-time employee is proportional to the regular rate for full-time employment.

Sec. 4.02. **Exception - Contracts Less Than 12 Months.** Facilities of the Texas Youth Commission in Article V or institutions of higher education or the schools for the blind or deaf in Article III of this Act that make contracts for less than a twelve-month period may pay salaries in equal monthly payments for the period of the contract.

Sec. 4.03. **Matching Retirement and Certain Insurance.** In each instance in which an operating fund or account is created and named by statute, the responsible officials of the state may transfer into the operating fund or account sufficient moneys from treasury funds, local, institutional, or federal funds to pay proportionally the costs of matching state employees' retirement contributions and the state's share of Old Age and Survivors Insurance.

Sec. 4.04. **Per Diem of Board or Commission Members and Advisory Committee Members.**

- (a) As authorized by § 659.032, Government Code, the per diem of state board and commission members consists of:
 - (1) compensatory per diem, if specifically authorized by law, at \$30 per day;
 - (2) reimbursement of actual expenses for meals and lodging not to exceed \$121 per day when traveling within this state and reimbursement of actual expenses for meals and lodging when traveling outside of this state in an amount not to exceed the rates specified for a state employee under this Act; and
 - (3) reimbursement of transportation and incidental expenses at the rates specified in this Act for state employees.
- (b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).
- (c) The funds appropriated by this Act may not be expended to reimburse members of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by Subsection (f) below, and are:
 - (1) specifically authorized by this Act; or
 - (2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.

EMPLOYMENT POLICIES AND PROVISIONS (Continued)

- (3) For the purpose of this subsection, the term “advisory committee” has the meaning assigned by § 2110.001, Government Code.
- (4) This subsection does not apply to an advisory committee established by the governing board of a retirement system trust fund.
- (5) This subsection applies only to an advisory committee that is subject to Chapter 2110, Government Code.
- (d) An agency that has a “Schedule of Exempt Positions and Per Diem of Board (or Commission) Members” following the agency’s appropriations may expend appropriations for board or commission member compensatory per diem in an amount not to exceed the amount specified in the schedule for each respective fiscal year.
- (e) A full time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.
- (f) (1) Unless otherwise specifically provided for in this Act or by the written authorization of the Legislative Budget Board and Governor, and pursuant to Government Code, § 2110.004, total amounts expended in each fiscal year of the biennium for reimbursement of expenses for an advisory committee authorized to be reimbursed elsewhere in this Act by agencies and institutions, out of funds appropriated to those entities, may not exceed the greater of:
 - (A) ninety percent (90%) of total expenditures for reimbursement of the same advisory committee by the agency or institution in fiscal year 2003; or
 - (B) total expenditures for reimbursement of the advisory committee by the agency or institution as approved by the Legislative Budget Board and Governor for fiscal year 2004.
- (2) Unless otherwise provided for in this Act, to the maximum extent possible, agencies and institutions shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.

Sec. 4.05. **Political Aid and Legislative Influence Prohibited.** The funds appropriated by this Act, regardless of source or character, may not be expended except in compliance with Chapter 556, Government Code.

Sec. 4.06. **Limitations on Use of Appropriated Funds.** Funds appropriated by this Act, other than those appropriated to an institution of higher education, may be expended only for items set out in the expenditure classifications of the Comptroller’s Manual of Accounts insofar that an agency expending the appropriated funds has existing statutory authority for making the expenditures and the expenditures are not otherwise limited or prohibited in this Act.

Sec. 4.07. **Contract Workforce.**

- (a) In this section, contract workers are defined as independent contractors, temporary workers supplied by staffing companies, contract company workers, and consultants.
- (b) No appropriated funds may be expended for payment of a contract workforce in which the contract is executed, amended, or renewed on or after September 1, 2005, until an agency or institution:
 - (1) develops and documents comprehensive policies and procedures for its contract workforce;

EMPLOYMENT POLICIES AND PROVISIONS (Continued)

- (2) examines and documents the legal and personnel issues related to the use of a contract workforce;
- (3) conducts and documents a cost benefit analysis of its current contract workforce prior to hiring additional contract workers or amending or renewing existing contracts; and
- (4) documents why and how the use of contract workers fit into agency staffing strategies, including consideration of agency mission, goals and objectives, existing and future employee skills needed, compensation costs, productivity, nature of services to be provided, and workload.

Agencies shall consult the *Best Practices and Guidelines for Effectively Using a Contract Workforce* (SAO Report No. 99-326) when planning for and implementing the requirements of this section.

- (c) The State Auditor may require an agency to provide interim reports or additional information as necessary to ensure compliance with this section. The State Auditor may review each agency's report and follow up based on identified risks.

PART 5. TRAVEL REGULATIONS

Sec. 5.01. Travel Definitions.

The definitions established by § 660.002, Government Code, apply to Part 5 of this Article, unless another meaning is clearly provided. In Part 5 of this Article:

 - (B) a regional planning commission created under Chapter 391, Local Government Code; or
 - (C) a regional planning agency created under Chapter 391, Local Government Code.
- (2) "State agency" includes the entities within the definition of § 660.002(19) Government Code, and also includes a council of governments, a local workforce development board, or a MHMR community center, that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees.

Sec. 5.02. **General Travel Provisions.** The funds appropriated by this Act to a state agency for the payment of transportation, meals, lodging, or incidental expenses is the maximum amount that may be expended by the agency. The funds appropriated by this Act may not be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Act, Chapter 660, Government Code, and the Comptroller's Rules.

Sec. 5.03. Failure to Comply.

- (a) If the State Auditor determines that the travel for which payment was made out of appropriated funds is not in compliance with Chapter 660, Government Code, the State Auditor shall so certify to the Comptroller. The Comptroller shall reduce the appropriation of the state agency that paid the travel expenses by an amount equal to the entire amount paid by the state agency for that individual for that travel occurrence.
- (b) The Comptroller shall prepare an annual report indicating the appropriation reductions, by state agency, made pursuant to this section for the previous fiscal year. The Comptroller shall submit the report to the Legislative Budget Board not later than December 1.

TRAVEL REGULATIONS (Continued)

Sec. 5.04. **Transportation Expenses.** For a state employee's use of a personally owned or leased motor vehicle, the mileage reimbursement rate for travel equals the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations as announced by the Comptroller.

Sec. 5.05. **Transportation in Personally Owned or Leased Aircraft.**

- (a) The rate of reimbursement to be paid to a key official, member of a board, commission, or a member of the Legislature for travel in the person's personally owned or leased aircraft, either within or without the boundaries of this state, is:
 - (1) 40 cents per highway mile when traveling in single-engine aircraft;
 - (2) 55 cents per highway mile when traveling in twin-engine aircraft; and
 - (3) one dollar per highway mile when traveling in turbine-powered or other aircraft.
- (b) The rate of reimbursement for a state employee when the employee travels in the employee's personally owned or leased aircraft, either within or without the boundaries of this state, is:
 - (1) 40 cents per highway mile when traveling in single-engine aircraft; or
 - (2) 55 cents per highway mile when traveling in twin-engine, turbine-powered, or other aircraft.

Sec. 5.06. **Travel Meals and Lodging Expenses.**

- (a) A state employee who travels within this state shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed \$85 per day per location for lodging and \$36 per day for meals.
- (b) At the discretion of each chief administrator of a state agency, a state employee whose duties require the employee to travel outside the employee's designated headquarters without an overnight stay away from the employee's headquarters may be reimbursed for the actual cost of the employee's meals not to exceed \$36.
- (c) A state employee who travels outside of this state but within the continental United States shall be reimbursed for the employee's actual expenses for lodging and meals. However, the reimbursement may not exceed the maximum out-of-state meals and lodging rates, based on the federal travel regulations, issued by the Comptroller unless the Comptroller determines, in advance of travel, that local conditions necessitate a change in the lodging rate for a particular location. If an employee travels to a location where an allowance has not been set by the Comptroller, the Comptroller shall establish a rate for that location.
- (d) A state employee may receive reimbursements for the employee's actual expenses for meals and lodging when traveling outside the continental United States.
- (e) A state agency or institution may reimburse a state employee for a meal expense the employee incurs while traveling outside the employee's designated headquarters for less than six consecutive hours if the reimbursement:
 - (1) receives the written approval by the chief administrator of the state agency or institution;
 - (2) meets the rules adopted by the Comptroller regarding reimbursement for traveling outside the employee's designated headquarters for less than six consecutive hours; and
 - (3) complies with § 660.206, Government Code.

TRAVEL REGULATIONS (Continued)

Sec. 5.07. **Special Provisions Regarding Travel Expenses.** Reimbursement for meals and lodging as authorized by Subchapter H, Chapter 660, Government Code, on an “actual expenses” or “actual amount of” basis may not exceed twice the maximum rates specified in § 5.06 of this Article.

Sec. 5.08. **Limitation on Travel Expenditures.**

- (a) In this section “travel” refers only to travel outside the state of Texas, except as set forth in Subsection (k) of this section.
- (b)
 - (1) None of the funds appropriated by this Act may be expended, without the prior approval of the Legislative Budget Board, for travel purposes if such expenditure would cause the agency’s or institution’s travel expenditures for that fiscal year to exceed an amount equal to 100 percent of that agency’s or institution’s fiscal year 2000 amount of travel expenditures including any excess travel expenditure amounts approved by waiver.
 - (2) The general limitations provided by this subsection apply in addition to the limits of any additional agency specific limitation.
 - (3) In the event that a state agency or institution had, as determined by the Comptroller, no expenditures for travel outside the state of Texas during fiscal year 2000, the general limitations provided by Subsection (b)(1) shall not apply, but out-of-state travel spending may not exceed in either year of the biennium the amount spent for that purpose in the last state fiscal year in which out-of-state travel occurred.
- (c) The Legislative Budget Board may consider requests from agencies which demonstrate circumstances which would make such reductions in actual travel impractical or inefficient in accomplishing the goals and strategies contained in their appropriations pattern. Such circumstances may include: new or expanded programs, law enforcement, tax collection activities, statutorily mandated travel, or other pressing public purposes.
- (d) The Comptroller shall prescribe accounting procedures and reporting requirements to administer this section and to ensure that expenditures for travel by all state agencies and institutions of higher education are properly reported and monitored.
- (e)
 - (1) Upon notification by the Comptroller that a state agency or institution of higher education has exceeded the travel cap limit as specified in Subsection (b) of this section for two consecutive fiscal years without the written approval of the Legislative Budget Board, the state agency or institution of higher education may not pay or reimburse with funds appropriated by this Act, a travel expense for travel to conventions, conferences, or seminars except as provided by this Subsection (e).
 - (2) The Comptroller may allow a state agency or institution of higher education to reimburse or pay a travel expense incurred by an employee on or after the date the agency or institution receives notice of its exceeding the limits if:
 - (A) the expense is incurred while the employee is returning to the employee’s designated headquarters;
 - (B) the reimbursement or payment is necessary to prevent unreasonable hardship to the employee; or
 - (C) the expense is incurred while the employee is completing official state business that the agency or institution deems critical to fulfillment of the agency’s or institution’s constitutional or statutory duties.
 - (3) The Comptroller shall notify the Legislative Budget Board if the Comptroller allows such a payment or reimbursement. The notification must include the reason that the payment or reimbursement is allowed. The Legislative Budget Board may then direct the Comptroller to reduce the agency’s or institution’s appropriation by the amount of the payment or

TRAVEL REGULATIONS (Continued)

reimbursement if in the Legislative Budget Board's opinion the payment was the result of an agency failing to comply with the notification by the Comptroller.

- (f) All documents filed by an appointed officer under this section are public information. In this section, the term "public information" has the meaning provided by Chapter 552, Government Code.
- (g) In this section "appointed officer" includes all persons included under the definition provided by Chapter 572, Government Code, except that for the purposes of the definition of "appointed officer," the term "state agency" also includes a council of governments, a local workforce development board, or a mental health mental retardation community center that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees or officials. For the purpose of this provision, the term "council of governments" shall include a council of governments, a regional planning commission, or similar regional planning agency created under Chapter 391, Local Government Code.
- (h) An appointed officer may not receive reimbursement from funds appropriated by this Act for expenses related to travel before filing with the Texas Ethics Commission copies of all documents that will be submitted to the Comptroller and Legislative Budget Board in support of the travel expense claim.
- (i) Funds appropriated by this Act may not be used to pay expenses for a trip to foreign countries, except for Canada or Mexico, unless the board or commission of each state agency and institution of higher education has approved the travel before departure. A copy of the approval must be attached to each travel voucher submitted to the Comptroller. By October 1 of each year, each agency and institution of higher education must submit a report on all foreign travel with required approvals to the Governor and the Legislative Budget Board.
- (j) In implementing this rider, state agencies shall review their travel policies in order to ensure that travel which is critical to the delivery of services consistent with the mission of the agency is not affected.
- (k) Travel expenses incurred within the Washington, D.C. area by the Office of State-Federal Relations (OSFR) and by state agencies and institutions of higher education that are represented by their employees in the Washington, D.C. office of OSFR shall be considered in-state travel for the purpose of calculating the agencies' compliance with out-of-state travel limitation provisions.

Sec. 5.09. **Expenditures for Commercial Air Travel.**

- (a) It is the intent of the Legislature that the Texas Building and Procurement Commission establish rules to encourage state agencies and institutions of higher education to reduce travel expenses by purchasing airline tickets at least 14 days before an employee of the agency or institution travels by commercial air carrier on agency or institution business.
- (b) Effective September 1, 2005, the Comptroller shall reduce appropriations made to all state agencies appropriated funds under Articles I through VIII of this Act, excluding institutions of higher education, by a total of \$4,994,716 in General Revenue for the biennium beginning September 1, 2005. Amounts to be reduced at each affected agency shall be determined by the Texas Building and Procurement Commission based on historical information related to agency travel and all reductions in appropriations must be approved by the Legislative Budget Board and Governor.
- (c) Effective September 1, 2005, the Comptroller shall reduce appropriations made to all institutions of higher education appropriated funds under Article III of this Act by a total of \$3,000,000 in General Revenue for the biennium beginning September 1, 2005. Amounts to be reduced at each affected institution shall be determined by the Texas Building and Procurement Commission based on historical information related to agency travel and all reductions in appropriations must be approved by the Legislative Budget Board and Governor.

PART 6. GENERAL LIMITATIONS ON EXPENDITURES

Sec. 6.01. Definitions.

In this Act:

- (a) “Earned federal funds” means all moneys received in connection with each entitlement period of a federally funded contract, grant, or program, excluding reimbursements under § 8.02(c), which are not required by the governing agreement to be disbursed thereon. Typically, earned federal funds arise from recoveries of costs previously paid from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. Except for state agencies of higher education and their affiliated agencies whose earned federal funds are held outside the state treasury, the expenditure of funds received or earned by a state agency is limited to the appropriation authority granted to the agency. Any such excess funds remaining at the end of the 2004–05 biennium for an agency shall be returned to the General Revenue Fund. A state agency or institution participating in federally funded or other programs, where indirect cost reimbursements are an allowable part of charges to the program, shall establish procedures to maximize the recovery of such costs.
- (b) “Unexpended balance” or the abbreviation “UB” means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to “unexpended balance” or “UB” is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2006, unless another meaning is clearly indicated.

Sec. 6.02. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 6.03. Emergency and Deficiency Grants Out of Special Funds. For the purposes of §§ 401.061 and 403.075, Government Code, appropriations to the Office of the Governor from “special funds” include excess revenues from General Revenue Fund-Dedicated accounts that were previously special funds above those estimated by the Comptroller in certifying this Act.

Sec. 6.04. Excess Obligations Prohibited.

- (a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.
- (b) As a specific exception to Subsection (a) the Texas Building and Procurement Commission may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.
- (c) A determination made by the Texas Building and Procurement Commission under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.
- (d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.
- (e) This provision is specified pursuant to § 10, Article XVI, Texas Constitution.

Sec. 6.05. Interpretation of Legislative Intent. Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.

Sec. 6.06. **Comptroller's Duty to Pay.** The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 6.07. **Last Quarter Expenditures.**

- (a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.
- (b) Specifically exempted from Subsection (a) are:
 - (1) expenditures contracted for in previous quarters;
 - (2) funds required by statute, rule or regulation to be expended on a different time frame;
 - (3) seasonal employment of personnel;
 - (4) construction contracts;
 - (5) contracts dealing with purchases of food, medicines, or drugs;
 - (6) expenditures related to the Children with Special Health Care Needs (formerly known as "CIDC") program operated by the Department of State Health Services; and
 - (7) expenditures occasioned by disaster or other Act of God.
- (c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

Sec. 6.08. **Appropriation Transfers.**

- (a) Subject to any specific restriction in another provision of this Act, an appropriation contained in this Act may be transferred from one appropriation item to another appropriation item in an amount not to exceed 12.5 percent of the appropriation item from which the transfer is made for the fiscal year, at the discretion of the chief administrative officer of the state agency or institution.
- (b) As a specific exception to Subsection (a), funds appropriated for capital budget items are subject to restrictions contained elsewhere in this Act.
- (c) Funds appropriated by this Act in items of appropriation that are part of a Goal for "Indirect Administrative and Support Costs" or "Indirect Administration" may also be transferred from one appropriation item to another appropriation item within that same Goal without limitation as to the amount of such a transfer.
- (d) Appropriations made by this Act to each state agency or institution of higher education are not subject to transfer between agencies or institutions except under the provisions of interagency contract, budget execution statutes, or specific rider or statutory authorization.

Sec. 6.09. **Transfers for Contract Services.** Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," and "Benefit Replacement Pay" may be transferred between Articles for similar appropriation items for the purpose of paying employee benefits costs incurred by higher education institutions when those institutions have contracted to provide services to state agencies.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

Sec. 6.10. Employee Benefit and Debt Service Items.

- (a) Funds appropriated in the various Articles of this Act for “Employees Retirement System,” “Social Security State Match,” “Benefit Replacement Pay,” “Texas Public Finance Authority-G.O. Bond Debt Service Payments,” and “Lease-Payments to the Texas Public Finance Authority” may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.
- (b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

Sec. 6.11. Benefits Paid Proportional by Fund.

- (a) Unless otherwise provided, in order to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated funds, including “local funds” and “education and general funds” as defined in § 51.009 (a) and (c), Education Code, shall be proportional to the source of funds.
- (b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.
- (c) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor’s Office, shall develop rules to provide for the administration of this section.
- (d) Each agency or institution of higher education (including a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. The report shall be filed before November 20th following the close of the fiscal year for the salaries, wages, and benefits of the preceding year ended August 31. The report shall be in a format prescribed by the Comptroller of Public Accounts in collaboration with the Legislative Budget Board and the State Auditor’s Office. The State Auditor shall at least biennially review agency and institution (including a community or junior college) compliance with the requirements of this section if the agency or institution (including a community or junior college) receives funds appropriated under Articles II, III, or VI of this Act. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionately paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.

Sec. 6.12. Appropriations from Special Funds. Notwithstanding other provisions of this Act, appropriation amounts from special funds or special accounts in the General Revenue Fund are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

Sec. 6.13. Limitation on Grants to Units of Local Government.

- (a) The funds appropriated by this Act may not be expended in the form of a grant to, or a contract with, a unit of local government unless the terms of the grant or contract require that the funds received under the grant or contract will be expended subject to limitations and reporting requirements similar to those provided by:

GENERAL LIMITATIONS ON EXPENDITURES
(Continued)

- (1) Parts 2 and 3 of this Article (except there is no requirement for increased salaries for local government employees);
- (2) § § 556.004, 556.005, and 556.006, Government Code;
- (3) § § 2113.012 and 2113.101, Government Code;
- (4) § 6.24 of this Article (Performance Rewards and Penalties);
- (5) § 7.01 of this Article (Budgeting and Reporting);
- (6) § 7.02 of this Article (Annual Reports and Inventories); and
- (7) § 2102.0091, Government Code.

(b) In this section, “unit of local government” means:

- (1) a council of governments, a regional planning commission, or a similar regional planning agency created under Chapter 391, Local Government Code;
- (2) a local workforce development board; or
- (3) a MHMR community center.

Sec. 6.14. Limitation on State Employment Levels.

- (a) (1) If the reduction of the number of full-time equivalent employees (FTEs) required by Subsection (a)(2) of this section would be impractical or inefficient in accomplishing the goals and strategies contained in the appropriations pattern of a state agency or institution of higher education or would impede new or expanded programs, law enforcement, tax collection activities, or other pressing public purposes, then the Legislative Budget Board and Governor may consider requests for exemptions from the requirements of this Subsection (a) from those entities which demonstrate such circumstances.
- (2) The FTE limit shown in the bill pattern of state agencies and institutions of higher education appropriated funds under this Act are reduced by two percent (2%). This reduction does not apply to:
 - (A) a state agency or institution having fewer than 300 FTEs;
 - (B) the Office of the Governor;
 - (C) the Office of the Comptroller; or
 - (D) the Office of the Attorney General.
- (b) Without the written approval of the Governor and the Legislative Budget Board, a state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the figure indicated by this Act for that state agency or institution.
- (c) A request by a state agency or institution of higher education to exceed or reduce the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education and must include at a minimum:
 - (1) the date on which the board approved the request;
 - (2) a statement justifying the need to exceed or reduce the limitation;
 - (3) the source of funds to be used to pay any additional salaries; and

GENERAL LIMITATIONS ON EXPENDITURES
(Continued)

- (4) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.

- (d) For the purpose of Subsection (b), the number of FTEs employed by a state agency (not including an institution of higher education or an affiliated entity, the State Preservation Board, Parks and Wildlife Department, Texas School for the Blind and Visually Impaired, Texas School for the Deaf, and Texas Commission on Environmental Quality) for a fiscal quarter:
 - (1) shall be determined in accordance with the report filed pursuant to § 2052.103, Government Code;
 - (2) shall only include employees paid with funds appropriated through this Act;
 - (3) shall not include overtime hours; and
 - (4) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.

- (e) For the purpose of Subsection (b), the number of FTEs employed by the State Preservation Board, Texas Commission on Environmental Quality, the Parks and Wildlife Department, the Texas School for the Blind and Visually Impaired, the Texas School for the Deaf, or an institution of higher education or an affiliated entity, for a fiscal year:
 - (1) shall be determined in accordance with the reports filed pursuant to § 2052.103, Government Code;
 - (2) shall be an average of the four reports filed for that fiscal year;
 - (3) shall include employees paid with funds appropriated through this Act;
 - (4) shall not include overtime hours; and
 - (5) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.

- (f) This section shall not apply to appropriations made by this Act to the:
 - (1) Office of the Governor; or
 - (2) Comptroller when that agency has determined by a cost/benefit analysis that an outsourcing or contracting arrangement provides savings to this State.

- (g) The limitations on FTEs under this section do not apply to a state agency or institution in instances of employment, including employment of temporary or contract workers, directly associated with events declared disasters by the Governor. Each state agency or institution shall annually notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this section.

- (h) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment, including employment of a temporary or contract worker, associated with implementation of a project that is 100 percent federally funded. With regard to the exemption from the FTE limitations provided by this subsection, the state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

employment must be paid from federal funds. Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this subsection.

- (i) If a program is transferred from a state agency or institution of higher education, then at any time during the biennium, the Legislative Budget Board and the Governor may agree to reduce the number of FTEs paid from funds appropriated by this Act by the state agency or institution of higher education for one or more fiscal quarters to a figure below that indicated by this Act for that agency or institution.

Sec. 6.15. **Purchases of Postage.**

- (a) If the expenditures for postage by an agency, other than the Legislature or an institution of higher education, exceed \$4,000 for a fiscal year, the agency shall purchase postage only in accordance with § 2113.103(c), Government Code.
- (b) The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is hereby appropriated to the agency for postage use.

Sec. 6.16. **Limitation on Expenditures - Capital Budget.**

- (a) Contained in appropriations made to certain agencies by this Act are amounts identified as the "Capital Budget." Except as provided under this section, none of the funds appropriated by this Act, in excess of amounts restricted to capital budget purposes, may be expended for capital budget purposes without the prior approval of the Governor and Legislative Budget Board.
- (b) A request for approval to exceed the transfer limitation on capital budget expenditures under Subsection (i) must be submitted by the agency's governing board and must include at a minimum:
 - (1) the date on which the board approved the request;
 - (2) a statement justifying the need to exceed the limitation;
 - (3) the source of funds to be used to make the purchases; and
 - (4) an explanation as to why such expenditures cannot be deferred.
- (c) This restriction does not apply to:
 - (1) expenditures for capital outlay items or projects that are not included in the definition of "Capital Budget" under Subsection (d); or
 - (2) expenditures for Capital Budget purposes made by:
 - (A) institutions of higher education; or
 - (B) public community/junior colleges.
- (d) "Capital Budget" includes expenditures, for assets with a biennial project cost or unit cost in excess of \$25,000, within the following categories:
 - (1) Acquisition of Land and Other Real Property (except for right-of-way purchases made by the Texas Department of Transportation);
 - (2) Construction of Buildings and Facilities;
 - (3) Repairs or Rehabilitation of Buildings and Facilities;

GENERAL LIMITATIONS ON EXPENDITURES
(Continued)

- (4) Construction of Roads (except for such expenditures made by the Texas Department of Transportation);
 - (5) Acquisition of Information Resource Technologies;
 - (6) Transportation Items;
 - (7) Acquisition of Capital Equipment and Items; or
 - (8) Other Lease Payments to the Master Lease Purchase Program (for items acquired prior to September 1, 2005 only).
- (e) Any expenditure directly related to acquisition of an asset, or to placing an asset in service, may be paid from the appropriation made to the “Capital Budget.”
- (f) In implementing this section, the Comptroller should refer to the detailed instructions for preparing and submitting requests for legislative appropriations for the biennium beginning September 1, 2005, and the definitions therein, and to the official request for legislative appropriations submitted by the affected agency.
- (g) Appropriations restricted to capital budget purposes and not identified in a “Capital Budget” as being for lease payments to the master lease purchase program (MLPP) or for other lease-purchase payments may be utilized to make lease payments under MLPP or for other lease or installment payments only if the agency to which the appropriation is made provides a report to the Comptroller specifying the sum of the lease payments to be made during the biennium for the Capital Budget item being acquired. The Comptroller shall reduce the appropriation made by this Act for the Capital Budget item in an amount equal to the difference between the appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. In the event that the Comptroller cannot determine the amount appropriated for a specific Capital Budget item, the amount shall be determined by the Legislative Budget Board.
- (h) Funds restricted to “Acquisition of Information Resource Technologies” may also be used to purchase or contract for computer time, facility resources, maintenance, and training.
- (i) (1) An agency may transfer appropriations:
- (A) from a non-capital budget item to a capital budget item;
 - (B) from a capital budget item to another capital budget item; or
 - (C) from a capital budget item to an additional capital budget item not presented in the agency’s bill pattern.
- (2) Without the approval of the Governor and the Legislative Budget Board:
- (A) the amounts transferred during a fiscal year as provided by Subdivision (1) of this Subsection (i) may not exceed 25 percent of either:
 - (i) the amount of the capital budget item, as presented in the agency’s bill pattern from which funds are being transferred; or
 - (ii) the amount of the capital budget item, if presented in the agency’s bill pattern, to which funds are being transferred;
 - (B) appropriations may not be transferred directly from a non-capital budget item to an additional capital budget item not presented in the agency’s bill pattern;
 - (C) appropriations may not be transferred to an additional capital budget item that is not presented in the agency’s bill pattern if that additional capital budget item was presented to a committee, subcommittee, or working group of the Seventy-ninth Legislature but was not adopted by the Seventy-ninth Legislature; and
 - (D) an agency that does not have a capital budget provision following its items of appropriation in this Act may not use funds appropriated by this Act for capital budget purposes.

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (j) Any unexpended balances remaining in appropriations made by this Act for capital budget purposes for fiscal year 2006 are hereby appropriated for fiscal year 2007 for the same purpose.
- (k)
 - (1) Notwithstanding limitations on capital expenditures provided elsewhere, appropriations made by this Act that may be used for the payment of utility bills are hereby authorized to be used to pay for energy and water conservation-related projects, including lease payments under the state's Master Lease Purchase Program, entered into in accordance with energy and water conservation statutes.
 - (2) Capital expenditures for items that could be financed through the utility savings made possible by a comprehensive energy and water conservation contract authorized by § 2166.406, Government Code, are prohibited unless part of a comprehensive energy and/or water conservation contract authorized under § 2166.406, Government Code.
 - (3) Before authorizing expenditures for capital items that consume energy or water or that are related to the energy and/or water consumption of an agency's facilities, the Comptroller must verify that the items could not be part of a cost-effective contract for energy and water conservation measures authorized by § 2166.406, Government Code.

Sec. 6.17. **Construction Policy.** A state entity receiving an appropriation under this Act may not establish a rule or policy that is inconsistent with the legislative intent that funds appropriated by this Act for construction projects be expended only pursuant to state entity policies that provide the greatest competitive advantage to the state allowable under Chapter 2258, Government Code.

Sec. 6.18. **Grant Restriction.** Funds appropriated by this Act may not be expended for a grant to a law enforcement agency regulated by Chapter 1701, Occupations Code, unless:

- (1) the law enforcement agency requesting the grant is in compliance with all rules developed by the Commission on Law Enforcement Officer Standards and Education; or
- (2) the Commission on Law Enforcement Officer Standards and Education certifies that the requesting agency is in the process of achieving compliance with such rules.

Sec. 6.19. **Expenditures for State-Federal Relations.**

- (a) Funds appropriated by this Act may not be spent by a state agency to carry on functions for which funds have been appropriated to the Office of State-Federal Relations to perform except when an interagency contract has been executed between the Office of State-Federal Relations and the state agency.
- (b) Prior to travel to the Washington, D.C. area, including any trip with a destination to the Reagan-National, Dulles, or Baltimore Washington International airports, state agency personnel shall inform the Office of State-Federal Relations regarding:
 - (1) the timing of the trip;
 - (2) the purpose of the trip; and
 - (3) the name of a contact person for additional information.
- (c) Under Subsection (b) the term "travel" is limited to only activities:
 - (1) involving obtaining or spending federal funds; or
 - (2) impacting federal policies.

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

Sec. 6.20. **Research Policy.**

- (a) An agency may not expend any funds appropriated by this Act for research projects of any type until the agency has adopted and filed with the Legislative Budget Board a policy that clearly establishes and protects the property rights of the state with regard to any patentable product, process, or idea that might result from such research.
- (b) In order to avoid duplication, a state agency, excluding an institution of higher education, may not expend funds appropriated by this Act to conduct or support policy research on a subject within the statutory jurisdiction of another agency without providing prior written notification, to the agency that has the statutory jurisdiction, concerning a work plan and the coordination of resources.

Sec. 6.21. **Court Representation and Outside Legal Counsel.**

- (a) Except as otherwise provided by the Constitution or general or special statutes, the Attorney General shall have the primary duty of representing the State in the trial of civil cases. Prior to expenditure of funds for retaining outside legal counsel, agencies or departments (other than those included in Article X of this Act) shall request the Attorney General to perform such services. If the Attorney General determines that outside counsel is in the best interest of the State, the Attorney General shall so certify to the Comptroller and to the requesting agency which may then utilize appropriated funds to retain outside counsel. However, funds appropriated by this Act may not be used to contract with an attorney who represents clients before the agency or who has, during a six month period preceding the initiative of the contract and a six month period following the termination of the contract, represented clients before the agency. An agency may not initiate the process of selecting outside legal counsel prior to receiving the approval of the Attorney General to retain outside counsel.
- (b) Funds appropriated in this Act may not be expended by any agency of the state government (other than those included in Article X of this Act) to initiate a civil suit or defend itself against a legal action without the consent of the Attorney General. Absent this consent, the agency shall be represented in that particular action by the Attorney General.
- (c) On receipt of a request for outside counsel, the Attorney General shall make a determination on the request as expeditiously as possible, but in no event later than 10 working days after receiving such request.
- (d) Where the Attorney General, district attorney, criminal district attorney, county attorney, or other lawyer is required by constitutional or statutory provision to represent a state agency, state official, state board, or state department, compensation may not be paid from any appropriation made in this Act to any other attorney for representing the State in the trial of a civil suit except in those cases where the Attorney General consents to such representation or the district attorney, criminal district attorney, county attorney, or other lawyer has requested that the attorneys employed by the particular state agency, state official, state department, or state board assist with the trial of the particular civil suit.
- (e) This section does not restrict a state agency, state official, state department, or state board in the investigation and assembling of evidence in connection with a pending or prospective civil suit. This section does not prohibit the foregoing state officials, state agencies, state boards, or state departments and their employees from investigating, filing, or presenting to any person a claim, owing to the State.
- (f) This section does not restrict the Attorney General from employing special assistants to assist in the trial of civil suits to be paid from the appropriations therefore made to the Attorney General.
- (g) If a state agency requests the Attorney General to take legal action in court against another state agency, the Attorney General shall give special consideration to permitting one of the agencies to employ, from the permitted agency's funds, outside counsel to represent that agency in that action, in order to avoid a conflict of interest by the Attorney General in the representation of both agencies.

GENERAL LIMITATIONS ON EXPENDITURES
(Continued)

- (h) If the Attorney General initiates legal action against another state agency on behalf of the Attorney General rather than another agency, the Legislature determines that a conflict of interest exists and the agency against which the Attorney General takes action may expend appropriated funds for outside legal counsel to represent that agency without the prior approval or consent of the Attorney General.
- (i) Subsections (a) - (h) do not apply to funds appropriated to:
 - (1) the Office of the Governor;
 - (2) Comptroller;
 - (3) Department of Agriculture;
 - (4) General Land Office and Veteran's Land Board; or
 - (5) the Railroad Commission of Texas.
- (j) The funds appropriated by this Act may not be expended to pay the legal fees or expenses of a lawyer or law firm that represents the State or any of its agencies in a contested matter if the lawyer or law firm is representing a plaintiff in a proceeding seeking monetary damages from the State or any of its agencies.
- (k)
 - (1) None of the money appropriated by this Act may be expended by a state governmental entity for payment of legal fees or expenses under a contingent fee contract for legal services without the prior approval of the Legislative Budget Board.
 - (2) For purposes of this section, "state governmental entity" means a board, commission, department, office, or other agency in the executive branch of state government created under the constitution or a statute, including an institution of higher education.
 - (3) This section applies to all contingent fee contracts for legal services entered into by a state governmental entity, including legal services related to a parens patriae action or proceeding brought by a state governmental entity in the name of the state, except that this section does not apply to a contingent fee contract:
 - (A) for legal services performed for a state governmental entity in relation to the entity's actions as a receiver, special deputy receiver, liquidator, or liquidating agent in connection with the administration of the assets of an insolvent entity, including actions under Article 21.28, Insurance Code, or Chapters 36, 66, 96, or 126, Finance Code; or
 - (B) under which recoveries from more than one entity are contemplated and the expected amount of each recovery and the actual amount of each recovery do not exceed \$100,000.
- (l) Any litigation that results in settlement, court order or other arrangement providing revenues or financial benefits to the State of Texas shall be structured to require the entire amount due to be paid to the treasury.
- (m)
 - (1) None of the money paid to a state governmental entity (as a result of a settlement of litigation, or other arrangement providing revenues or financial benefits as a result of litigation) may be expended by any state government entity unless the Legislative Budget Board is notified in writing by the Office of the Attorney General regarding the terms of the settlement or other arrangement and by the state governmental entity receiving the money regarding the plans for the use of the money. The written notice must be delivered to the Legislative Budget Board as soon as practicable, but no later than the 20th day of the month following approval of the settlement or arrangement by a court.

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (2) This subsection does not apply to a settlement of litigation, court order resulting from litigation, or other arrangement providing revenues or financial benefits as a result of litigation:
 - (A) for a state governmental entity in relation to the entity's actions as a receiver, special deputy receiver, liquidator, or liquidating agent in connection with the administration of the assets of an insolvent entity, including actions under Article 21.28, Insurance Code, or Chapters 36, 66, 96, or 126, Finance Code; or
 - (B) under which recovery to the state governmental entity does not exceed \$500,000.

Sec. 6.22. **Judgments and Settlements.**

- (a) The funds appropriated by this Act, including appropriations made in Article X of the Act, may not be expended for payment of a judgment or settlement prosecuted by or defended by the Attorney General and obtained against the State or a state agency, except:
 - (1) pursuant to this section; or
 - (2) where it is specifically provided in an item of appropriation that the funds thereby appropriated or expenditures therein authorized may be used for the payment of such judgments or settlements.
- (b) The authorization provided by this subsection does not apply in those cases where the judgment order of the trial court was entered, or a settlement agreement was executed, prior to September 1, 1995. State agencies appropriated funds by this Act may expend funds appropriated elsewhere in this Act for the purposes of paying settlements and judgments against the state for causes brought in a federal court or a court in this state under specific statutory authority. Payments made pursuant to this subsection are subject to the following processes and limitations:
 - (1) such funds are to be paid out by the Comptroller on vouchers drawn by the agency settling the lawsuit or paying the judgment, subject to the approval of the Governor and of the Attorney General according to Subsection (d);
 - (2) for purposes of this subsection, "judgment" means a judgment order rendered in a federal court or a court in this state for which an appeal or rehearing, or application therefore, is not pending and for which the time limitations for appeal or rehearing have expired;
 - (3) the payment of a settlement or judgment may not exceed \$250,000;
 - (4) the payment of the settlement or judgment would not cause the total amount of payments made by the payer agency for that fiscal year to exceed 10 percent of the total amount of funds available for expenditure by that agency for that fiscal year; and
 - (5) the payment of a settlement or judgment may be made only with a complete release from any and all related claims and causes against the State, and in the case of a judgment, the payment may be made only in full satisfaction of that judgment.
- (c) A state agency shall report a claim for property damage to the Attorney General not later than the second working day after the date the agency receives the claim. A state agency shall prepare a voucher for payment of a claim not later than the 10th working day after the date an agreement to settle the claim has been reached.
- (d) Payment of all judgments and settlements prosecuted by or defended by the Attorney General is subject to approval of the Attorney General as to form, content, and amount, and certification by the Attorney General that payment of the judgment or settlement is a legally enforceable obligation of the State. This subsection applies equally to funds appropriated for expenditure through the state treasury, as well as funds appropriated for expenditure from funds held in local banks.

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (e) The Attorney General shall report to the Legislative Budget Board and the Governor not less than monthly, a listing of all settlements and judgments of more than \$5,000 submitted to the Comptroller for payment. The document for publication shall contain at least the following information unless all or part of the information is exempt by court order or Chapter 552, Government Code, (the Open Records Act):
 - (1) a summary of the cause of action;
 - (2) a summary of the terms of the settlement;
 - (3) the style of the case;
 - (4) the name and business address of each attorney representing the opposing litigants at the time of the settlement;
 - (5) the amount of the judgment or settlement;
 - (6) the fund or account from which payment was or should be made;
 - (7) the statutory citation for the appropriation or other authority to be made;
 - (8) specific statutes granting waiver of sovereign immunity or legislative resolution granting litigant permission to sue;
 - (9) the date of judgment or settlement; and
 - (10) other information as the Legislative Budget Board may request and in the form requested by the Legislative Budget Board.

- (f) The State Auditor may verify compliance with this section for all funds appropriated in this Act, including funds that are retained and expended from accounts held outside the state treasury and that are not subject to reimbursement through funds held in the state treasury. On verification that an agency has not obtained the Attorney General's approval prior to payment of a judgment or settlement, the State Auditor may certify such fact to the Comptroller. The Comptroller may withhold all appropriations for administrative expenses for the involved agency, until the Legislative Audit Committee notifies the Comptroller that the agency's non-compliance has been reviewed and necessary recommendations or changes have been made.

Sec. 6.23. **Expenditures for Representatives of Grievants Prohibited.**

- (a) The funds appropriated by this Act may not be used to pay expenses for salary, travel, or per diem of a public employee who represents grievants in the presentation of grievances concerning wages, hours of work, or conditions of work.
- (b) Notwithstanding Subsection (a), a state employee may take annual leave, compensatory leave, or leave without pay, subject to the procedures established by the state employee's agency of employment, to engage in this activity.

Sec. 6.24. **Performance Rewards and Penalties.**

- (a) It is the intent of the Legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.
- (b) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed by the Legislative Budget Board.
 - (2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed by the Legislative Budget Board.
- (c) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:
- (1) Positive Incentives/Rewards - Increased funding, exemption from reporting requirements, increased funding transferability, formalized recognition or accolade, awards or bonuses, expanded responsibility, or expanded contracting authority; or
 - (2) Negative Incentives/Redirection - Evaluation of outcome variances for remedial plan, reduction of funding, elimination of funding, restriction of funding, withholding of funding, reduction of funding transferability, transfer of functional responsibility to other entity, recommendation for placement in conservatorship, direction that a management audit be conducted or direction that other remedial or corrective actions be implemented.
 - (3) The Legislative Budget Board may develop rules and procedures for the implementation of the above provisions.
 - (4) The Legislative Budget Board may request comments from the State Auditor's Office regarding performance penalties and rewards.
- (d) To further foster, support, and reward outstanding performance, ongoing productivity improvements and innovative improvement programs, and to retain key high performing employees, qualified state agencies and institutions may expend amounts necessary from funds appropriated in this Act for the purposes of enhancing compensation for employees who directly contributed to such improvements. Only classified employees (including classified employees of institutions of higher education) are eligible for enhanced compensation, and this award shall not exceed 6.8 percent of an employee's annual base pay. To be eligible for this provision, an agency or institution must:
- (1) Achieve or exceed targets for 80 percent of the established key performance measures:
 - (A) For fiscal year 2006, eligibility shall be determined by the Legislative Budget Board based on performance reported to the Automated Budgeting and Evaluation System of Texas (ABEST) for fiscal year 2005;
 - (B) For fiscal year 2007, eligibility shall be determined by the Legislative Budget Board based on performance reported to ABEST for fiscal year 2006; and
 - (2) Have an unqualified certification for at least 70 percent of its performance measures as shown by its most recent certification review by the State Auditor's Office; and
 - (3) File a report with the Comptroller, Legislative Budget Board, Governor, House Appropriations Committee, and Senate Finance Committee describing the success of the innovative program and criteria used to assess the improvements; and
 - (4) Sixty days prior to implementation file a report with the Comptroller, Legislative Budget Board, Governor, House Appropriations Committee, and Senate Finance Committee

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

describing in detail how the agency intends to use this flexibility to further the goals of this section.

Sec. 6.25. **Bookkeeping Entries.** Should clerical or bookkeeping errors result in any moneys being expended, transferred, or deposited into incorrect funds in or with the state treasury or any moneys being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared moneys may be transferred to the correct funds or accounts or trust and suspense account within the state treasury on request of the administering department with the concurrence of the Comptroller, and so much as is necessary for said transfer is hereby appropriated.

Sec. 6.26. **Accounting for State Expenditures.**

- (a) Notwithstanding the various patterns of appropriation established in this Act, the Comptroller shall account for the expenditure of funds appropriated by this Act in a manner that allows for the reporting of expenditures attributable to each strategy in each agency's respective Strategic Planning and Budget Structure as approved by the Governor and the Legislative Budget Board. The information shall be recorded and maintained systematically in the state accounting system in a manner that provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.
- (b) This section does not require the deposit into and subsequent disbursement of funds from the state treasury that relate to Texas Public Education Grants, Skiles Act Debt Service, or "local funds" defined in § 51.009, Education Code, except for tuition and lab fees.

Sec. 6.27. **Grants.**

- (a) Funds appropriated by this Act for grants of money to be made by state agencies, including the agencies in the legislative branch, are appropriated for the statutory purposes as the grantor agency may specify. A state agency shall distribute grants on a reimbursement or as needed basis unless otherwise provided by statute or otherwise determined by the grantor agency to be necessary for the purposes of the grant.
- (b) Funds appropriated by this Act for grants to be made by a state agency for a particular fiscal year may be distributed in subsequent fiscal years so long as the grant has been awarded and treated as a binding encumbrance by the grantor agency prior to the end of the appropriation year of the funds appropriated for grant purposes. Distribution of the grant funds is subject to § 403.071, Government Code.

Sec. 6.28. **Fee Increase Notification.** None of the funds appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

Sec. 6.29. **Reimbursements for Unemployment Benefits.**

- (a) For the purposes of this section, 'agency' includes a state agency as defined under § 2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under § 61.003, Education Code.
- (b) At the close of each calendar quarter, the Texas Workforce Commission shall prepare a statement reflecting the amount of unemployment benefits paid to all former state employees based on wages earned from state employment and present it to the Comptroller. The Comptroller shall pay by warrant or transfer out of funds appropriated from the Unemployment Compensation Special Administration Account No. 165 such amount to the Unemployment Compensation Benefit Account No. 937 to reimburse it for such payments.
- (c) The Unemployment Compensation Special Administration Account No. 165 shall be reimbursed, as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165, for one-half of the unemployment benefits paid, from appropriations made in this Act to the agency that previously employed each respective former

state employee whose payroll warrants were originally issued in whole or part from the General Revenue Fund or dedicated General Revenue Fund accounts, Federal Funds, or Other Funds, such as Fund No. 006.

- (d) From information related to unemployment benefits paid on behalf of previously employed former state employees provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, any General Revenue–Dedicated accounts, Federal Funds or Other Fund appropriations made elsewhere in this Act to agencies. The Comptroller shall transfer such amounts to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed pursuant to this subsection are hereby appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937, as Interagency Transfers to the Unemployment Compensation Special Administration Account No. 165. The reimbursement requirements established by this subsection may be waived, either in whole or in part, by the Legislative Budget Board.
- (e) In addition to other reimbursement provided by this section, the Unemployment Compensation Special Administration Account No. 165 shall be reimbursed, for one-half of the unemployment benefits paid, from amounts appropriated to the Reimbursements to the Unemployment Compensation Benefit Account item in this Act out of dedicated General Revenue Fund accounts or Other Funds and shall be fully reimbursed from funds held in local bank accounts, for all former state employees whose payroll warrants were originally issued in whole or part from dedicated General Revenue Fund accounts, Other Funds or local bank accounts, respectively. From information provided by the Texas Workforce Commission, the Comptroller shall determine the proportionate amount of the reimbursement or payment due from funds other than General Revenue and transfer such funds to the Unemployment Compensation Special Administration Account No. 165. The amounts reimbursed from local funds pursuant to this subsection are hereby appropriated to the Unemployment Compensation Special Administration Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937. Such transfers and payments as are authorized under law shall be made not later than the 30th day after the date of receipt of the statement of payments due.
- (f) The Comptroller may prescribe accounting procedures and regulations to implement this section.
- (g) The Comptroller, upon certification of amounts due from the Texas Workforce Commission, including the sources of such amounts due, may transfer funds from such agencies or other units of state government as the Texas Workforce Commission certifies remain due more than 30 days from receipt of the statement of payments due. The Texas Workforce Commission shall also determine the amounts due from funds held outside the state treasury and notify the State Auditor and Comptroller of such amounts.

Sec. 6.30. **Payments to the State Office of Risk Management (SORM).**

- (a) In this section:
 - (1) “Agency” includes a state agency as defined under § 2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under § 61.003, Education Code, and may also include any other unit of state government as defined by the rules of the SORM, which participates in cost allocation plan provided under this section;
 - (2) “Assessment” means the amount of the workers’ compensation assessment placed on an agency by SORM as provided by this section and other relevant law; and
 - (3) “SORM” means the State Office of Risk Management.

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (b) At the beginning of each fiscal year, SORM shall prepare a statement reflecting the assessments due from all agencies and present it to the Comptroller.
- (c) Notwithstanding other provisions in this Act, agencies shall transfer to SORM their assessed allocation amounts for workers' compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts.
- (d) Transfers and payments as are authorized under law shall be made not more than 30 days from receipt of the statement of payments due.
- (e) The Comptroller may prescribe accounting procedures and regulations to implement this section.
- (f) Upon certification by SORM of amounts due, the Comptroller may transfer funds from an agency if the assessment amount due remains unpaid after more than 30 days from receipt of the statement of payments due.
- (g) All funds recovered by SORM from third parties by way of subrogation are appropriated to SORM to be used for the payment of workers' compensation benefits to state employees and shall be retained in Strategy A.1.1, Workers' Compensation Payments, in whole for that purpose.
- (h) Amounts not to exceed 2 percent in total of workers' compensation annual expenditures may be awarded to agencies by SORM for the purposes of risk management and loss prevention. In the event that Strategy A.1.1, Workers' Compensation Payments, funded by the annual assessments to agencies, exceeds 110 percent of the expected annual payments, the portion of the excess over 110 percent funded from all funding sources shall be returned to agencies. The excess returned to the agencies by SORM is appropriated to the agencies for expenditures consistent with the original funding source. An all funds excess of 10 percent or less will be used to lower the cumulative assessments to agencies the following year.
- (i) In the event the total assessments in any year prove insufficient to fund expenditures, SORM may, with the approval of the Legislative Budget Board, temporarily utilize additional general revenue in an amount not to exceed 20 percent of the cumulative assessments for that fiscal year. Any additional general revenue funds will be utilized only for the purpose of temporary cash flow and must be repaid upon receipt of the following year's assessments in accordance with procedures established by the Comptroller. All transfers from and repayments to the General Revenue Fund shall be reported by SORM to the Legislative Budget Board.
- (j) The reimbursement requirements established by this section may be waived or delayed, either in whole or in part, by the Legislative Budget Board.
- (k) SORM shall require agencies to provide to SORM and agencies shall submit to SORM information regarding the specific funding sources from which agencies pay their assessed allocation amounts for workers' compensation coverage for their employees.

Sec. 6.31. **Consolidated Funds.** Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, on approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation that affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.

Sec. 6.32. **Demographic and Statistical Studies.**

- (a) Before expending funds appropriated by the Act for the purpose of contracting for a consultant or other private assistance in performing a study required by the Legislature that includes statistical or demographic analysis of data, the agency conducting the study shall determine if the resources of the Texas Legislative Council or The University of Texas at San Antonio are available to assist the agency in designing or conducting that component of the study.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (b) None of the funds appropriated by the Act may be granted to or expended by any entity which performs political polling. This prohibition regarding political polling does not apply to a poll conducted by an academic institution as a part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.

Sec. 6.33. **Cost Allocations.** For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged. Such transfers must be accomplished within twelve months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller. Each agency must maintain adequate detailed records to support summary transfer amounts.

Sec. 6.34. **Use of Appropriations to Contract for Audits.**

- (a) Notwithstanding any other law, or other sections of this Act, none of the funds appropriated in this Act shall be used by the agencies or institutions of higher education to enter into a contract with an independent audit entity for audit services, except as specified by this section.
- (b) An agency or institution appropriated funds in this Act may use funds appropriated in this Act to:
 - (1) Enter into an interagency contract with the State Auditor's Office (SAO) for the SAO to provide audit services to the agency or institution. At the discretion of the State Auditor and the Legislative Audit Committee, the SAO may conduct the audit or the SAO may enter into a contract with an independent audit entity to conduct the audit; or
 - (2) Enter into a contract with an independent audit entity for the provision of audit services pursuant to Section 321.020, Government Code, if:
 - (A) the SAO has reviewed the scope of the proposed audit and has issued a written approval for the scope of the proposed audit, and
 - (B) the SAO has delegated the authority to enter into the proposed audit to the agency or institution, in the event the agency or institution does not have a specific statutory delegation of authority to enter into a contract for audit services.

Sec. 6.35. **Restriction on Expenditures for Lobbying Activities.**

- (a) Except as provided by Subsection (b) of this section, none of the funds appropriated under this Act may be used to compensate a lobbyist registered under Chapter 305, Government Code, for engaging in lobbying activities.
- (b) Subsection (a) of this section does not apply to the payment of compensation to a person employed by a state agency or institution.

PART 7. REPORTING REQUIREMENTS

Sec. 7.01. **Budgeting and Reporting.**

- (a) As a limitation and restriction upon appropriations made by this Act, agencies and institutions of higher education appropriated funds by this Act may expend funds only if there is compliance with the following provisions:
 - (1) On or before December 1 of each fiscal year, an itemized budget covering the operation of that fiscal year shall be filed with the Governor, the Legislative Budget Board, the

REPORTING REQUIREMENTS (Continued)

Comptroller, and the Legislative Reference Library in the format prescribed jointly by the Legislative Budget Board and the Governor.

- (2) All subsequent amendments to the original budget shall be filed with the Governor and the Legislative Budget Board within 30 days of approval of such amendments unless such reporting requirement is waived.
 - (3) Under guidelines developed by the Legislative Budget Board, each agency shall file a report with the Legislative Budget Board, the Governor, the Legislative Reference Library, the state publications clearinghouse of the Texas State Library, State Auditor's Office, and the appropriate substantive committees of the House and Senate. The report shall analyze the agency's performance relative to the attainment of stated outcome, output and efficiency targets of each funded goal and strategy. The report shall be submitted at such intervals required by the Legislative Budget Board. The report shall contain a comparison of actual performance for the reporting period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the Legislative Budget Board (in consultation with the Governor) shall:
 - (A) specify the measures to be reported including the key performance measures established in this Act;
 - (B) approve the definitions of measures reported; and
 - (C) establish standards for and the reporting of variances between actual and targeted performance levels.
 - (4) The Legislative Budget Board (in consultation with the Governor) may adjust projected performance target levels, develop new measures, modify or omit existing measures and measure definitions, and/or transfer measures between agencies, goals or strategies to reflect appropriation changes made by riders or other legislation subsequent to passage of this Act, invocation of budget execution authority by the Governor and the Legislative Budget Board, or as unforeseen circumstances may warrant during the biennium.
 - (5) To ensure that the Program and Cost Accounting functions of the Uniform Statewide Accounting System (USAS) are maximized, it is the intent of the Legislature that the Legislative Budget Board and the Governor:
 - (A) determine the agencies, institutions, goals, strategies or other reporting units for which cost accounting data is required;
 - (B) approve the basis for calculating and allocating costs to selected functions, tasks or measures;
 - (C) determine the frequency of reporting cost accounting data needed; and
 - (D) provide for the integration of cost accounting data into the budget development and oversight process.
 - (6) The determinations to be made should be based upon due consideration of the relative benefits and cost-effectiveness of applying cost accounting requirements to a given state operation.
- (b) It is further the intent of the Legislature that the Comptroller develop and provide USAS training modules and support for state agencies and institutions to activate the cost accounting requirements addressed above.

REPORTING REQUIREMENTS

(Continued)

Sec. 7.02. Annual Reports and Inventories.

- (a) None of the moneys appropriated by this Act may be expended after November 20th following the close of the fiscal year unless an annual report has been filed by the executive head of each agency specified in this Act in accordance with § 2101.011, Government Code.
- (b) The State Auditor shall certify to the Comptroller any agency that has not filed the required annual report within the specified time. The Comptroller shall withhold any appropriations for expense reimbursements for the heads of agencies or any employees of such agencies as are on this certified list until the State Auditor notifies the Comptroller that the delinquent reports have been filed.
- (c) The words “heads of agencies” as used in this section means the elected and appointed officials, members of commissions, boards, etc., and the chief administrative officer of such department, board, commission, bureau, office, or agency of the state for which appropriations are made in this Act.

ARTICLE XI. SAVINGS CLAUSE

If any section, sentence, clause or part of this Act shall for any reason be held to be invalid, such decision shall not affect the remaining portions of this Act; and it is hereby declared to be the intention of the Legislature to have passed each sentence, section, clause, or part thereof irrespective of the fact that any other sentence, section, clause or part thereof may be declared invalid.

ARTICLE XII. EMERGENCY CLAUSE

The importance of the legislation to the people of the State of Texas and the crowded condition of the calendars in both Houses of the Legislature create an emergency and an imperative public necessity that the Constitutional Rule requiring bills to be read on three separate days in each House be suspended, and said Rule is hereby suspended; and this Act shall take effect and be in force from and after its passage, and it is so enacted.

PROCLAMATION
BY THE
Governor of the State of Texas

41-3016

TO ALL TO WHOM THESE PRESENTS SHALL COME:

Senate Bill No. 1, the General Appropriations Act, having been duly certified by the Comptroller of Public Accounts pursuant to Article III, Section 49a of the Texas Constitution, has been presented to me for action. The bill would appropriate an estimated \$139.4 billion from all fund sources, including \$65.6 billion from the General Revenue Fund for the fiscal biennium beginning September 1, 2005. General revenue spending would increase by \$5.9 billion or 9.8% compared to the current biennium.

As I discussed in my State of the State address in January, Texans have a right to an unambiguous and understandable state budget that shows how tax dollars are spent. Senate Bill No. 1 continues the recent practice of combining numerous programs into enormous line items of appropriation that allow too much discretion in the use of public dollars. This practice restricts the ability of a governor to exercise the constitutional authority to line item veto. For instance, hidden in the Parks and Wildlife Department's budget is \$1,000,000 to construct bird watching facilities. Over \$18 billion is appropriated to higher education in lump sums that would require the governor to veto an entire university to reject any provincial, outdated or ill-advised spending item.

I am vetoing the appropriations to the Texas Education Agency because the legislature did not make the best use of resources available for public education. By not passing House Bill No. 2 the legislature failed to make meaningful reforms in education policy, improve student performance, increase accountability, provide better teacher compensation, and did not appropriately fund textbooks and classroom technology. The legislature left an estimated \$2 billion on the table that could have been used for these purposes.

My line item vetoes total \$23.4 billion in general revenue and \$35.3 billion in all funding sources. Totals excluding the Texas Education Agency are \$576.6 million in general revenue and \$1.7 billion in all funds.

I hereby object to and veto the following items from Senate Bill No. 1 and include a statement of my objections to each of those items.

Article I – General Government

Commission on the Arts

C.1.2. Information Resources

	<u>2006</u>	<u>2007</u>
	\$314,252	\$217,151

This veto deletes an appropriation for information resources. The agency should maintain its computer technology within current funding.

5. ~~Unexpended Balances within the Biennium. Any unexpended balances in appropriations made to Strategy A.1.2, Arts Education Grants, remaining as of August 31, 2006, are hereby appropriated to the Commission on the Arts for the fiscal year beginning September 1, 2006, for the same purpose.~~

This veto deletes the ability to carry grant fund balances from year to year. The agency should award and make grants in the year funds are appropriated.

<u>Trusted Programs within the Office of the Governor</u>	<u>2006</u>	<u>2007</u>
A.1.1 Agency Grant Assistance	\$6,879,264	UB

This veto deletes the Governor's Emergency and Deficiency Grants, 94 percent of which were transferred by rider to another agency to fund ongoing operations substantially limiting the purpose of an appropriation to handle one-time short falls or unanticipated expenses.

~~24. Contingency Appropriation for Senate Bill 1096. Contingent upon the enactment of Senate Bill 1096, or similar legislation by the Seventy-ninth Legislature, Regular Session, 2005, all amounts transferred from the Employment and Training Investment Holding Fund to the General Revenue Dedicated Texas Enterprise Fund Account No. 5107, not to exceed \$130,000,000, are hereby appropriated out of the General Revenue Dedicated Texas Enterprise Fund Account No. 5107 to the Trusted Programs Within the Office of the Governor Strategy A.1.8, Texas Enterprise Fund for the purposes of economic development initiatives in accordance with Government Code § 481.078.~~

This veto deletes a contingent rider for a bill that did not pass. Article IX Section 14.17 repeals this rider.

~~27. Contingency Appropriation for Senate Bill 1100. Contingent upon the enactment of Senate Bill 1100, or similar legislation, related to the promotion of tourism relating to the musical heritage of this state, it is the intent of the Legislature that \$10 million in federal Transportation Enhancement Program funds administered by the Texas Department of Transportation be made available during the biennium for whichever entity is designated as the official Texas museum of music history by the Trusted Programs Within the Office of the Governor, provided that such entity meets federal grants requirements of the federal Transportation Enhancement Program as defined by the federal regulation of the U.S. Department of Transportation, Federal Highway Administration, under Title 23 of the United States Code. The Texas Department of Transportation will review the Texas museum of music history project to determine if the project meets the federal Transportation Enhancement Program guidelines in Title 23 of the United States Code. It is the intent of the Legislature that funds appropriated above would cover allowed costs of administering the Texas museum of music history project approved for federal Transportation Enhancement Program funds.~~

~~In addition, the Texas Department of Transportation may redirect obligated funds previously obligated for the Texas museum of music history under the Transportation Enhancement Program to other available projects should the project fail to receive federal approval or federal Transportation Enhancement Program funds are not available due to changes in federal laws, rules, regulations, or appropriations.~~

This veto deletes a contingent rider for a bill that did not pass.

Article II – Health and Human Services
Department of Aging and Disability Services

~~51. Contingent Appropriations for Nursing Facilities and Hospice Payments. Appropriations made above from nursing facility quality assurance fee (QAF) revenues are contingent upon the enactment of authorizing legislation and federal approval of necessary waiver requests and state plan amendments required to comply with federal regulations under 42 C.F.R. Section 433.68(e). It is the intent of the Legislature that appropriations from this source be used to enhance the quality of care provided to nursing home residents, improve payment rates to providers and finance the transition to a more effective reimbursement methodology. Appropriations made above include the amounts necessary to fund the following specific purposes: 1) the Medicaid rate increase required~~

to reimburse providers for the QAF associated with Medicaid units of service (\$132,346,268 GR-Dedicated, Estimated and \$207,700,669 in Federal Funds); 2) increased costs resulting from increased resident acuity (\$14,733,470 GR-Dedicated, Estimated and \$23,310,378 in Federal Funds); 3) restoration of rates to FY 2003 levels (\$30,764,589 GR-Dedicated, Estimated and 48,280,878 in Federal Funds); 4) provider rate payments (\$166,100,000 GR-Dedicated, Estimated and \$260,671,752 in Federal Funds); and 5) costs associated with a rate reimbursement methodology for Nursing Facilities based upon a Resource Utilization Groups Resident Classification System—RUGS-III (\$3,300,000 GR-Dedicated, Estimated and \$3,300,000 in Federal Funds).

This veto deletes a contingent appropriation for a new requirement that did not pass. Additionally, the proposed quality assurance fee would have unfairly penalized nursing facilities that do not have Medicaid clients by imposing a tax on those facilities for which the residents would receive absolutely no benefit. Future increases in nursing home appropriations should be funded with general revenue.

Department of Assistive and Rehabilitative Services

~~31. Contingency for House Bill 2. Contingent upon enactment of House Bill 2 or similar legislation relating to public education and public school finance matters, by the Seventy-ninth Legislature, Regular Session, \$1,657,877 in fiscal year 2006 and \$3,267,736 in fiscal year 2007 shall be set aside from the special education allotment out of funds appropriated to the Texas Education Agency, and transferred to the Department of Assistive and Rehabilitative Services via interagency contract for the purpose of providing transition services to students with disabilities through the Vocational Rehabilitation program. These funds shall be classified as Interagency Contracts—Transfer from Foundation School Fund No. 193. The matching Vocational Rehabilitation Federal Funds are estimated to be \$6,125,524 in fiscal year 2006 and \$12,073,631 in fiscal year 2007.~~

~~Funds shall be transferred by October 1 of each fiscal year. In addition to the TEA special education funds, it is the intent of the legislature that VR federal funds be used to fund this program in the amount of \$1,657,877 in fiscal year 2006 and \$3,267,736 in fiscal year 2007.~~

~~Prior to expenditure of other funds received through interagency contract with the Texas Education Agency DARS shall report in writing to the Legislative Budget Board and the Governor the amount of state and federal funds the agency will allocate to transition services in Strategies B.1.3 and B.3.1 in each fiscal year of the biennium. The report shall include the number of students with disabilities expected to be served, services to be provided with the funds, and any other details of the transition services requested by the Legislative Budget Board or the Governor.~~

~~Contingent upon enactment of House Bill 2 or similar legislation, DARS is required to enter into a Memorandum of Understanding (MOU) with the Texas Education Agency for the purpose of providing transition services to students with disabilities through the Vocational Rehabilitation program. The MOU may include provisions the agencies deem necessary. DARS shall provide a signed copy of the MOU to the Legislative Budget Board and the Governor, no later than September 1, 2005 and September 1, 2006.~~

~~DARS shall submit quarterly reports to the Legislative Budget Board and the Governor that provide information about the number of students with disabilities served in Strategies B.1.3 and B.3.1 and details of funded services. The format of the reports and details of information included shall be specified by the Legislative Budget Board.~~

~~Performance measure targets will be adjusted upon enactment of House Bill 2 for Strategy B.1.3 (Number of Consumers Served) and Strategy B.3.1 (Number of Consumers Served) to reflect the contingency appropriation.~~

This veto deletes a contingent rider for a bill that did not pass.

<u>Health and Human Services Commission</u>	<u>2006</u>	<u>2007</u>
B.2.3. Medicare Federal Give Back	\$154,004,346	\$290,251,488

This veto deletes both years of the appropriation to fund the state's contribution to the new Medicare Part D benefit for recipients eligible for Medicaid and Medicare services (i.e., dual eligibles). I strongly support the federal assumption of prescription drug costs for dual eligibles. Texas will be a full partner in the success of implementing and ensuring a smooth transition of dual eligible individuals to the new Part D benefit in January 2006. This appropriation is based on a preliminary estimate which may not accurately reflect the final methodology used by the federal government.

I continue to object to the Center for Medicare and Medicaid Services' interpretation of the state payment formula (i.e., clawback) and believe it penalizes states like Texas that have taken innovative steps to provide Medicaid drug benefits, control drug cost increases, and manage overall program costs trends. I am also concerned about new state administrative costs associated with the Medicare benefit and believe the federal government must clarify the federal-state roles and responsibilities in providing eligibility determination. Therefore, it is my intention to seek further changes at the federal level as soon as possible to ensure that the calculation of the clawback amount appropriately recognizes the aggressive efforts by Texas to reduce the rate of growth on prescription drug spending.

Article III – Education

<u>Texas Education Agency</u>	<u>2006</u>	<u>2007</u>
All items of appropriation	\$17,061,030,543	\$16,705,509,503

Contingency appropriation, Rider 94 (145,000,000)

This veto eliminates all appropriations for the Texas Education Agency including contingency appropriation rider 94. Textbook funding provided by HB 10 is not changed by this action.

<u>Higher Education Coordinating Board</u>	<u>2006</u>	<u>2007</u>
B.1.10. Strategy: OAG Lawyers Loan Repayment	\$486,556	\$75,000

This veto is intended to reduce tuition costs for law students at Texas public law schools. The Office of the Attorney General Lawyers Loan Repayment program requires law students in Texas public law schools to pay an additional one percent tuition charge in order to fund the repayment of loans for attorneys in the Office of the Attorney General. There is no limitation that the funds from the Texas public law students be used only for students educated in Texas public law schools. This results in Texas public law students potentially paying for the education loans of students from private and out of state institutions. This statutory financial aid program should be eliminated, and the tuition set aside ended in order to lower the cost of earning a legal degree for all public law school students and to recognize that lawyers in the Office of the Attorney General received a seventeen and a half percent pay raise for the coming biennium.

~~41. OAG Lawyer's Loan Repayment Program. The funds provided to the OAG Lawyer's Loan Repayment Program are appropriated in accordance with Education Code §§61.9721-61.9732 for providing education loan repayments for attorneys who agree to~~

All balances in the General Revenue Fund that are dedicated tuition set asides under this program as of August 31, 2005, estimated to be \$411,556, and all receipts received during the biennium are hereby appropriated to the Coordinating Board for the biennium ending August 31, 2007 for the same purpose. Any balances on hand at the end of fiscal year 2006 may be carried over to the fiscal year 2007 and any such funds are appropriated for fiscal year 2007 for the same purpose.~~

This veto deletes a rider for the financial aid program, the funding for which was vetoed.

Article IV – Judiciary

Office of Court Administration, Texas Judicial Council

~~16. Contingency Appropriation for Senate Bill 368. Contingent on passage of Senate Bill 368 or similar legislation by the Seventy-ninth Legislature relating to compensation of state judges, and the Comptroller of Public Accounts issuing a finding of fact certifying additional revenue collections from fees, fines, and court costs during the 2006-07 biennium in Judicial Fund No. 573 that exceed the Comptroller of Public Accounts Biennial Revenue Estimate for these items by at least \$103,550 in fiscal year 2006 and \$24,848 in fiscal year 2007, the Office of Court Administration is appropriated \$103,550 in fiscal year 2006 and \$24,848 in fiscal year 2007 out of the Judicial Fund No. 573 in Strategy A.1.2, Information Technology, for the purpose of implementing live broadcasts of Supreme Court proceedings over the Internet. Any unexpended balances in these funds as of August 31, 2006 are hereby appropriated to the Office of Court Administration for the fiscal year beginning September 1, 2006 for the same purposes.~~

This veto deletes a contingent rider for a judicial salary increase which did not pass in any legislation.

Article V – Public Safety and Criminal Justice

Texas Department of Criminal Justice

	<u>2006</u>	<u>2007</u>
C.1.10 Contracted Temporary Capacity	\$19,850,729	\$43,814,542

This veto deletes the FY 2006 appropriation for contracted temporary capacity at the Texas Department of Criminal Justice (TDCJ). The agency received \$15.9 million in emergency appropriations in House Bill 10, but will not spend all of this funding in 2005. In addition, the appropriation for this purpose in FY 2007 is more than twice the appropriation for 2006. The projected need for contracted beds, combined with the lapsed funding over the next biennium does not support this increase. Since TDCJ has rider authority to move funds between fiscal years if necessary, the agency can use the 2007 appropriation to fund this strategy for the entire biennium. The federal funds included in this strategy would remain available to TDCJ per Article IX, Sec. 8.02.

~~82. Contingency Appropriation for House Bill 1093. Contingent upon the enactment of House Bill 1093 by the Seventy-ninth Legislature, Regular Session, or similar legislation relating to the eligibility of certain inmates of the Texas Department of Criminal Justice for medically recommended intensive supervision, the Texas Department of Criminal Justice's appropriations in Strategy C.1.8, Managed Healthcare, are hereby reduced by \$765,717 for fiscal year 2006 and \$838,017 for fiscal year 2007 from General Revenue Funds.~~

This veto deletes a contingent rider for a bill that did not pass.

Texas Military Facilities Commission

	<u>2006</u>	<u>2007</u>

FILED IN THE OFFICE OF THE
SECRETARY OF STATE

JUN 18 2005

This veto eliminates funding for the Texas Military Facilities Commission. The primary function of this agency is to acquire property and manage facilities for the Texas National Guard. At this time of transition, during the federal base realignment and closure process, it has become clear that the uniformed personnel of the Texas National Guard require and deserve the direct control of their facilities' management. This veto is intended to give the Texas National Guard a more direct way to maintain personnel readiness through facilities management.

The duties and functions of this agency will be transferred to another entity by Executive Order.

Article VI – Natural Resources

Railroad Commission

15. Contingency Appropriation: Oil Field Cleanup Account and General Revenue Fee Allocations. Notwithstanding other provisions contained in this Act, contingent upon the passage of legislation by the Seventy-Ninth Legislature modifying the allocation of fee revenues from oil and gas operators deposited to the credit of the General Revenue Fund and the Oil Field Cleanup Account No. 145, appropriations to the Railroad Commission are hereby modified as follows:

(1) Appropriations out of the General Revenue Fund are hereby increased by \$3,429,891 in fiscal year 2006 and by \$2,808,050 in fiscal year 2007 in new fee revenues generated from the passage of legislation by the Seventy-Ninth Legislature, 2005, increasing revenues to the General Revenue Fund from fee increases assessed to oil field operators and in new fee revenues contingent upon the Railroad Commission increasing fees assessed for the Pipeline Safety, Rail Safety, and Surface Mining programs. This appropriation shall be transferred to the appropriate strategies listed above.

(2) Appropriations out of the Oil Field Cleanup Account No. 145 are hereby increased by \$352,907 in fiscal year 2006 and by \$329,672 in fiscal year 2007. This appropriation shall be transferred to the appropriate strategies listed above.

(3) Appropriations out of Earned Federal Funds are hereby increased by \$6,681 in fiscal year 2006 and by \$6,241 in fiscal year 2007. This appropriation shall be transferred to the appropriate strategies listed above.

(4) Appropriations out of the Alternative Fuels Research and Education Account No. 101 are hereby increased by \$151,255 in fiscal year 2006 and by \$148,279 in fiscal year 2007. This appropriation shall be transferred to the appropriate strategies listed above.

(5) Appropriations out of Federal Funds are hereby increased by \$57,453 in fiscal year 2006 and by \$44,242 in fiscal year 2007. This appropriation shall be transferred to the appropriate strategies listed above.

(6) Appropriations out of Appropriated Receipts are hereby increased by \$15,584 in fiscal year 2006 and by \$12,000 in fiscal year 2007. This appropriation shall be transferred to the appropriate strategies listed above.

(7) Appropriations out of Interagency Contracts are hereby increased by \$2,268 in fiscal year 2006 and by \$1,747 in fiscal year 2007. This appropriation shall be transferred to the appropriate strategies listed above.

(8) The "Number of Full-Time-Equivalents (FTE)" indicated herein for the Railroad Commission is hereby increased by 9.5 in each fiscal year of the 2006-07 biennium; and

(9) The Railroad Commission's Capital Budget authority is hereby increased for the following items and in the following amounts:

	<u>2006</u>	<u>2007</u>
(a) Oil and Gas Technology Migration	\$747,823	\$747,823
(b) Information Technology Infrastructure Upgrade	\$1,243,235	\$503,831
(c) Replacement Vehicles	\$222,285	\$222,285

These appropriations are contingent upon new revenues being created due to the passage of legislation and deposited to the credit of the General Revenue Fund in an amount at least equal to \$3,206,179 in fiscal year 2006 and at least equal to \$2,615,392 in fiscal year 2007; deposited to the credit of the Oil Field Cleanup Account No. 145 in an amount at least equal to \$352,907 in fiscal year 2006 and at least equal to \$329,672 in fiscal year 2007; and deposited to the credit of the Alternative Fuels Research and Education Account No. 101 in an amount at least equal to \$31,174 in each fiscal year of the 2006-07 biennium. The General Revenue appropriations are further contingent upon the Railroad Commission increasing by rule fees sufficient to cover the following increases: for the Pipeline Safety Program, an increase of \$74,764 in fiscal year 2006 and \$74,513 in fiscal year 2007; for the Rail Safety Program, \$85,271 in fiscal year 2006 and \$63,332 in fiscal year 2007; and for the Surface Mining Program, \$58,677 in fiscal year 2006 and \$54,813 in fiscal year 2007. In addition, it is the intent of the Legislature that such revenues cover "Other direct and indirect costs" related to the 9.5 additional FTEs authorized above and appropriated elsewhere in this Act. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Comptroller of Public Accounts shall reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

This veto deletes a contingent rider for a bill that did not pass.

Article VIII – Regulatory

<u>Texas Workers' Compensation Commission</u>	<u>2006</u>	<u>2007</u>
E.1.1 Central Administration	\$3,786,690	\$3,807,374
E.1.4. Other Support Services	\$1,165,847	\$1,251,164

This veto deletes appropriations for administrative services to the Texas Workers' Compensation Commission. The transfer of the functions of the Workers' Compensation Commission to a division within the Texas Department of Insurance is expected to result in significant savings, particularly in the administration of the agency. This veto deletes biennial funding for E.1.1 and 2007 funding for E.1.4. to reflect those savings.

Article IX – General Provisions

Sec. 14.37. Contingency Appropriation for Senate Bill 165.
